The Golden Football How Greed and Athletics Changed a College Town After a hard day at work, Dr. James Conway, president of Western Montana College (WMC), settled into his favorite arm chair and opened the morning edition of the *Missoulian*. As he stared at the headlines, a shock wave of anger flowed through his body. It read: "WESTERN MONTANA TO JOIN THE SOUTH ALABAMA CONFERENCE." His athletic department, primarily the football program, had unilaterally accepted a massive television deal worth millions to bolt from the Western Conference and join one two time zones away. He was the last to know. The writing was on the wall—he had lost control of his beloved college to big money interests and booster organizations. In a war of good versus evil (i.e., spiritual warfare), meet the main characters in this fast-pace saga: *Bo Jensen*: fantastic running back for the Western Montana College Bears with a promising future in the NFL. Changes in NCAA regulations allowed him to prosper from the sale of a variety of items including ladies thongs. *Milton (Milty) Douglas, Esq.*: senior partner at The Douglas Law Firm and former Bears football star. His practice was limited to defending "student-athletes" and fraternity/sorority members in their encounters with the law. Almost all the students on campus were familiar with the expression: "If you're guilty, call Milty." *Bob ("Rooster") Jones*: ill-mannered, corrupt, and abrasive billionaire; and financial supporter of Bears football and former player. *Queen Esther*: Sigma Phi Beta sorority president, Madam of the sorority's prostitution ring, and occasional student at WMC after her daily beauty treatments. *Jimbo ("The Bear") Collins*: unscrupulous head football coach for the Bears. *Mark and Hannah Anderson*: pastors at Calvary Chapel, Missoula. They served as counter-weights to an immoral culture that was quickly sliding Missoula and the country into the sewer. *Jill Hansen*: 20 year-old sophomore at WMC. Raised in a small farming community of Darby, Montana, she was the woman nearly every parent hoped their son would someday marry.

This is a must-have book for every true lover of Stoke City FC, so download it now! I have spent the better part of the last 53 years taking well over a thousand multiple choice tests. As a teenager, I struggled through high school. Armed with an average IQ and some fairly significant learning disabilities, I barely graduating with a 1.4 grade point

average. However, I was smart enough to figure out early on that much of academics, and that achieving success in academics, had far more to do with the ability to master multiple choice tests than raw intellect. From there I began a 35 year study on the art and science of passing, mastering and scoring high on multiple choice tests. Despite a very substandard high school GPA, I scored high enough on the SAT and the ACT to be accepted to the University of Michigan, one of the top academic institutions in the Country. Upon graduation from college, I accepted a commission as an officer in the United States Marine Corps. As a Marine Officer, I completed dozens of military and civilian schools, including a Masters Degree from Boston University, and a Juris Doctor Degree from the University of Detroit School of Law. In fact, I earned a full ride military scholarship to law school based primarily on the fact I scored so highly on the Law School Aptitude Test (98th percentile). Upon completion of law school, I passed the Michigan Bar exam on the first attempt, scoring 149 points on the multistate (the multiple choice portion of the exam), which was one question away from automatic passage (at 150 they examiners do not need to grade the essay portion). I have also taken and applied many of the Marine Corps concepts of discipline and mental toughness to the art of preparing for, taking, and passing multiple choice tests. Resigning my commission and leaving the Marine Corps in 1990, I continued both my education as well as honing my test taking skills. I currently hold 12 professional licenses and 5 professional designations, which required me to pass several comprehensive and difficult multiple choice examinations. I have also attended dozens of professional test preparation courses. From those courses I have cherry picked all of the valuable lessons and test taking tips and have included those in this book. One of the professional licenses I hold is a paramedic license. As a paramedic I have gained a much greater understanding of the anatomy and physiology of test taking. Test taking is all about the central nervous system, which of course includes the brain. However, as I explain in this book, it is clear that the sympathetic and parasympathetic nervous systems have as much to do with passing and failing multiple choice tests as does the brain. Accordingly, I have also applied many of those principals in this book. Soccer is the biggest game in the world and has proved to be an unprecedented phenomenon of social impact, inhabiting a prominent place in the daily lives of millions of human beings, a game that has impact even in the most remote places. In an ever-changing world of soccer coaching and tactics, player intelligence has become increasingly important, providing the essential ability to act effectively in a given moment. Therefore, in recent years, the tactical component has been increasingly valued and diffused. Around the world, this dimension of sport performance is being studied and applied by many

professionals in the field, from the youth academies all the way through to the professional level. This book is designed to help those who devote much of their time to improving the quality of the game, by coaching and training highly informed, creative and intelligent players. These coaches devote their time and energy to improve players' and teams' performances. In turn, match analysts, physiotherapists, psychologists, clinicians and the sport science team dedicate themselves to optimize resources that help boost the performance levels of the players, the coaches and the team. *Football Intelligence: Training and Tactics for Soccer Success* presents procedures and ideas that, besides assisting in the task of evaluating the tactical performance of soccer players and teams, also allows improving their expression throughout the learning and training phase. This book will be key reading for football coaches and players alike, as well as students and practitioners of sport psychology and performance analysis.
