To Serve God and Wal-Mart Aug 23 2022 In the decades after World War II, evangelical Christianity nourished America's devotion to free markets, free trade, and free enterprise. The history of Wal-Mart

uncovers a complex network that united Sun Belt entrepreneurs, evangelical employees, Christian business students, overseas missionaries, and free-market activists. Through the stories of people linked by the world's largest corporation, Bethany Moreton shows how a Christian service ethos powered capitalism at home and abroad. While industrial America was built by and for the urban North, rural Southerners comprised much of the labor, management, and consumers in the postwar service sector that raised the Sun Belt to national influence. These newcomers to the economic stage put down the plough to take up the bar-code scanner without ever passing through the assembly line. Industrial culture had been urban, modernist, sometimes radical, often Catholic and Jewish, and self-consciously international. Post-industrial culture, in contrast, spoke of Jesus with a drawl and of unions with a sneer, sang about Momma and the flag, and preached salvation in this world and the next. This extraordinary biography of Wal-Mart's world shows how a Christian pro-business movement grew from the bottom up as well as the top down, bolstering an economic vision that sanctifies corporate globalization. The author has assigned her royalties and subsidiary earnings to Interfaith Worker Justice and its local affiliate in Athens, GA, the Economic Justice Coalition.

Chinese Martial Arts Training Manuals Sep 11 2021 Secret training manuals, magic swords, and flying kung fu masters—these are staples of Chinese martial arts movies and novels, but only secret manuals have a basis in reality. Chinese martial arts masters of the past did indeed write such works, along with manuals for the general public. This collection introduces Western readers to the rich and diverse tradition of these influential texts, rarely available to the English-speaking reader. Authors Brian Kennedy and Elizabeth Guo, who coauthor a regular column for Classical Fighting Arts magazine, showcase illustrated manuals from the Ming Dynasty, the Qing Dynasty, and the Republican period. Aimed at fans, students, and practitioners, the book explains the principles, techniques, and forms of each system while also placing them in the wider cultural context of Chinese martial arts. Individual chapters cover the history of the manuals, Taiwanese martial arts, the lives and livelihoods of the masters, the Imperial military exams, the significance of the Shaolin Temple, and more. Featuring a wealth of rare photographs of great masters as well as original drawings depicting the intended forms of each discipline, this book offers a multifaceted portrait of Chinese martial arts and their place in Chinese culture.

Rwanda Nov 13 2021 This paper discusses key findings and recommendations of the Detailed Assessment Report on Anti-Money Laundering and Combating the Financing of Terrorism (AML/CFT) for Rwanda. Rwanda has taken considerable steps over the last years to establish a national AML/CFT framework. The Rwandan authorities have made great progress in modernizing the financial sector, and aim at making it more attractive to foreign investors. Although the risks of money laundering and terrorist financing do not appear to be particularly significant in Rwanda, further action should be taken to bolster the legal framework, improve its implementation, strengthen overall supervision of reporting entities within the financial sector, and mitigate the potential domestic and cross-border risks.
