Presents the first biography of California Governor Jerry Brown in 30 years. A fascinating biography of Sarah Palin with exclusive new information, written by People magazine assistant editor Lorenzo Benet—who was the last person to interview her prior to her nomination as John McCain's vice presidential candidate. Sarah Palin has been the focus of countless news stories on everything from her signature "up-do" to her governorship of Alaska—even her teenage daughter's pregnancy. Expanding upon the People magazine cover story conducted just before McCain announced his choice for running-mate, Lorenzo Benet offers a never-before-seen look at the life of Sarah Palin—giving readers unprecedented insight into both her personal and professional background. Trailblazer delves into Palin's relationship with her husband Todd, including details on how they met and their shocking elopement, as well the births of their children, Track, Willow, Piper, Bristol, and the surprise of little Trig. Palin's career has been a swift if winding journey, leading her and her family in vastly different directions. From her commercial fishing venture to her stint as a local sportscaster for an Anchorage television station, Sarah has worn many hats, eventually leading her to a career in

politics. With her beauty, charisma, and political ruthlessness, she quickly skyrocketed from town council member to mayor to governor to vice-presidential nominee. A captivating human interest story, Trailblazer is an intimate portrait of a small-town, self-proclaimed hockey mom who has captured the nation's attention and rejuvenated the Republican party. This is the first significant publication to explore the output of Matt Keegan, the New York-based artist known for his work across mediums, as well as independent publishing including the acclaimed editioned art journal North Drive Press. This monograph expands on a recent solo exhibition by the artist at Rogaland Kunstsenter; Stavanger, Norway, titled "Portable Document Format." The show was organized as an idiosyncratic retrospective, with Keegan remaking sculptures dating from 2006 to 2015, initially fabricated in Sheetrock and steel, in cardboard. Like the exhibition, the publication serves both as a project and a reference for the artist's work. Essays by Tom McDonough and John Miller theorize Keegan's production, while interviews with Sara VanDerBeek and Anna Craycroft underscore the artist's ongoing engagement with his peer group. Furthered by contributions from colleagues Uri Aran, Leslie Hewitt and James Richards, situated alongside full-color installation photos and reproductions of work from the past decade, Matt Keegan: OR provides a solid introduction and layered overview of the artist's multifarious practice. Thus each new generation is sweated by Chevy's designers, engineers, marketing staff, and executives to ensure that it sets the bar higher than the preceding version. With the eighth generation, Chevrolet has done more than raise the bar or move the goalpost—they've torn down the stadium and started from scratch. For the first time ever in a production version, the new Corvette features a mid-engine configuration. Though Corvette engineers have experimented with this engine placement over the past several decades, 2020 marks the first time GM has committed it to production cars. Corvette already had prodigious power on tap, but its front-engine configuration put some limitations on its handling and traction. The new mid-engine Corvette eliminates any final performance barriers and takes the battle to supercar rivals like Ferrari, Lamborghini, and McLaren. It's the story
