**The Company Daughters** Aug 27 2020 'Blew my mind... so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book... I loved every moment of it... immersive, heart-wrenching, I feel emotional writing this review.' Goodreads reviewer, 5 stars Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. With fear in their hearts, the girls begin their journey – but what awaits them on the other side of the world is nothing like what they've been promised... Based on true history, this is a gripping and unputdownable historical novel, perfect for fans of Girl with a Pearl Earring, The Miniaturist and The Indigo Girl. WINNER OF THE 2021 GOLDEN CROWN LITERARY SOCIETY AWARD FOR DEBUT FICTION. FINALIST FOR THE 2021 BISEXUAL BOOK AWARDS. LONGLISTED FOR THE 2021 HWA DEBUT CROWN AWARD. What readers are saying about The Company Daughters: 'Blew my mind... a book I've told so many people about purely because I'm still in disbelief that it exists, that it's so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book of a woman's struggle to survive... I loved every moment of it. Breathlessly, and in a way that took up my entire brain... immersive, heart-wrenching, and I feel emotional writing this review.' Goodreads reviewer, 5 stars 'From the moment I started reading The Company Daughters, I was captivated by this historical tale. Although it does contain a love story, it's not a romance... This was a gripping read.' Goodreads reviewer 'This book is so stunningly tender and beautiful, all mixed in with some seriously tragic and heart-wrenching events... Rajaram is an extremely skilled writer, and I love her writing style... The themes of sisterhood and female love were so present in this book and I found it very moving.' Goodreads reviewer 'I was enchanted by this book! It's a delightful read that will have your emotions all over the place.' Goodreads reviewer 'I love historical fiction, and this book

touched on a topic and time I knew nearly nothing about... There's love, there's loss, there's surviving, there's thriving... It was a very beautiful book.' Goodreads reviewer 'The Company Daughters is a beautifully written love story... a perfect example of the power of human will and the endurance and hope that love can give a person.' Goodreads reviewer, 5 stars 'This book has a beauty and grace to it. The author's writing just flows off the page, and although there are struggles and upsets by the time you close the book over you are filled with a warm glow.' Goodreads reviewer 'A powerful and insightful read. I look forward to reading more historical work by Samantha Rajaram!' Goodreads reviewer 'Heartbreaking... a moving book... vivid, with amazing characters... This is a great read.' Goodreads reviewer

**Legendary Motorcycles** Jun 05 2021 Motorcycles are mythic, far more than mere transportation, but some are in a class of their own, truly legendary machines. There are the Triumphs: James Dean's, Marlon Brando's in *The Wild Ones*, the one Steve McQueen took over the fence in *The Great Escape*. There are Evel Knievel's and Elvis's Harleys, the Easy Rider Stars 'n' Stripes bike, and T. E. Lawrence's Brough Superior SS100; Von Dutch's Condor, Craig Vetter's Mystery Ship, and Mike Hailwood's Honda RC162. These are just some of the machines that have made motorcycle history, and that make this book a feast for the eyes and a fact-filled odyssey for the motorcycle aficionado. Illustrated with commissioned photographs and historical images, the book profiles the bikes--not just the models but the actual motorcycles--that have achieved legendary status in the last century. Their stories, told here in detail for the first time, make up the story of the motorcycle in American culture. **NASA Operations Manual** Feb 19 2020 Established in 1958 in response to Russia's Sputnik 1, launched on 4 October as the world's first artificial satellite, NASA - the National Aeronautics and Space Administration - emerged out of the National Advisory Committee for Aeronautics which had been formed in 1915. The NASA Operations Manual tells the story of America's civilian space agency, the facilities it operates, where they are and what they do. It explains how much NASA costs the American taxpayer and looks at what it returns to the taxpayer in benefits to the economy. NASA has forged a niche in modern history that extends beyond the realisation of age-old dreams to leave Earth and explore the heavens - it has become a synonym for achievement, performance and greatness, in setting goals and achieving them, in failing and learning how to recover, in connecting people around the world with international programmes to explore our solar system and live our ambitions, and in improving the lives of people everywhere through its inventions, discoveries, its technology and its engineering. Sixty years after NASA took hold of the reins of US civilian space programmes, the agency has a bold vision for great and ambitious goals, taking humans back to the Moon and on to Mars, perhaps visiting an asteroid, or setting up an interplanetary transport system on the way. And all the time, providing inspiration for a new generation. With more than 300 photographs, line drawings and charts, this book tours the United States, describing the centres of excellence and the facilities where rockets are tested, satellites are built and humans prepare for space. With summary review of research laboratories, test rigs, experimental platforms and engineering facilities, this book describes the 60 years of NASA as it has evolved through changing requirements and expanding capabilities, building on the past and preparing for a bold future.
