Designed for GCSE students preparing for NEAB exams in 1997/98, this textbook covers all four Biology modules, and is thus suitable for both the modular and the co-ordinated science syllabus. It follows the content of the syllabus, and includes checklists, key points, and short questions which focus on the examination content of the modules. These are followed by specimen questions (for each module) for the 1997/98 module tests and exams. The

revised edition of the highly successful Nelson Advanced Science Biology series comprises lively, high quality student books for senior secondary students of Biology and Human Biology. This bestselling GCSE course provides board specific Edexcel support, ideal to use alongside any series. The CD-ROMs include over 1000 supplementary resources to engage and challenge your students. The revised edition of the highly successful Nelson Advanced Science Biology series comprises lively, high quality student books for senior secondary students of Biology and Human Biology. Written by experienced authors and practising teachers the Essentials student book matches the OCR specifications for AS Biology and Human Biology. Printed file not sold separately. For CXC students who want to prepare fully for their exams, CXC Study Guides are a series of titles that provide students with additional support to pass the exam. CXC Study Guides are a unique product that have been written by experienced examiners at CXC and carry the board's exclusive branding. Designed to be suitable for a wide range of abilities, this students' book is a tried and tested package for year 9 biology courses. It includes photocopiable crosswords and wordsearches. Developed by leading and highly experienced authors, this series provides complete coverage of all the major GCSE science specifications. This Support Pack has been fully revised and updated with additional guidance on developing the new specifications, activities, ICT support, technician 'cards,' additional revision and assessment material including past paper questions and model answers. Bath Advanced Science - Biology is a well respected course book providing extensive coverage for Advanced Level Biology courses. Fully illustrated in colour, the high quality material will capture students' interest and aid their learning. This online teacher's guide provides additional downloadable electronic support for the Nelson Advanced Science Biology series. An accessible resource that can be used alongside the Advanced Biology text or any other core Advanced Biology text, as it covers the practical element for AS and A Level Biology. NO description available The major new course text has been written by experienced authors to provide coverage of the Advanced Subsidiary (AS) and Advanced GCE Biology and Human Biology specifications in a single book. Advanced Biology provides clear, well-illustrated information, which will help develop a full understanding of biological structure and function and of relevant applications. The topics have been carefully organised into parts, which give a logical sequence to the book. This new text has been developed to replace the best-selling titles Biology: Principles and Processes and Biology, A Functional Approach. Features include: full-colour design with clear diagrams and photographs; up-to-date information on biotechnology, health, applied genetics and ecology; clearly written text using the latest Institute of Biology terminology; a

useful summary and a bank of practice questions at the end of every chapter; support boxes help bridge the gap from GCSE or equivalent courses; extension boxes providing additional depth of content - some by guest authors who are experts in their field; and a comprehensive index so you can quickly locate information with ease. There is also a website providing additional support that you can access directly at [www.advancedbiology.co.uk](http://www.advancedbiology.co.uk). Biology for CXC is a comprehensive course for students in their fourth and fifth years of secondary school who are preparing for the CXC Examinations in Biology. The book has seven main sections, each divided into smaller self contained units to allow a flexible approach to teaching and learning. NOT AVAILABLE SEPARATELY

Student-friendly presentation of key concepts. Interactive format enables students to test themselves throughout. Contains valuable worked examples. All answers are provided so that the book can be used for self-study or as part of a taught course. Written specifically to cover the requirements of all A-level Human and Social Biology courses, this text is based on the authors' Understanding Biology for Advanced Level. It can also be used for GNVQ Health and Social Care, GNVQ Nursing Studies, and the introductory biology aspect of courses training the professions allied to medicine. The straightforward text, which is complemented by diagrams, is supplied together with a book of illustrations.

Make the Grade in AS Biology with Human Biology has been specially written to give students comprehensive exam support for senior secondary level Biology and Human Biology. It is a comprehensive revision guide for students that includes a bank of activities and questions for use throughout the course, with exam questions, including synoptic questions, to help students fully prepare for examinations. An introductory course which aims to help develop essential skills to answer questions involving the application of tabular, graphical and statistical techniques in advanced biology. Almost all examples and exercises have been developed from A-level questions and actual studies. Written by practising teachers, the best-selling authors of New Understanding Biology fourth edition, this text aims to increase the self-reliance of the senior secondary student. This book is fully accessible to students of all abilities and is clearly laid out in double page spreads, each one flagged for the specification it is relevant to, with sample exam questions. This brand new set of resources, focuses on raising levels of interest and achievement in Foundation GCSE candidates. This is the only Foundation Level course that is written to cover all major specifications, preparing students for Single and Double Award Sciences. NOT AVAILABLE SEPARATELY
