"Quick Study for Your Extra Class Amateur Radio License" gives you the easiest, most straightforward way to study for the Extra Class Amateur Radio License. This manual is filled with valuable hints, helpful calculations, exam insights and detailed explanations you won't find anywhere else! It also contains the complete 2016-2020 Extra Class Question Pool (thoroughly explained and demystified here) as well as THREE additional streamlined variations on the Question Pool so you can test yourself on what you know as well as help you to more quickly review before exam time. All this is organized into a simple to use three-step study methodology. So do not delay! Get started studying today for the top license in Amateur Radio! THIS EDITION IS FOR TESTS AFTER JULY 1, 2020 Amateur radio license tests are multiple-choice with three wrong answers and one right answer for each question. Traditional test-prep materials go through the questions and all the possible answers. For the Extra test, you see 622 questions and 2,488 answers but 1,866 answers are wrong! Why be confused and frustrated studying three wrong answers for every one right answer? Pass Your Amateur Radio Extra Class Test - The Easy Way is different. The focus is on the right answers and only the right answers with full explanations - All Ham and No Spam. The book is in two parts. The first explains the concepts covering every single test question with hints and cheats to help you understand recognize the correct answer. The second part is a condensed Quick Summary with only the questions and correct answers. Since you never see the wrong answers, the correct answers will pop out when you take the test. You learn to recognize, not memorize, the right answer. It couldn't be easier! Here are two testimonials: "I just wanted to let you know that I purchased all 3 of your amateur radio license study books, read them all 3 repeatedly and passed all three tests in 3 weeks! 1st week Tech, 2nd week General, and 3rd week Extra class. Your books give the information needed to understand the material and questions and in turn, give the reader the knowledge and confidence to pass the exams. I have wanted to get involved in amateur radio for years and now I have! I will be sure to let everyone interested in amateur radio study material to be sure and read Easy Way Ham Books! Thank you for writing these books." "Thanks for writing the "Pass Your Test The Easy Way" books! I got my Tech license in May, I scored 34/35. I got my General in June, scored 35/35. I just passed my Extra Class test this week and scored 50/50. I went to the same VE's for each test and after the Extra exam and some handshakes, they had questions about how I studied. I showed them my copy of your Extra class book, highlighted, notes written in the margins and so on. I used your books for each exam and they definitely made a difference for me. I did my part as well but your books definitely made it easier. The books are now part of the ham radio reference section in my library. I don't normally go out of my

way to thank an author, in fact, I've never done this before but your books made such a big difference for me I felt I should reach out and let you know about it. So, thanks again for writing this series, 73! " Includes 10 practice tests and additional bonus material. This is the edition to purchase if you plan to take your General Exam after July 1, 2019. If your plan is to take it before then, please see the earlier edition of this program, under the same title. Everything you need to prepare for your General Class ham license. Covers every question on the General exam. Memorizing 400+ random answers is hard -- and boring. Learning is easy! If you've made the decision to open up your ham radio world by going for the General Class License, great! General is certainly more challenging than Technician, but The Fast Track to Your General Class Ham Radio License explains the reasoning and technology behind each correct answer on the General Class exam so you'll understand and remember the subject matter. Created by an experienced ham and adult educator, it's like having your own, patient, experienced, good-humored mentor for the exam. To get your General Class license you must pass a multiple-choice test. The General license test consists of 35 questions drawn from a pool of 462. Memorizing the answers to 462 disconnected questions is difficult, but The Fast Track makes getting your upgrade easier by explaining the logic behind each correct answer. It's simple: When you understand the material, and you have a context for the material, you remember the answers and pass the test. Best of all, once you've passed your exam you'll have a solid grounding in ham radio basics. - Includes every possible question and every answer - Correct answers clearly marked in bold - Precise instructions for how to locate a testing session, how to prepare, and even what to bring -- and what not to bring -- to the test. - All technical topics explained in clear, plain language, often with illustrations - Step by step instructions to solve all the math problems - Test taking strategies - Hints to easily solve many questions and avoid the traps in the test - Written in "learning order", not just the (confusing) order of the official question bank. - Covers questions that will be used until June 30, 2019. - Over 300 pages packed with information Rave reviews for The Fast Track To Your Technician Class Ham Radio License: "This is a great book. So many of the study guides are just question dumps and it's a horrible way to learn, at least for me. I need an explanation and something to keep my interest and Mr. Burnette's book fit the bill perfectly. I echo all the sentiments of the other reviewers, the author is a top notch communicator." "Michael Burnette's ham radio exam prep book is the most useful and comprehensive book that I have found on this subject and makes getting ready for this exam not only easy, but fun. I have learned so much since studying this guide and feel ready to take this exam at a moment's notice. The guide has a wealth of information, not only on the questions and answers, but on the exam itself that is sure to put any test taker's mind at ease." "The Audible copy was GREAT because Michael Burnette is an exciting and entertaining and memorable guide!" "Thank you! Thank you a thousand times over. I bought your book in order to study for my tech license(Kindle version) and the audiobook and I loved them! I originally bought \*\* \*\*\*\*\*'s CD's and they confused me. I bought yours and it made learning simple and enjoyable. I did this to surprise my husband of 30 years who has had a license sincethe early parts of our marriage. He has asked me off and on to consider getting a license and I kept saying no. Well with the help of your book and audiobook, I was able to blow his doors off and pass my technician exam first try. Now if you only had volumes for general and expert, the world would be perfect. Seriously thanks again."

Memorizing answers is hard. Learning is easy! The Fast Track to Your Technician Ham Radio License explains the reasoning and technology behind each correct answer on the Amateur Radio exam so you'll understand and remember the subject matter. Created by an experienced ham and adult educator, it's like having your own, patient, experienced, good-humored mentor for the exam. Technician is the entry-level ham radio license that lets you operate on all ham channels from 30 MHz up, which includes the very popular VHF and UHF bands. To get your license you must pass a multiple-choice test. The Technician license test consists of 35 questions drawn from a pool of about 350. Memorizing the answers to 350 questions is difficult, but The Fast Track makes getting your license easy by explaining the logic behind each correct answer. It's simple: When you understand the material, you remember the answers and pass the test. Best of all, once you've passed your exam you'll have a solid grounding in ham radio basics. - Includes every possible question and every answer - Correct answers clearly marked in bold - Precise instructions for how to locate a testing session, how to prepare, and even what to bring -- and what not to bring -- to the test. - All technical topics explained in clear, plain language, most with illustrations - Step by step instructions to solve all the math problems, complete with exactly which keys to press on your calculator for each problem - Test taking strategies - Hints to easily solve many questions and avoid the traps in the test - Written in "learning order," not just the order of the official question bank. - Covers questions that will be used until June 30, 2018. -Nearly 300 pages packed with information Memorizing answers is hard -- and boring. Learning is easy! If you've made the decision to open up your ham radio world by going for the Extra Class License, great! The latest edition of the Extra class exam is certainly challenging. The question bank includes over 600 questions, some 25% of which are new or revised since the last edition. The Fast Track to Your Extra Class Ham Radio License explains the reasoning and technology behind each correct answer on the exam so you'll understand and remember the subject matter. It's a complete learning system; books, audio, and the fasttrack.com web site with custom-made practice exams that integrate with the chapters in the book and audiobook. There are also teaching videos on the site. Created by an experienced ham and adult educator, it's like having your own, patient, experienced, good-humored mentor for the exam. (One reason Michael is a frequent presenter at major ham conventions.) To get your Extra Class license you must pass a multiple-choice test. The Extra license test consists of 50 questions drawn from a pool of 621. Memorizing the answers to 621 disconnected questions is difficult, but The Fast Track makes getting your upgrade easier by explaining the logic behind each correct answer. It's simple: When you understand the material, and you have a context for the material, you remember the answers and pass the test. We might even have a little fun along the way. (This may be the only amateur radio book to teach an astronomical concept with a nacho cheese analogy.) - Includes every possible question and every answer - Correct answers clearly marked in bold - Precise instructions for how to locate a testing session, how to prepare, and even what to bring -- and what not to bring -- to the test. - All technical topics explained in clear, plain language. The Kindle and print editions include over 200 illustrations to support your learning. - Step-by-step instructions to solve all the math problems - Test-taking strategies - Hints to easily solve many questions and avoid the traps in the test - Written in "learning order", not just the order of the official question bank, which is only a "warehouse" of questions and was never designed to teach anyone anything. - Chapter summaries drive home the exam-conquering points to remember from each chapter. - Complete subject and question index. - Incorporates the exclusive Fast Track study plan. We don't just present the material, we teach you the most effective way to learn it and we provide the tools to implement it.- Covers questions that will be used until July 1, 2024. KB6NU's No Nonsense series of amateur radio license study guides has become famous for helping people pass the tests. Written in a simple, easy to understand style, this study guide will help you upgrade to Extra in no time. Here's what others have had to say:"I passed the Extra! Thank you so much. It really got me through some of the tougher chapters." --Laura, KD2APU" After being a Tech for 19 years, I decided it was time to upgrade. I bought the Kindle version of your Extra Class study guide and was amazed that it said in a couple of pages what the ARRL guide says in a couple of chapters. Thanks!" --Brian, N1ZZD Everything you need to pass your Amateur Extra Class exam.Rave reviews for The Fast Track Ham Radio License programs:"This is a great book. So many of the study guides are just question dumps and it's a horrible way to learn, at least for me. I need an explanation and something to keep my interest and Mr. Burnette's book fit the bill perfectly. Gordon West study manual for entry level FCC amateur radio Technician Class license for exams valid from 7/1/2003 through 6/30/2007. "Pass the 50-question Extra Class test; all the exam questions with answer key, for use beginning July 1, 2008 to June 30, 2012; detailed explanations for all questions including FCC rules"--Cover. Learn how to use R to turn raw data into insight, knowledge, and understanding. This book introduces you to R, RStudio, and the tidyverse, a collection of R packages designed to work together to make data science fast, fluent, and fun. Suitable for readers with no previous programming experience, R for Data Science is designed to get you doing data science as quickly as possible. Authors Hadley Wickham and Garrett Grolemund guide you through the steps of importing, wrangling, exploring, and modeling your data and communicating the results. You'll get a complete, big-picture understanding of the data science cycle, along with basic tools you need to manage the details. Each section of the book is paired with exercises to help you practice what you've learned along the way. You'll learn how to: Wrangle—transform your datasets into a form convenient for analysis Program—learn powerful R tools for solving data problems with greater clarity and ease Explore—examine your data, generate hypotheses, and quickly test them Model—provide a low-dimensional summary that captures true "signals" in your dataset Communicate—learn R Markdown for integrating prose, code, and results Package includes the Gordon West study manual along with W5YI HamStudy software. Study the book and then use the software to take practice exams on-screen. Software includes the answer explanations from the book. When you answer a question wrong, the explanation from the book appears on your screen to reinforce your learning. Offers a review of the subjects covered in the ARRL extra class exam. This study guide prepares you for the FCC Amateur Radio Extra Class license examination. The Extra Class examination is the highest-level examination for an operating license. The guide goes through each of the questions in the license question pool with each chapter covering one of the ten license question areas. For each question, the guide provides the question and the correct answer along with an explanation for the correct answer. Additionally, the guide explains why many of the distraction answers are incorrect. The questions are valid through June 30, 2024. Each chapter starts with relevant background information, tables, and figures to help with understanding the topics in the chapter. Through the questions and answers, you will learn about the regulations governing radio communications, good amateur practice in the operating modes, and some basic math and electronics for radio. Everything you need to pass your Amateur Extra Class exam. Rave reviews for The Fast Track Ham Radio License programs: "This is a great book. So many of the study guides are just question dumps and it's a horrible way to learn, at least for me. I need an explanation and something to keep my interest and Mr. Burnette's book fit the bill perfectly. I echo all the sentiments of the other reviewers, the author is a top notch communicator." If you've made the decision to open up your ham radio world by going for the Extra Class License, great! The latest edition of the Extra class exam is certainly challenging. The question bank includes 713 questions, some 28% of which are new since the last revision. The Fast Track to Your Extra Class Ham Radio License explains the reasoning and technology behind each correct answer on the exam so you'll understand and remember the subject matter. To get your Extra Class license you must pass a multiple-choice test. The Extra license test consists of 50 questions drawn from a pool of 713. Memorizing the answers to 713 disconnected questions is difficult, but The Fast Track makes getting your upgrade easier by explaining the logic behind each correct answer. It's simple: When you understand the material, and you have a context for the material, you remember the answers and pass the test. We might even have a little fun along the way. (This may be the only amateur radio book to teach an astronomical concept with a nacho cheese analogy.) - Includes every possible question and every answer - Correct answers clearly marked in bold - Precise instructions for how to locate a testing session, how to prepare, and even what to bring -- and what not to bring -- to the test. - All technical topics explained in clear, plain language. The Kindle and print editions include over 200 illustrations. - Step by step instructions to solve all the math problems - Test taking strategies - Hints to easily solve many questions and avoid the traps in the test - Written in "learning order," not just the order of the official question bank. - Chapter summaries drive home the exam-conquering points to remember from each chapter. - Complete index of questions and topics. - Covers all questions that will be used until June 30, 2020. Passing the Extra Class ham radio license exam means mastering some 21 formulas for calculating everything from the accuracy of a frequency counter to polar and rectangular plots of resistance, reactance, and impedance. This 26 lesson workbook-style course focuses solely on the math-heavy questions in the Extra Class exam. You'll learn how to successfully use each and every formula on the exam, with explanations in simple English and step-by-step, calculator-button-by-calculator-button instructions for solving every problem. If you're a person who struggled with math in the past, if you suspect you "don't have the math gene," even if you don't know a polar plot from a polar bear, if you can push the buttons on a calculator, this course will have you confidently solving those equations

like a pro in just a few hours. - 122 pages of lessons. - Review of Math Basics - Examples and practice problems cover all of the math-based questions from the exam -- you'll learn some electronics, but this is a book about how to pass the exam, not just a lot of theory. - Lots of practice problems and practice exams. - Includes a Bonus Lesson 27 on everything you need to know about the Smith Chart! - Support videos on the AF7KB YouTube channel. Don't let those formulas stop you one day longer! Note: This workbook is an adjunct to The Fast Track to Your Extra Class Ham Radio License book; it provides additional training on the required math and does not cover the entire question bank of 713 questions. While the exercises can be completed on any scientific calculator, it provides specific key-by-key instructions for the affordable and widely available Texas Instruments TI-30XS calculator. It isn't that Abby Carson can't do her schoolwork. She just doesn't like doing it. And in February a warning letter arrives at her home. Abby will have to repeat sixth grade—unless she meets some specific conditions, including taking on an extra-credit project to find a pen pal in a distant country. Seems simple enough. But when Abby's first letter arrives at a small school in Afghanistan, the village elders agree that any letters going back to America must be written well. In English. And the only qualified student is a boy, Sadeed Bayat. Except in this village, it is not proper for a boy to correspond with a girl. So Sadeed's younger sister will write the letters. Except she knows hardly any English. So Sadeed must write the letters. For his sister to sign. But what about the villagers who believe that girls should not be anywhere near a school? And what about those who believe that any contact with Americans is . . . unhealthy? Not so simple. But as letters flow back and forth—between the prairies of Illinois and the mountains of central Asia, across cultural and religious divides, through the minefields of different lifestyles and traditions—a small group of children begin to speak and listen to one another. And in just a few short weeks, they make important discoveries about their communities, about their world, and most of all, about themselves. Technician Class pool valid until June 30, 2018 - General Class pool valid until June 30, 2015 - Extra Class pool valid until June 30, 2016. - - - Don't think of a black cat. Don't think of a black cat. Do not think of a black cat. The brain does not process negatives very well. It takes in information first and then later attempts to filter out false data. To expose someone to incorrect answers on a test is to place fraudulent information in memory and then say to the brain, "Don't remember these answers." It is for this reason the only answers you will encounter in this book are the correct ones. For those who wish to memorize only the answers, there are no formulas needed, no math, no electronics or theories to learn. This manual contains the answers to all possible questions in all tests from Technician Class, General Class and Extra Class license tests. In addition, the manual also provides the answers to the Volunteer Examiner's test. However, many people want to know why and many need a framework on which to relate the answers. That is why this book is arranged so that theories, formulas, rules, and regulations are explained in separate chapters. General theories and concepts of electronics and antenna design along with F.C.C. regulations are presented to the reader. Formulas, explanations, and diagrams from various sources give the reader all the information needed to pass the licensing tests, all in one book. This is a "two-pronged" approach. You chose the path that is best for you. Everything you need to pass your Amateur Extra Class exam. Rave reviews for The Fast Track Ham Radio License programs: "This is a great book. So many of the study guides are just question dumps and it's a horrible way to learn, at least for me. I need an explanation and something to keep my interest and Mr. Burnette's book fit the bill perfectly. I echo all the sentiments of the other reviewers, the author is a top notch communicator."
