Sustainable development is the core principle underpinning land use planning. The policies in this statement apply to the rural areas, including country towns and villages and the wider, largely undeveloped countryside up to the fringes of larger urban areas. The key principles identified are: (i) decisions on development should be based on sustainable development principles; (ii) good quality accessible development within towns and villages should be allowed where it benefits the local community; (iii) accessibility should be a key consideration, with emphasis on access by public transport, walking and cycling; (iv) new building in the open countryside away from existing settlements should be strictly controlled; (v) priority should be given to the reuse of brownfield sites. This PPS replaces PPG 7 (1997) with the exception of PPG7's Annex E,

which provides further guidance on permitted development rights for agriculture and forestry and will remain extant pending a review by ODPM of the General Permitted Development Order 1995. In Clay and Star, Romanian poet Liliana Maria Ursu captures with breathtaking precision the convergence of the sacred with the mundane. Whether anchored in Sibiu, Visby, Skala, or San Francisco, her poems both honor and transcend place and time as they search obsessively for essence, truths, self-knowledge, and the divine within. The financial risk not only affects the development of the company itself, but also affects the economic development of the whole society; therefore, the financial risk assessment of company is an important part. At present, numerous methods of financial risk assessment have been researched by scholars. However, most of the extant methods neither integrated fuzzy sets with quantitative analysis, nor took into account the historical data of the past few years. To settle these defects, this paper proposes a novel financial risk assessment model for companies based on heterogeneous multiple-criteria decision-making (MCDM) and historical data. In a fundamental investigation of language and human

reasoning, Gennaro Chierchia looks at how syntactic and inferential processes interact through the study of polarity sensitive and free choice items. He reformulates the semantics of focus and scope and the pragmatics of implicature as part of the recursive semantic system. This study challenges the rose-tinted view of the interwar period in Romanian history, which is often judged against the darkness of almost five decades of Communist rule. Romania, like several of the states of Eastern Europe, emerged from the First World War as it had entered it, as a predominantly agricultural country, and one of its major problems was the condition of the peasantry. This volume's focus is the drive to improve that condition, on the collapse of democracy, and the search by Romania's leaders for strategies to secure the state, to assert the country's independence, and to maintain its territorial integrity in the face of the threat to the European order posed by two totalitarian systems, represented by Nazi Germany and the Soviet Union. By examining recent scholarship, this volume provides the most up-to-date account of Romania's predicament in the interwar years. Romania, 1916-1941 is a useful resource for upper-level undergraduates, postgraduates and scholars interested in foreign policy, politics, society, internationalization and late development in interwar Central and Eastern Europe. Culegerea de studii "Istoria romanilor de la Carol I la

Nicolae Ceausescu" reprezinta o reusita sinteza a istoriei noastre pe o perioada de peste un secol, in care Romania a cunoscut diverse regimuri politice si avantul modernizarii, dar si o criza economica si doua razboaie mondiale devastatoare. In acest context economic si politic, romanii au reusit, pentru prima data in istoria lor zbuciumata, sa traiasca toti in granitele unui singur stat - Romania. Prof. univ. dr. Ioan Scurtu a reusit sa fixeze principalii piloni in evolutia istorica de la momentul Marii Uniri pana la regimul comunist al lui Nicolae Ceausescu. De asemenea, evidentiaza pozitia celor mai importante personalitati care au marcat aceasta perioada istorica cum ar fi: Carol I, Nicolae Iorga, Hitler, Constantin Argetoianu si Nicolae Ceausescu, dimpreuna cu pozitia Romaniei la conferintele si tratatele de pace care au avut loc in acest rastimp. Fiecare studiu este realizat cu un deosebit simt istoric si critic, exhaustiv din punct de vedere bibliografic si stiintific. De asemenea, cu fiecare din aceste studii, istoricul si dascalul vine sa completeze istoria romanilor pe perioada sus amintita. 3610 entries to worldwide journal articles and monographs taken from the fields of psychology, education, medicine, and social science during 1971-1980. Subject, author indexes. Intre 1949 si 1958 satul Nucsoara a fost centrul miscarii de rezistenta din munti conduse de Toma Arnautoiu. Grupul Arnautoiu nu mai exista; membrii lui au fost executati. Exista insa supravietuitorii acelor vremuri si amintirile lor. Pe baza interviurilor cu acesti supravietuitori Aurora Liiceanu incearca sa reconstituie evenimentele sa determine motivatiile participantilor la rezistenta sa clarifice structurile de putere in grupurile de partizani sau conflictele din cadrul acestora sa stabileasca o tipologie a tradarii sau a razbunarii. Portretele diferitelor personaje nu pastreaza nimic din aura de legenda pe care le-au conferit-o povestile despre miscarea de rezistenta dezvaluind oameni obisnuiti cu nelinisti sperante si temeri oameni care au scris insa o pagina de istorie. Cercetare asupra evoluției psihologiei românești între 1938-2008. Lucrarea reprezintă un instrument pentru cercetătorii istoriei științei românești, sistematizând "într-o coajă de nuca" etapele evoluției psihologiei autohtone. A collection of 14 scholarly papers on the life and times of the historical Dracula. This impressive research deserves much better than the wretched package containing it. The book production (Romanian) is by far the worst we've seen in decades. Acidic paper is the least of the book's blemishes. Annotation copyrighted by Book News, Inc., Portland, OR This monograph, a coherent and consistent historical narrative about Romania's modernization, focuses on one section of the country's elites of the late nineteenth century, namely the health professionals, and on the imagery they constructed as they interacted with the peasant and his world. Doctors ventured out of cities and became a familiar sight on dusty country roads in of Moldavia and Wallachia. Beyond a charitable impulse they did so thru patriotism as the rural world became ever more prominent within the national ideology. Furthermore, new health legislation required the district general practitioner (medicul de plasă) to visit the villages in his catchment area

twice a month. Based on solid original research, the book describes rural conditions of the time and the efforts aiming to improve peasants' way of life with abundant quotes from doctors' public health reports and memoirs. The book sheds light on a variety of microscale realities of social life in the medical discourse on the peasant and the rural world in the mirror of medical discourse. Themes include general hygiene, clothing, dwellings, nutrition, drinking habits and healing practices of the peasantry, in the eye of medical specialists. Related official measures, laws, regulations, norms about public health are also discussed in the frame of wider modernizing processes. A full-length novel by a member of the Romanian literary avant-garde, Zenobia is the evocation of the singular quest of a Surrealist knight-errant who strives to be true to the gentle demands of his lady in a landscape of snares, desolation, incipient madness, and material poverty magically interrupted by moments of extreme beauty. Love, in all its intimate, carnal communion, lights the path through the dark forest, the streets of Bucharest, and the desert swamps. The narrator, speaking from the depths of love and despair, invites the reader to share his quest.
