Driven by Desire Aug 07 2021 From a five-year-old girl racing 60mph micro-midgets in South Africa, to a Formula One driver in the British Championship during her first full year of racing in the UK, and on to becoming the first and only woman ever to win a Formula One race, Desiré Wilson was a winner bested by very few of her male rivals. But single-seater racing was just the start of Desiré's ascent in motorsport. She won two FIA World Championship Sports Car Endurance races in 1980, and went on to compete in well over 120 types of race car at more than 100 race tracks around the world. Always competitive, she earned a reputation for an intense, no-nonsense approach to racing, shrugging off the media glamour to focus on the hard grind of staying competitive in one of the world's toughest sporting arenas. Moving to the male-dominated world of North American racing, Desiré became a pioneer for women racing in the harsh world of Indy Cars, facing discrimination, financial problems, and other obstacles ranging from tragedy to farce. Her career is unique in the world of racing, encompassing everything from club racing to Formula One and World Championship sports cars, to the evil monsters of the IndyCar World Series – the world's fastest race cars. Hers is a story of hardships, fun, tragedy, perseverance, injury, and the amazing behind-the-scenes world masked by the public face and glamour of racing. It tells, too, of the consequences of politics and discrimination in the male world of professional auto racing.

Urban School Leadership Aug 19 2022 This important book, written by educational expert and urban school leader, Tom Payzant, offers a realistic understanding of what urban school leadership looks like from the inside. Payzant shares his first-hand knowledge of the unique managerial, instructional, and political tasks of this role. Effectively combining practical lessons and research, Urban School Leadership includes in-depth analysis of various leadership concerns. The book covers topics such as improving student achievement, working with unions, building community, and maintaining and developing resources. Most importantly, it offers stories of real school leaders whose successes and missteps reveal the inherent "messiness" of this difficult job. Urban School Leadership is part of the Jossey-Bass Leadership Library in Education series. "This important book provides compelling examples of how effective leaders can have hope, see progress, and achieve success for all children in the schools and districts they lead."—Richard Riley, former United States Secretary of Education "Tom Payzant is one of the few people who could provide such a comprehensive, useful book for educational leaders at all levels. This very practical book is grounded in the important experiences and impressive judgment of one of our nation's most successful school superintendents"—Jon Schnur, co-founder and CEO, New Leaders for New Schools "Tom Payzant is one of the finest urban educators of our generation. Urban School Leadership is compelling, crisp, and wise—providing a clear path for those dedicated to improving the trajectory of children's lives."—Timothy F.C. Knowles, executive director, Center for Urban School Improvement, University of Chicago "Urban School Leadership is a must read for anyone interested in the landscape of urban public education in America."—Beverly Hall, superintendent, Atlanta Public Schools

And On That Bombshell Apr 27 2023 I was Top Gear's script editor for 13 years and all 22 series. I basically used to check spelling and think of stupid gags about The Stig. I also got to hang around with Jeremy Clarkson, Richard Hammond and James May. It didn't feel like something you should get paid for. From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015, working on Top Gear was quite a rollercoaster ride. We crossed continents, we made space ships, we bobbed across the world's busiest shipping lane in a pick-up truck. We also got chased by an angry mob, repeatedly sparked fury in newspapers, and almost killed one of our presenters. I realised that I had quite a few stories to tell from behind the scenes on the show. I remembered whose daft idea it was to get a dog. I recalled the willfully stupid way in which we decorated our horrible office. I had a sudden flashback to the time a Bolivian drug lord threatened to kill us. I decided I should write down some of these stories. So I have. I hope you like them. And now, a quote from James May: 'Richard Porter has asked me to "write a quote" for his new book about the ancient history of Top Gear. But this is a ridiculous request. How can one "write a quote"? Surely, by definition, a quote must be extracted from a greater body of writing, for the purpose of illustrating or supporting a point in an unrelated work. I cannot "write a quote" any more than I could "film an out-take". Porter, like Athens, has lost his marbles.'

Fast Guys, Rich Guys, and Idiots Dec 11 2021 Sam Moses, a motorsports writer for Sports Illustrated, was assigned to go racing and write about what happened. Fast Guys, Rich Guys, and Idiots is a personal odyssey that peers over the cliff of change and into the pit of obsession. From small-time races to glittery grands prix, it lays bare the greed, lust, and desperation of every driver for time behind the wheel and a faster car. It explains the perfectionism behind taking a turn at the limit and describes the intoxicating thrill of stealing down the Daytona backstraight at nearly two hundred miles an hour. ø The core of Moses's story takes place in the heartland of stock car racing, there he finds a

spot on a team in Ether, North Carolina. The team's owner is a tough Louisiana oil man, its crew chief a lanky, laconic Texan, and its number-one driver a hairy-chested leadfoot who learned fast driving on backwoods Georgia roads, delivering beauty supplies in his Mustang. Crashes echo throughout the tale that follows, five of them the author's own.

Shooting Incident Reconstruction May 04 2021 Forensic scientists, law enforcement, and crime scene investigators are often tasked with reconstruction of events based on crime scene evidence, and the subsequent analysis of that evidence. The use and misuse of firearms to perpetrate crimes from theft to murder necessitates numerous invitations to reconstruct shooting incidents. The discharge of firearms and the behavior of projectiles create many forms of physical evidence that, through proper testing and interpretation by a skilled forensic scientist, can establish what did and what did not occur. This book is generated from the authors' numerous years of conducting courses and seminars on the subject of shooting incident reconstruction. It seeks to thoroughly address matters from simple to complex in providing the reader an explanation of the factors surrounding ballistics, trajectory, and shooting scenes. The ultimate objectives of this unique book are to assist investigators, crime scene analysts, pathologists, ballistics experts, and lawyers to understand the terminology, science, and factors involved in reconstructing shooting incident events to solve forensic cases. The book will cover the full range of related topics including the range from which a firearm was discharged, the sequence of shots in a multiple discharge shooting incident, the position of a firearm at the moment of discharge, the position of a victim at the moment of impact, the probable flight path of a projectile, the manner in which a firearm was discharged and much more. Written by the most well-respected shooting scene and ballistics experts in the world Contains over 200 full-color diagrams and photographs that support and illustrate key concepts Case studies illustrate real-world application of technical concepts

Calculus Jul 06 2021 This is a simple, straightforward, direct calculus text. Historical strengths rest in the broad use of applications, the easy-to-understand writing style, and the wealth of examples and exercises to reinforce conceptualization of the subject matter. The inclusion of two (new) co-authors should pique interest in a book that in its heyday was the #1 best-seller. With Olinick's handle on applications (he has written a successful modeling book) and Pence's keen sense of technology (he is a guru on the HP and TI graphing calculators), we feel we have put together an unparalleled team of experts.

Car Guys vs. Bean Counters Nov 22 2022 A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the "waste" and "personality worship" of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

American Multinationals and Japan Jan 24 2023 "This pioneering study of United States direct investment in Japan will interest academic specialists, business managers, and government policymakers in America, Japan, and elsewhere. Drawing on rich historical materials from both sides of the Pacific, including corporate records and government documents never before made public, Mason examines the development of both Japanese policy towards

foreign investment and the strategic responses of American corporations. This history is related in part through original case studies of Coca-Cola, Dow Chemical, Ford, General Motors, International Business Machines, Motorola, Otis Elevator, Texas Instruments, Western Electric, and Victor Talking Machine. The book seeks to explain why a little foreign direct investment has entered modern Japan. In contrast to the widely held view that emphasizes an alleged lack of effort on the part of foreign corporations, this study finds that Japanese restrictions merit greater attention. Many analysts of the modern Japanese political economy identify the Japanese government as the key actor in initiating such restrictions. Mason finds that the influence of Japanese business has often proved more potent than these analysts suggest. This book offers fresh insights into both the operation of the modern Japanese political economy and of its relations with the world economy."

Labour, Mobility and Informal Practices in Russia, Central Asia and Eastern Europe Feb 13 2022 This book explores the daily survival strategies of people within the context of failed states, flourishing informal economies, legal uncertainty, increased mobility, and globalization, where many people, who are forced by the circumstances to be innovative and transnational, have found their niches outside formal processes and structures. The book provides a thorough theoretical introduction to the link between labour mobility and informality and comprises convincing case studies from a wide range of post-socialist countries. Overall, it highlights the importance of trust, transnational networks, and digital technologies in settings where the rules governing economic and social activities of mobile workers are often unclear and flexible.

Surf Like a Girl Jun 05 2021 Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Mooana Retreat in Portugal, on connecting mind, body, and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.
