Although the Saracinesca series is widely considered Marion Crawford's best work, the unusual adult fantasy *Khaled: A Tale of Arabia*, of a genii who has to win the love of Zehowah to gain a soul, was the one story nearest his heart. 'And if I destroy all your enemies and the enemies of your people, will you love me then, Zehowah?' 'Why should I love you then, more than now? What has war to do with love? Again, I ask, what is it to you whether I love you or not? Am I not your wife, and are you not my master? What is this love of which you talk? Is it a rich garment that you can wear? A precious stone that you can fasten in your turban? A rich carpet to spread in your house? A treasure of gold, a mountain of ambergris, a bushel of pearls from Oman? Why do you covet it? Am I not beautiful enough? Then is love henna to make my hair bright, or kohl to darken my eyes, or a boiled egg with almonds to smooth my face? I have all these things, and ointments from Egypt, and perfumes from Syria, and if I am not beautiful enough to please you, it is the will of Allah, and love will not make me fairer.' At times throughout His ministry, Jesus Christ emphasized certain points with the words "Truly Truly." All His teachings are perfect and true, yet He set these topics apart. Separating, analyzing, and praying about these select verses will better-equip believers to know Jesus and to follow Him more fully. Adventures in Franco-inspired American parenting—a winning mix of witty cross-cultural observation, hilariously blunt French wisdom, and one American mom's journey to create her own hybrid parenting approach "If there is no blood, don't get up." This single nugget of parenting gold, offered by a French friend at the end of a long dinner party, changed everything for writer Catherine Crawford, her husband, and, especially, the couple's two young daughters. Crawford immediately began to see that while the United States had become the land of too-involved parents forever wanting to talk through their kids' feelings about, well, everything, France employed a far more laissez-faire attitude toward raising les enfants. Learning to sleep through the night? A few tears never hurt anyone. Food? Let them eat cake, sure, but only after they've sampled lamb chops,

broccoli rabe, and the stinkiest of cheeses. Short of shipping her daughters off to Paris for these—and many other—invaluable early-life lessons, Crawford did the next best thing: She brought Old World–style parenting to Brooklyn. In the process, she discovered that her kids could actually hold a thought silently for two minutes without interrupting adult conversation, and that she didn't, in fact, need to buy out half the toy store to make their birthdays special. She even found out how much her kids like lamb chops! While combining the best attributes of the approach français with what she saw as American qualities worth preserving, Crawford found a way to save her household and her sanity. Hilarious and insightful, *French Twist* reveals how Crawford and her family survived le grand experiment—and why they aren't ever going back to the way things were. Advance praise for *French Twist* “Presented with a touch of humor and spot-on descriptions of childhood (mis)behavior, the advice, which touches on such topics as breastfeeding and school participation, is practical and useful. A refreshing approach to raising children.”—Kirkus Reviews “[A] charming and clever parenting chronicle . . . Though some may prefer their naughty kids just the way they are, this breezy, entertaining study of parenting a la Paris may prompt others to pour a café au lait and rethink their strategies.”—Publishers Weekly “*French Twist* describes an open-minded experiment in French-style parenting (though apparently there's not even a French word for parenting!) and reveals itself as an honest examination of the author's own missteps and prejudices—which we all can relate to—and the whole overparenting trend in this country. Are Catherine Crawford's conclusions ‘French’? Who cares? They're immensely logical and rational, and delivered with an abundance of love.”—Muffy Mead-Ferro, author of *Confessions of a Slacker Mom* “Ever seen a French child throw a tantrum in a restaurant or talk back to his parents? Neither has Catherine Crawford. In *French Twist* she uncovers the secrets of French child-rearing—and then tries them out on her own family, with remarkable results. Part memoir, part instruction manual, *French Twist* is hilarious, honest, and incredibly useful.”—Lori Leibovich, executive lifestyle editor of *The Huffington Post* “Catherine Crawford has written a great parenting book. I can't wait to have kids and apply all I have learned here. Wait—hold on. I'm being told I already have two kids. This is incredible news! I will begin applying immediately.”—Adam Scott, actor, *Parks and Recreation*

**OVER 100 BEAUTIFUL DESIGNS** Scotty's family owns a lodge near their silver mine in the Colorado Rockies. Summers at the lodge are idyllic for Scotty and his cousin Mickey. The grown-ups are dealing with the complications of business and adult dysfunction, but the boys are more interested in the complications of puberty, especially when Rosalind, the teenage daughter of family friends, is on hand. To read this quiet, rich evocation of adolescent watchfulness is to experience what it is like to be fourteen years old, waiting for something to happen, aware of everything but oblivious to as much of it as possible. Readers will be reminded of such modern masters as William Maxwell and John Updike.

**Fiction.** A stunningly attractive book, filled with adult characters who hold the world together with the huge effort of holding themselves together. Crawford draws her urban New World with the fancy of a poet and recreates its dreamy detail with the cruelty of an artist. A riveting, lucid memoir of a young woman's struggle to regain her sense of self after trauma, and the efforts by a powerful New England boarding school to silence her—at any cost

When the elite St. Paul's School recently came under state investigation after extensive reports of sexual

abuse on campus, Lacy Crawford thought she'd put behind her the assault she'd suffered at St. Paul's decades before, when she was fifteen. Still, when detectives asked for victims to come forward, she sent a note. Her criminal case file reopened, she saw for the first time evidence that corroborated her memories. Here were depictions of the naïve, hard-working girl she'd been, a chorister and debater, the daughter of a priest; of the two senior athletes who assaulted her and were allowed to graduate with awards; and of the faculty, doctors, and priests who had known about Crawford's assault and gone to great lengths to bury it. Now a wife, mother, and writer living on the other side of the country, Crawford learned that police had uncovered astonishing proof of an institutional silencing years before, and that unnamed powers were still trying to block her case. The slander, innuendo, and lack of adult concern that Crawford had experienced as a student hadn't been imagined as the effects of trauma, after all: these were the actions of a school that prized its reputation above anything, even a child. This revelation launched Crawford on an extraordinary inquiry into the ways gender, privilege, and power shaped her experience as a girl at the gates of America's elite. Her investigation looks beyond the sprawling playing fields and soaring chapel towers of crucibles of power like St. Paul's, whose reckoning is still to come. And it runs deep into the channels of shame and guilt, witness and silencing, that dictate who can speak and who is heard in American society. An insightful, mature, beautifully written memoir, *Notes on a Silencing* is an arresting coming-of-age story that wrestles with an essential question for our time: what telling of a survivor's story will finally force a remedy? ♥Looking For Inspirational page To Color? Is adulthood in crisis? Why are so many people rejecting the traditional path of marriage, mortgage and a fast-track career? Are we facing an immaturity epidemic? In this provocative, humorous and persuasive book, Kate Crawford takes a close look at the conventional packaging of adulthood. The idealised picture of the wedding ring, picket fence and career-for-life no longer reflects how a growing number of Australians live. Commentators wring their hands over commitment-phobic, apolitical "adultescents" permanently plugged into iPods, and decry the loss of values. But they're missing the larger picture. The way we work, find homes, form families and engage in politics and culture has radically transformed. Crawford argues that it's time the debates on social values recognised the variety of ways that we choose to live. Equal parts media critique and manifesto, *Adult Themes* is an inspiring call to arms for those who know that being "adult" goes beyond home renovation, getting hitched and a gold watch on retirement. This book explodes the generational stereotypes and myths of perpetual adolescence to reveal the economic and cultural shifts that affect us all. The author of *The Pocket Wife* explores the dark side of love, marriage, and infidelity in this sizzling novel of psychological suspense. Everybody's luck runs out. This time it could be theirs . . . It isn't safe. That's what Joe tells her when he ends their affair—moments

before their car skids off an icy road in a blinding snowstorm and hits a tree. Desperate to keep her life intact—her job, her husband, and her precious daughter, Lily—Dorrie will do everything she can to protect herself, even if it means walking away from the wreckage. Dorrie has always been a good actress, pretending to be someone else: the dutiful daughter, the satisfied wife, the woman who can handle anything. Now she's going to put on the most challenging performance of her life. But details about the accident leave her feeling uneasy and afraid. Why didn't Joe's airbag work? Why was his car door open before the EMTs arrived? And now suddenly someone is calling her from her dead lover's burner phone. . . . Joe's death has left his wife in free fall as well. Karen knew Joe was cheating—she found some suspicious e-mails. Trying to cope with grief is devastating enough without the constant fear that has overtaken her—this feeling she can't shake that someone is watching her. And with Joe gone and the kids grown, she's vulnerable . . . and on her own. Insurance investigator Maggie Brennan is suspicious of the latest claim that's landed on her desk—a man dying on an icy road shortly after buying a lucrative life insurance policy. Maggie doesn't believe in coincidences. The former cop knows that things—and people—are never what they seem to be. As the fates of these three women become more tightly entwined, layers of lies and deception begin to peel away, pushing them dangerously to the edge . . . closer to each other . . . to a terrifying truth . . . to a shocking end. \*\*\* A USA TODAY bestseller. \*\*\* Caught up in a firestorm of tabloid gossip, actress Ashlyn Roberts doesn't expect to end up in Vegas — or to wake up married to the sexy Cash Crawford. This work is the result of the fifth Symposium in the University of Ottawa Symposia series which focused on the life and work of Isabella Valancy Crawford (1850-1887). Contributors include Dorothy Livesay, Penny Petrone, Margo Dunn, John Ower, Orest Rudzik, Elizabeth Waterston, Fred Cogswell, Kenneth Hughes, S. R. MacGillivray, Catherine Ross, Louis Dudek, Anne Paolucci, and Clara Thomas. Have you ever felt stuck in your life? Do you sit at your job or home wishing for a better future, but you're afraid to take the next step? Most people have dreams and that is great, but if you want to accomplish something you need to set goals. Goals are dreams with a plan to achieve them. If a lack of education is preventing you from living the life you dream of, and you believe it's too late to go back to school, you NEED this book. You CAN do it and I will show you how. Do not let your dreams die because you're afraid to take the first step. It's meant for you to do great things. Don't waste one more day wishing for a better future; go after it. I took that scary first step at 35 years of age. I had a wife, four kids, a house and all the responsibilities of a Husband/father. I knew I needed to go back to school and finish my degree to live my best life. I had goals and plans for my family that I couldn't accomplish without improving my situation. One thing about my character is I am very analytical. I research and study everything before I make a major decision. Over the next handful of years, I experienced and learned a massive amount of information about resources and benefits designed for adults getting an education. There are so many programs available to help people go back to school and many are specifically for those concerned about paying for college. As adults, we have more responsibilities than our younger counterparts and paying the bills and tuition can be a daunting thought. While in school, many people came to me for advice on if they should risk it and go back to school. I loved helping these people and sharing my story. One day I got the idea that I could put all of my knowledge and advice into a book and help thousands of people chase their dreams. I want to share with you all the struggles and triumphs I experienced and help you bypass some obstacles I ran into. Use my experience to better your situation. "I never go outside unless I look like Joan Crawford the movie star. If you want to see the girl next door, go next door." - Joan Crawford A lot of ink has been spilled covering the lives of history's most influential figures, but how much of the forest is lost for the trees? In Charles River Editors' American Legends series, readers can get caught up to speed on the lives of America's most important men and women in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. The life of Joan Crawford is one of the most famous Hollywood rags-to-riches tales. While it is common to think of Hollywood as a land offering great opportunity to hard-working actresses, the Horatio Alger myth rarely applies in reality, but it applied almost perfectly to Joan Crawford. Crawford grew up in relative poverty, with both of her childhood father figures abandoning the family before she became a teenager, and she relied on undying ambition in order to progress through the ranks of the show business circuit and then the Hollywood studio system. This drive to succeed continued throughout her entire career, and Crawford's public battles with both studios (MGM in particular) and other stars (first Norma Shearer and later Bette Davis) were borne out of an unmatched competitive streak. Joan Crawford's life and career also shed light on the treatment of women in pop culture and in cinema during the early 20th century. Her career was not only limited to film acting, as she acted in musical revues and was previously an unabashed flapper during the Roaring Twenties. As her career progressed, she acted in silent films, flourished with the rise of

sound cinema in the late 1920s, became a leading lady in the 1930s and 1940s, and finally became a sort of caricature of herself during the late stages of her career in the 1950s and 1960s. Taken together, her filmography comprises roughly 90 films, a career of almost unprecedented scope. Given the length of her career and her range, her career offers one of the most useful examples for tracking the changing way in which women were portrayed on screen from the 1920s-1960s, and it is for this reason that her life story reveals the pressures, pleasures, and expectations of being a Hollywood actress during the first half of the 20th century. After reaching film stardom, Crawford lived a life of glamour, but she was also constantly involved in public jockeying for position within the film industry and never relinquished the desperate need to succeed that helped her get her start decades earlier. Naturally, there was a wide gulf between Joan's unprivileged upbringing and the comfort she enjoyed as an adult; in fact, her rise from poverty to fame seems almost fabricated, as she went from living in a dilapidated apartment adjacent to a laundry room to become one of the wealthiest actresses in Hollywood. At the same time, comparing Joan's childhood with her adult life reveals many similarities. As child and adult, Crawford had contentious interactions with family members, and a large proportion of her familial relationships are characterized by abuse. Moreover, the bold assertion that often got her in trouble as a youth in her strict all-girls school was instrumental in supplying her with the verve to overcome the significant obstacles that face anyone with Hollywood aspirations. Joan's life is proof that no matter how much Hollywood may transform the lifestyle of a famous actress, she likely won't cast aside the influence of her cultural background.
