The Book of Lord Shang Apr 24 2020 The Book of Lord Shang was probably compiled sometime between 359 and 338 BCE. Along with the Han Fei-Tzu, it is one of the two principal sources of Legalism, a school of Chinese political thought. Legalism asserts that human behavior must be controlled through written law, rather than ritual, custom or ethics, because people are innately selfish and ignorant. The law is not effective when it is based on goodness or virtue; it is effective when it compels obedience. This is essential to preserve the stability of the State. Reprint of Volume XVII in Probsthain's Oriental Series. With a Chinese index and an index of names and references. "The Book of Lord Shang or Shang-tzu is said to consist of 29 paragraphs, of which the text for nos. 16, 21, 27, 28 and 29 being no longer extant. The translation of Prof. Duyvendak therefore covers only twenty-four paragraphs and is based on an edition published by Yang Wan-li in 1793, which was reprinted by the Ch -chiang-shu-ch in 1876 in the "Collection of Twenty-two Philosophers." Of all the editions published before or after that date, this is the best known. (...) The Chinese text of the Book, like many other ancient writings, is obscure in some parts and corrupt in others. (...) The reviewer is therefore forcibly struck by the faithfulness, definiteness and clearness of Dr. Duyvendak's translation." --13 Chinese Soc. & Pol. Sci. Rev. 459-460, 462 1929. J.J.L. Duyvendak 1889-1954] was an interpreter for the Dutch embassy in Peking from 1912-1918. In 1919 he became a lecturer in Chinese at the University of Leiden. He was the author of China's Discovery of Africa; Lectures Given at the University of London on January 22 and 23, 1947 (1949) and edited and translated several works, including The Diary of His Excellency Ching-shan; Being a Chinese Account of the Boxer Troubles by Shan Jing (1924). He established the Sinological Institute at the University of Leiden in 1930. It is now one of the leading libraries for Chinese Studies in

the Western world.

*On a Global Mission: The Automobiles of General Motors International Volume 3* Sep 22 2022 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines

each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held.
