The Dribble Drive Motion Offense - or Princeton on steroids as University of Kentucky coach John Calapari called it - was invented by coach Vance Walberg only a few years ago. There isn't a lot of information about it out

there, but this book is an instruction manual in the Dribble Drive Offense, there to fill the void. The manual deals with the strengths and weaknesses of the Dribble Drive, the fundamentals needed to run the offense, the basics needed to run it, how to enter into it, off the break or from a half court set, the reads and X's and O's and how to teach it. The book contains 40 pages of drills, including the best of Vance Walberg's and John Calipari's drills. Also it contains four appendixes which detail special plays and quick hitters, playing against a sagging defence, two oone offences, and a complimentary screening type offence. Black and White Version - more expensive color version also available. See www.coachdribbledrive.com "If you are interested in Coaching the System, you must be either desperate or crazy!" At least that's what people told authors Gary Smith and Doug Porter when they began investigating this revolutionary style of play almost a decade ago. Ignoring the critics, they went on to coach the two highest scoring teams in men's and women's college basketball history: the University of Redlands, California (132.4 ppg), and Olivet Nazarene University in Illinois (104.1 ppg). From its origins as the Sonny Allen Numbered Fast Break, to Paul Westhead's Loyola Marymount up-tempo game, the System has been around for decades. But when Grinnell College's David Arseneault added platoon substitution patterns and hockey-style short shifts, placing a priority on creating three-point looks for his "preferred shooters," the System truly came into its own. Smith and Porter learned the Grinnell version of the System from Arseneault himself, adapting it to fit their situations coaching men's and women's programs. In the past decade their teams set 32 NCAA and NAIA records between them, including most 100-point games in a season (Redlands-23; Olivet-24).

Olivet also holds national records for defensive turnovers (36.3 per game) assists (23.8 per game), and three pointers made in a season (509, 15.6 per game). Redlands owns college basketball records (all levels) for field goal attempts (110.3 per game), and three-pointers made (23.8 per game). Now you can learn every detail of this devastating full court run-and-press attack that allows you to dictate tempo and force your opponents out of their normal game plan, capturing the imagination of your players and community, and making coaching fun again! You'll learn exactly how and why the System works, how to adapt it to fit your personnel, suggestions for conditioning players, organizing System practices, and even ways to respond to the inevitable criticisms that come with playing the game this far "outside the box." Other chapters offer complete descriptions of the Redlands Attack (Coach Smith's variation of the Grinnell offense), the LMU Attack (which Westhead popularized and used to advance to the NCAA regional finals in 1990), and the Olivet Attack (Coach Porter's hybrid version of the LMU and Dribble-Drive offenses). Finally, you'll learn System defensive principles, terminology, and how to cover every conceivable press attack and press-breaker alignment. Also included are 57 drills and over 300 diagrams to illustrate System offense and defense, providing you with a complete blueprint for "Coaching the System!" Covers substance use and abuse around the world, the effects of substance abuse on the abuser and family, addiction research, treatment programs, substance abuse laws, education and prevention efforts. Football is a game of situations. A coach has to know the situations he must have his players prepared. The Last Drive, No Timeouts with 80 Yards from a Touchdown game situation is one that will determine whether a coach has prepared his team situationally. With 23 years as a head coach, 13

years of experience running a successful no huddle offense, and 30 years of experience coaching and calling plays, Coach Bill Renner shares with you his formation, 3 pass plays and how to train the players to perform and out execute the opponent in this situation. His plan uses 3 pass plays that are sequenced and memorized by the players. The plays are run without a huddle, without a cadence and over and over until a score is achieved. The pass route combinations give the quarterback short, intermediate and home run throws on each of the three pass plays. The quarterback has a throw for whatever the defense does to try to disrupt completions, for whatever the down and distance is and out-of-bounds throws to stop the clock. Coach Renner calls it his RANGERS series so that everyone understands the need to get the job done like an Army Ranger. Coach Renner details how to coach the quarterback on each pass play to choose the right route. He gives his game experience insight on why he uses no cadence, no huddle and a specific formation. He shares how he practices to enable the players to execute under the most demanding circumstances. He shows what routes to throw and attack Cover 1,2,3, and 4. This series can also be used in any game at any time to change tempo for the defense not just in the Last Drive scenario. If you are looking for a proven effective method on how to be prepared to win on your last drive, no timeouts and 80 yards from a touchdown or to have a no huddle, no cadence wrinkle that will catch your opponent unprepared Coach Renner's book is for you. The criminal law on serious traffic offenses presents legislators with numerous controversial issues. One such issue is when severe consequences are matched with low moral culpability. How should the law deal with a driver who kills someone because she failed to see the person when looking? Another controversial issue concerns highly culpable behavior that remains without serious consequences. How should the law cope with a driver who nearly kills someone when overtaking recklessly? The traffic context generates many hard cases that call the outermost boundaries of general doctrinal concepts like intent, negligence, or causation into question. This book contains an international collection of essays on criminal liability for serious traffic offenses. With a focus on England/Wales, the Netherlands, France, Germany, and Spain, the book reveals that there are enormous differences in both drafting and interpretation of serious traffic offenses. Additionally, it elaborates on the role of culpability and harm in sentencing, traffic-psychological insights relevant to accident causation, and the concept of conditional intent in relation to extremely dangerous traffic behavior. (Series: Governance & Recht - Vol. 11) [Subject: Criminal Law, Traffic Law, Comparative Law] In July 1984, Virginia introduced a per se offense for drunken driving at the 0.15% BAC level the presumptive level of intoxication remained at 0.10%. There was concern that this difference between the per se and presumptive levels led to fewer arrests and convictions for drunken driving. In April 1986, the per se offense was lowered to 0.10% to match the presumptive level. The Virginia Transportation Research Council was asked to study rates for arrests and convictions for drunken driving under the varying laws.

Three time periods were sampled: no per se offense, a per se offense of 0.15%, and a per se offense of 0.10%. The results of the data analysis indicated that there was no statistical difference in the number of arrests or convictions under the different laws. The provisions on drink-and drug-driving, and their statutory predecessors, have undoubtedly contributed to greater road safety. The conviction rate is extremely high, running at 95 per cent. The consequences of conviction for a drink- or drug-drive offence go beyond the immediate penalty of a fine, a community penalty or imprisonment. They include disqualification from driving, which may not simply inconvenience the offender, but may lead to loss of employment and, in due course, to greatly increased insurance premiums. Since the first edition of this book was published in 2011, there have been two major changes. First, the new s 5A of the Road Traffic Act 1988 came into force in March 2015 and created the offences of driving, attempting to drive or being in charge with a concentration of a specified controlled drug above the specified limit for that drug. This new edition includes a new chapter which describes the new offence. As far as possible, the provisions under s 5A mirror those relating to excess alcohol, but the seventeen drugs in question are very different from alcohol, and from each other. The law on s 5A is no doubt set to develop over the years to come. Secondly, the so-called 'statutory option' has been removed (except in Northern Ireland, the Isle of Man and the Channel Islands). The new edition of *The Drink- and Drug-Drive Offences: A Handbook for Practitioners* (formerly *The Drink-Drive Offences*) provides a practical, comprehensive, accessible and up-to-date account of this broad area of law. The book brings together the statutory provisions and the case law on the drink-drive offences, elucidating issues which are often surprisingly difficult. It is intended for all practitioners concerned with this area of law, whether police, prosecution or defence, and adopts a neutral standpoint between their various interests. We live in a nation where police activity and their interactions with civilians have become seriously problematic and a steady strong point of concern for many of us. One of the most common interactions with everyday working class citizens and police that turn

into criminal convictions is related to drinking and driving. When this offense is committed, it usually comes by surprise and most often results in a setback to the offender. It has become more and more apparent that first-time drinking and driving offenders do not know what steps to take after they have been pulled over for drinking and driving. This book is designed to give you enough information about the subject to help you make informed decisions about how to approach a DUI case. We will explore the many components that are associated with drinking and driving charges. If you are reading this book for yourself or someone you know just after you have been cited, you are probably pondering over some of the most frequently asked questions... Reading this book could save you over \$16,000 or more when you factor in Inflation, Court Costs, Attorney's Fees, Increased Insurance, Time of Work, ETC... If you are old enough to drink, then you are old enough to drive. If you are old enough to drink and drive, chances are you have probably done it at one time or another. This book is especially helpful if you are considering hiring an attorney after being arrested for drinking and driving. You will also learn how to prevent getting a DUI, if you have not yet been convicted. This book answers a lot of "What If" scenarios that could save you both time and money through the stories of many individuals coupled with the fundamentals of the law. This book is a must read that contains helpful tips that can change your life and hopefully save lives in the process. Football is a game of situations. In an easy-to-understand manual, Coach Bobby Anderson lays out strategies for winning football using the single-wing offense with an end over. The single wing is making a come back! When my sons played football at Providence Christian School of Texas I was surprised to see they ran the single wing. I had learned the single wing at The Lawrenceville School in New Jersey from where I graduated in 1972. The single wing is a very effective formation, and Coach Bobby Anderson is an outstanding practitioner of it as well as a great coach and mentor. The Providence football team went undefeated three of the five years he was there and lost only one game during another season. In 1970 I tried to convince Tom Landry to have the Cowboys run the single wing with Roger Staubach at tailback, Calvin Hill or Duane Thomas at fullback, and Walt Garrison at blocking back. He was concerned that it would confuse the offense more than the defense. I guess they did not need it since they played in the next two Super Bowls! However, I did notice that Coach Landry re-introduced its cousin, the shotgun, shortly thereafter. -Robert F. Murchison, fan of the single wing and son of the Dallas Cowboys' founder Coach Anderson knew he wanted to be a football coach early in

life. His head-coaching record of 152 wins, 47 losses, and five ties stands tall. He ran the single wing for twenty years as a head coach. He wants to win, and he has with the single wing! Learn from his expertise and give YOUR team winning seasons with the single wing! Developing dominating offensive linemen is Rick Trickett's specialty.
