'Collins Webster's Easy Learning Spanish Conversation' is a unique guide to communicating in Spanish. It will help you to find out more about Spanish culture and to practise your spoken Spanish. Why are men still winning at work? If women have equal leadership ability, why are they so under-represented at the top in business and society? Why are we still living in a man's world? And why do we accept it? In this provocative book, Gill Whitty-Collins looks beyond the facts and figures on gender bias and uncovers the invisible discrimination that continues to sabotage us in the workplace and limits our shared success. Addressing both men and women and pulling no punches, she sets out the psychology of gender diversity from the perspective of real personal experience and shares her powerful insights on how to tackle the gender equality issue. 'This book tells the inconvenient truth about the gender inequality issue, providing some real deep insights into what truly gets in the way of driving diversity - even in companies that are trying to do the right thing. It may be uncomfortable reading for some but crucial for driving the needed change to create a long-term advantage.' - Paul Polman, Founder & Chair, Imagine and Ex CEO, Unilever The beloved New York Times columnist "inspires women to embrace aging and look at it with a new sense of hope" in this lively, fascinating, eye-opening look at women and aging in America (Parade Magazine). "You're not getting older, you're getting better," or so promised the famous 1970's ad --

for women's hair dye. Americans have always had a complicated relationship with aging: embrace it, deny it, defer it -- and women have been on the front lines of the battle, willingly or not. In her lively social history of American women and aging, acclaimed New York Times columnist Gail Collins illustrates the ways in which age is an arbitrary concept that has swung back and forth over the centuries. From Plymouth Rock (when a woman was considered marriageable if "civil and under fifty years of age"), to a few generations later, when they were quietly retired to elderdom once they had passed the optimum age for reproduction, to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated, to the first female nominee for president, American attitudes towards age have been a moving target. Gail Collins gives women reason to expect the best of their golden years. The New York Times and Washington Post bestseller that changed the way millions communicate “[Crucial Conversations] draws our attention to those defining moments that literally shape our lives, our relationships, and our world. . . . This book deserves to take its place as one of the key thought leadership contributions of our time.” —from the Foreword by Stephen R. Covey, author of *The 7 Habits of Highly Effective People* “The quality of your life comes out of the quality of your dialogues and conversations. Here’s how to instantly uplift your crucial conversations.” —Mark Victor Hansen, cocreator of the #1 New York Times bestselling series *Chicken Soup for the Soul®* The first edition of *Crucial Conversations* exploded onto the scene and revolutionized the way millions of people

communicate when stakes are high. This new edition gives you the tools to: Prepare for high-stakes situations Transform anger and hurt feelings into powerful dialogue Make it safe to talk about almost anything Be persuasive, not abrasive Offers the user a guide to communicating in French. This work is useful for learners of French of various ages. It gives you the phrases you need in order to communicate effectively in natural French. There are many examples to show how French is really used. Collins Easy Learning French Conversation is a unique guide to communicating in French. It will help you to find out more about French culture and to practise your spoken French with a free downloadable audio file. So far the "Science Wars" have generated far more heat than light. Combatants from one or the other of what C. P. Snow famously called "the two cultures" (science versus the arts and humanities) have launched bitter attacks but have seldom engaged in constructive dialogue about the central issues. In *The One Culture?*, Jay A. Labinger and Harry Collins have gathered together some of the world's foremost scientists and sociologists of science to exchange opinions and ideas rather than insults. The contributors find surprising areas of broad agreement in a genuine conversation about science, its legitimacy and authority as a means of understanding the world, and whether science studies undermines the practice and findings of science and scientists. *The One Culture?* is organized into three parts. The first consists of position papers written by scientists and sociologists of science, which were distributed to all the participants. The second presents commentaries on these papers, drawing out and discussing their central themes and

arguments. In the third section, participants respond to these critiques, offering defenses, clarifications, and modifications of their positions. Who can legitimately speak about science? What is the proper role of scientific knowledge? How should scientists interact with the rest of society in decision making? Because science occupies such a central position in the world today, such questions are vitally important. Although there are no simple solutions, *The One Culture?* does show the reader exactly what is at stake in the Science Wars, and provides a valuable framework for how to go about seeking the answers we so urgently need. Contributors include:

Constance K. Barsky, Jean Bricmont, Harry Collins, Peter Dear, Jane Gregory, Jay A. Labinger, Michael Lynch, N. David Mermin, Steve Miller, Trevor Pinch, Peter R. Saulson, Steven Shapin, Alan Sokal, Steven Weinberg, Kenneth G.

In the beginning, says the ancient Hindu text the Rg Veda, was man. And from man's sacrifice and

dismemberment came the entire world, including the hierarchical ordering of human society. *The Head Beneath the Altar* is the first book to present a wide-ranging study of Hindu texts read through the lens of René Girard's mimetic theory of the sacrificial origin of religion and culture. For those interested in Girard and comparative religion, the book also performs a careful reading of Girard's work, drawing connections between his thought and the work of theorists like Georges Dumézil and Giorgio Agamben. Brian Collins examines the idea of sacrifice from the earliest recorded rituals through the flowering of classical mythology and the ancient Indian institutions of the duel, the oath, and the secret warrior society. He also uncovers implicit and explicit critiques in the tradition, confirming Girard's intuition that Hinduism offers an alternative anti-sacrificial worldview to the one contained in the gospels. In spite of the double burden of racial and gender discrimination, African-American women have developed a rich intellectual tradition that is not widely known. In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought. Billy Collins “puts the ‘fun’ back in profundity,” says poet Alice Fulton. Known for what he has called

“hospitable” poems, which deftly blend wit and erudition, Collins (b. 1941) is a poet of nearly unprecedented popularity. His work is also critically esteemed and well represented in *The Norton Anthology of American Literature*. An English professor for five decades, Collins was fifty-seven when his poetry began gathering considerable international attention. *Conversations with Billy Collins* chronicles the poet’s career beginning with his 1998 interview with Terry Gross on *Fresh Air*, which exponentially expanded his readership, three years prior to his being named United States Poet Laureate. Other interviewers range from George Plimpton, founder of the *Paris Review*, to Pulitzer Prize–winning poet Henry Taylor to a Presbyterian pastor, a physics professor, and a class of AP English Literature students. Over the course of the twenty-one interviews included in the volume, Collins discusses such topics as discovering his persona, that consistently affable voice that narrates his often wildly imaginative poems; why poetry is so loved by children but often met with anxiety by high school students; and his experience composing a poem to be recited during a joint session of Congress on the first anniversary of 9/11, a tragedy that occurred during his tenure as poet laureate. He also explores his love of jazz, his distaste for gratuitously difficult poetry and autobiographical poems, and his beguiling invention of a mock poetic form: the paradelle. Irreverent, incisive, and deeply life-affirming—like his twelve volumes of poetry—these interviews, gathered for the first time in one volume, will edify and entertain readers in the way his sold-out readings have done for the past quarter
