The guidelines and ideas in this book are a result of my extensive project management experience. I have successfully managed, implemented, and delivered countless projects, including complex global infrastructure-based projects. As a project manager, I have overseen new and modification projects utilizing on-shore and offshore resources and third parties. Thanks to over 25 years of project management experience, I have extensive knowledge covering the entire life cycle of a project, including initiating, planning, executing, controlling, and closing projects delivering business value. I began my project management career as a team leader progressing to project manager. I have managed small and large scale projects with multi-million-pound transition budgets. I will confidently guide you through the fundamentals of successful project management. I have full project management qualifications from both the Project Management Institute and a Prince2. My 25-years of project management experience covers complex projects for both private and public sector clients. I am proud to be known as a project manager with a solid pedigree to match. The best compliment I have received regarding my ability to share my knowledge is that I give common sense ideas and concepts culled from my 'down-to-earth' experience befitting my decades of project management practice. I am proud to say that I have been at the coalface of project management, and now I want to impart my wealth of knowledge to you, the reader of this book, looking to seek useful and practical help in the realm of project management. This is a great guide for new project managers, ready to begin their career! This guide contains over 50 projects for woodworkers of every skill level, from beginner to intermediate. Using how-to drawings and photographs, it shows readers the beauty and texture of wood while expanding their skills on furniture, toys, household accessories, shop fixtures and garden items. James O. Pennock has compiled 45 years of personal experience into this how-to guide. Focusing on the position of "lead in charge," this book is an indispensable resource for anyone, new or seasoned veteran, whose job it is to lead the piping engineering and design of a project. The "lead" person is responsible for the successful execution of all piping engineering and design for a project, technical and non-technical aspects alike. The author defines the roles and responsibilities a lead will face and the

differences found in various project types. Incorporates four decades of personal experience in a How-To guide Focuses on the position of "lead in charge" Includes coverage of topics often ignored in other books yet essential for success: management, administrative, and control responsibilities Minimalist design--maximum style! In the middle of the last century, a new generation of designers sought to render furniture to its most essential forms. In doing so, they created timeless designs that defined Mid-Century Modern Style. From the sleek geometric lines of Bauhaus-inspired design to the sculptural shapes of Danish masters, this furniture captured the imagination of the era and enjoys growing popularity today. Now for the first time, author Michael Crow has carefully detailed 29 seminal works by the era's foremost designers, including Hans Wenger, Finn Juhl and George Nelson. At their best, these spare, often sculptural designs transcend their period and are at home in a variety of settings. Each piece has been selected carefully so it can be built in an average workshop. Inside this book you'll find:

- More than 100 drawings with exploded views, elevations and details for projects to fit every room in your house.
- Practical advice on wood selection, hardware sources and construction and finishing techniques.
- Two step-by-step project builds.
- A richly illustrated historical overview tracing the evolution of the style and exploring the designers and makers who shaped it.

Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO. The varied projects in this volume present readers with more than a dozen lenses through which to learn about the progress and impact of the Industrial Revolution, and the tide of industrialization it unleashed, in the United States. Broad questions prompt readers to engage with major themes in civics, geography, economics, and history. A wealth of background information helps readers understand how these themes play out in the context of the profound shifts in the American economy and society that took place in the nineteenth and early twentieth centuries. Every project is an investment; however, traditional project management methodologies do not support assessment of the business value that enables senior management to maximize decision making. The next evolution in project management, therefore, will be to manage projects as investments. Managing Projects as Investments: Earned Value to Business Value provides tools and metrics to enable planning, measuring, evaluating, and optimizing projects. This book shifts the paradigm. It builds on traditional scope-cost-schedule tools, adding a critical new focus on the expected value of projects and programs. The enhancements in processes and metrics allow senior management and PMOs to guide the entire organization on the basis of business benefits, and to ensure that decisions ranging from project selection to resource assignment facilitate those goals. The author shows how framing projects as investments enables significant improvement in project performance. He provides metrics that allow you and your team to track and maximize performance based on ROI. Demonstrating the importance of recognizing an enabler project in a program, and why its value and cost of time are so great, the book provides the tools to determine right-sized staffing levels for project-driven organizations. It includes a comprehensive but easy-to-understand explanation of both basic and advanced earned value metrics, their shortcomings, and how they can be improved and shows you how to optimize contract terms on projects in a way that can avoid misaligned customer/contractor goals. Knitters like designs to knit that are relatively quick to make yet have interesting patterns. In this book Martin Storey, coauthor of Knitting Goes Large and a top designer for Rowan, offers a range of Nordic-inspired stylish accessories and home items that are based on traditional patterns with a contemporary twist and are small enough to be both easily portable and quick to complete. The 29 designs range from easy to more challenging--so there's something for every knitter to enjoy. Projects include:

multi-color hats, legwarmers, and scarves; cabled socks, scarves mittens, and hats; Fair Isle bags, socks, and vest; a cozy shrug, delicate stole, and simple cape, as well as patterned pillows, placemats, and a table runner--all made in natural yarns from Rowan that are cozy and comforting. And all with a clean contemporary Scandinavian look in a soft and beautiful color palette. Featuring beautiful photography and clearly-written patterns, backed up by special knitting tips and techniques, these rich-looking projects are very luxurious, but also practical and easy to make. From America's cultural gatekeeper comes a profile of the man who defines the nation's soul. David Remnick, Pulitzer Prize-winning writer and editor of 'The New Yorker', applies his unique journalistic voice to paint a portrait of rock legend and working-class poet Bruce Springsteen. The result is what 'Rolling Stone' called 'one of the most thorough profiles of Springsteen ever published'. Remnick shadows Springsteen from his recent Wrecking Ball world tour, the whole way back to the beginning, back to Asbury Park, to childhood rock'n'roll fantasies. Details of Springsteen's strained relationship with his father, his battle with mental illness, his marriage, and the joys and anguish of friendships forged and lost with ephemeral E Street Band members, are all delicately woven through a career that spans over four decades as America's working-class hero. We Are Alive not only tells the story of a living legend, but also produces an insight into the heart of America, the drive of self-transformation and renewal. Remnick has created an important text on the history of music. 'One of the most thorough profiles of Springsteen ever published.' Rolling Stone Teaches boys and girls ages 8 and up basic carpentry skills through easy-to-make projects: bird feeder, sailboat, tie rack, flower box, and 11 more. Over 100 black-and-white illustrations. Build Your Own Backyard Getaway! From Adirondack chairs and porch swings, to birdhouses and potting benches, Easy-to-Build Outdoor Projects is filled with the types of practical and attractive projects woodworkers love to build. The plans are simple - many only require a handful of tools - and every project comes with step-by-step instructions. Also, the expert woodworkers who created the projects paid special attention to proper material selection and durable finishes to help defeat damage caused by sun, wind and rain. The result: You'll end up with beautiful pieces that will look great for years.

Most Ministry of Defence projects funded by PFI deals are delivered satisfactorily, on time and on budget. In six of the eight projects examined by the NAO, the Department has generally achieved value for money through effective allocation and management of risks. Failures to identify and manage risks reduced the value for money achieved from the other two projects reviewed by the NAO. Most MOD PFI projects are now providing important support to military and civilian staff. They cover a portfolio of more than 50 projects delivering a broad range of services such as equipment, buildings, training and communications. The Department has developed commercial disciplines for scrutinising the value for money of its PFI procurements and has extended these into other projects. While the MOD allocates and manages many

of the project risks effectively, it does not always have the robust data necessary to understand the risks it is asking the private sector to bear. In at least seven projects, the decision to use PFI has been reversed. Overall, the PFI projects surveyed took an average of 37 months to procure compared with the PFI average across government of 34 months. And larger PFI projects with a capital value over £50 million took the MOD an average of 45 months to procure. This longer procurement time reflects the complexity and special requirements of the Department's projects, but there is scope for the Department to improve the speed at which it closes larger deals. It is seeking to do so through improvements to the oversight of its capital procurements. The NAO also highlight the risk that contractors may incorrectly report performance which would otherwise lead to payment deductions. Projects included: Desk organizer -- Blanket box -- Storage bench -- Serving table -- Sofa table -- Bookcase -- Simple bed -- Desk. Build Your Own Backyard Getaway!
