Radical Change, Radical Results Aug 09 2021 Change is Coming. Are You Ready to Make Split Second Decisions that Get Big Results? Develop a workforce that runs on self renewal, passion and productivity and delivers results to both customers and investors throughout time. Dell, Motorola, Pharmacia, and other leading organizations have used this proven program to enable company wide change and compete more effectively. History has proven that organizations that adapt to change quickly and gracefully stand the best chance of survival. In *Radical Change, Radical Results*, top consultants Kate Ludeman and Eddie Erlandson divulge their breakthrough, 7 step program for achieving a successful corporate transformation. Utilizing the "tools" of Curiosity, Awareness, Authenticity, Accountability, Candor, Genius, and Appreciation, any organization can get employees to move past the typical resistance and fear of change to embrace a common goal of adaptability and productivity. "Taking these actions, day in and day out, is a lifelong process that yields both immediate and long term rewards," the authors promise.

Tempered Radicals Sep 29 2020 This text explores the experiences of tempered radicals. These are people who want to become valued and successful members of their organisations without selling out on who they are and what they believe in.

Radical Welcome Sep 10 2021 For the fifteenth anniversary of its publication, this revised edition features a new introduction from the author on the state of the church and its "radical welcome" today, along with new reflections on how it continues to reshape the church. This book is at once a theological, inspirational, and practical guide for congregations that want to move beyond diversity and inclusion to present a vision for the church of the future: one where the gifts, voices, and power of marginalized groups bring new life to the mainline church. Based on two years of work and over 200 interviews with people in congregations all around the United States—in urban, suburban, and rural settings—it asks the question: How do we face our fears and welcome transformation in order to become God's radically welcoming people? Each chapter introduces a particular congregation and the challenges it faced, and lays out the theological underpinnings of tackling fears head-on to embrace change as a welcome part of community life. This new edition features essays from Michael B. Curry, Mark Bozzuti-Jones, Jennifer Baskerville-Burrows, and Mark Richardson.

Becoming Utopian Mar 24 2020 A dream of a better world is a powerful human force that inspires activists, artists, and citizens alike. In this book Tom Moylan – one of the pioneering scholars of contemporary utopian studies – explores the utopian process in its individual and collective trajectory from dream to realization. Drawing on theorists such as Fredric Jameson, Donna Haraway and Alain Badiou and science fiction writers such as Kim Stanley Robinson and China Miéville, *Becoming Utopian* develops its argument for sociopolitical action through studies that range from liberation theology, ecological activism, and radical

pedagogy to the radical movements of 1968. Throughout, Moylan speaks to the urgent need to confront and transform the global environmental, economic, political and cultural crises of our time.

Rituals, Collapse, and Radical Transformation in Archaic States Jun 19 2022 Rituals, Collapse, and Radical Transformation in Archaic States explores the role of ritual in a variety of archaic states and generates discussion on how the decline in a state's ability to continue in its current form affected the practices of ritual and how ritual as a culture-forming dynamic affected decline, collapse, and regeneration of the state. Chapters examine ritual in collapsing and regenerating archaic states from diverse locations, time periods, and societies including Crete, Mycenaean and Byzantine Greece, Mesopotamia, India, Africa, Mexico, and Peru. Underscoring similarities in a variety of archaic states in the role of ritual during periods of threat, collapse, and transformation, the volume shows how ritual can be used as a stabilizing or divisive force or a connecting medium between the present to the past in an empowering way. It also highlights the diversity of ritual roles and location in similar situations and illustrates how states in close proximity and sharing many cultural similarities can respond differently through ritual to stress and contrast the different response in rural and urban settings. Through detailed, cultural specific studies, the book provides a nuanced understanding of the diverse roles of ritual in the decline, collapse, and regeneration of societies and will be important for all archaeologists involved in the important notions of state "collapse" and "regeneration".

A Marathon of Changes Jul 28 2020 Faced with the burden of obesity, career stress and an empty heart, the author decided to change her life. Follow her journey as she reaches all her goals with a culmination of running the Marine Corps Marathon. Mile by mile, the reader will be encapsulated with her struggle to reach the finish line coupled with the ever aspiring flashbacks of how she made it to the starting line. This courageous ordeal details gastric bypass surgery, the agony of losing a loved one, financial windfall and the touching story of new found romantic love.

Voices of Radical Change Oct 31 2020 Speeches of visionaries and great leaders who inspired change and influenced the course of history. Every speech marks a figure or moment in history that represents political or social transformation. A thoughtful compilation of orations from revered figures with whom most readers are already familiar: Mother Theresa, Thomas Paine, Galileo, Bill Gates, Susan B. Anthony, Martin Luther King, Jr., Winston Churchill, Ronald Reagan, Chief Seattle, and Barack Obama, to name a few.

Radical Solutions for Digital Transformation in Latin American Universities Apr 24 2020 This book presents how Digital Transformation is a requirement to upgrade Latin American universities to a next level in management, lecturing and learning processes and strategies. The book starts with a thorough introduction of the Latin American context addressing the three main topics in the book: Digital Transformation, Higher Education and Artificial Intelligence & Industry 4.0. They will be depicted by region, with a clear distribution between Central America & Mexico, Comunidad Andina (Perú, Colombia, Chile, Ecuador, Bolivia), Mercosur (Argentina, Brasil, Paraguay and Uruguay), and other countries. The book also shows how online learning is a key part of the transformation, with a clear focus on learning management systems, innovation and learning analytics. Further, personalised services for every single profile at the university (students, lecturers, academic managers) are presented to guarantee inclusive education service aggregation for networked campuses. Following, the book addresses strategy and overall services that concentrate on sustainability and revenue models integrated with a strategic planning. Finally a set of chapters will show specific experiences and case studies of direct application of Artificial Intelligence and Technology 4.0, where the readers can learn from and transfer directly into their educational contexts.

Human Rights and Radical Social Transformation Mar 04 2021 Against the recent backdrop of sociopolitical crisis, radical thinking and activism to challenge the oppressive operation of power has increased. Such thinkers and activists have aimed for radical social transformation in the sense of challenging dominant ways of viewing the world, including the neoliberal illusion of improving the welfare of all while advancing the interests of only some. However, a question mark has remained over the utility of human rights in this activity and the capability of rights to challenge, as opposed to reinforce, discourses such as liberalism, capitalism, internationalism and statism. It is at this point that the present work aims to intervene. Drawing upon critical legal theory, radical democratic thinking and feminist perspectives, Human Rights and Radical Social Transformation seeks to reassess the radical possibilities for human rights and explore how rights may be re-engaged as a tool to facilitate radical social change via the concept of 'human rights to come'. This idea proposes a reconceptualisation of human rights in theory and practice which foregrounds human rights as inherently futural and capable of sustaining a critical relation to power and alterity in radical politics.

Radical Transformations in Minority Religions Jan 02 2021 All religions undergo continuous change, but minority religions tend to be less anchored in their ways than mainstream, traditional religions. This volume examines radical transformations undergone by a variety of minority religions, including the Children of God/ Family International; Gnosticism; Jediism; various manifestations of Paganism; LGBT Muslim groups; the Plymouth Brethren; Santa Muerte; and Satanism. As with other books in the Routledge/Inform series, the contributors approach the subject from a wide range of perspectives: professional scholars include legal experts and sociologists specialising in new religious movements, but there are also chapters from those who have experienced a personal involvement. The volume is divided into four thematic parts that focus on different impetuses for radical change: interactions with society, technology and institutions, efforts at legitimization, and new revelations. This book will be a useful source of information for social scientists, historians, theologians and other scholars with an interest in social change, minority religions and 'cults'. It will also be of interest to a wider readership including lawyers, journalists, theologians and members of the general public.

The Radical Left and Social Transformation Dec 01 2020 This comprehensive collection draws upon and reengages with a long history of Marxian-anchored thought to analyze the potential for social transformation through a reinvigorated radical Left, all within the context of the ascendance of an increasingly ethnonationalist, patriarchal, and authoritarian far Right worldwide. The authors identify and reflect on strategies, tactics, and possibilities for analyzing and intervening in advanced capitalist societies by increasing and deepening popular participation and support on the far Left. The chapters are framed in terms of conceptualizing the capitalist present, organizing "the people" and reimagining the radical Left. Together, in diverse ways that draw upon both qualitative and quantitative approaches, the authors evaluate the difficulties of augmentation across multiple planes, from the tension between migrants and citizen workers, to the uneasy relationship between sovereignty and class, to the contradictions operating across international versus domestic dynamics. How and why (if at all) should the radical Left reexamine its understanding of political consciousness, identity, ideology, and institutions, as they relate to Marxian analysis and various threads of critical theory? The authors suggest new approaches for understanding what the radical Left is up against and how problematic barriers might be torn down, thus disrupting unhelpful binaries such as state versus capital, national versus international, worker versus migrant, activist versus candidate, and freedom versus necessity. This book was originally published as a special issue of the online journal *Global Discourse*.

Heart and Mind Jun 07 2021 Now in a Revised Second Edition (2019) From the Foreword by +Marc Handley Andrus, Episcopal Bishop, Diocese of California: "In 'Heart and Mind,' Dr. Shaia gives us back our central sacred text - the four gospels - not as conflicted and faulty historical records, but as a vibrant, luminous path of transformation. He reveals "The Four-Gospel Journey" as a living guide (for Christians and seekers alike), re-centering human life on wisdom, compassion and service, rooted in a mystical relationship with Christ. And the potential for this living guide is already becoming manifest, as individuals, groups and entire communities are using it all over the world, and the word is spreading." ****In this fresh lens, each gospel account is more than a telling of Jesus' life and words. Each is the story of a practice in response to a core life question: Gospel of Matthew: How do we face change? Gospel of Mark: How do we move through trials and suffering? Gospel of John: How do we receive joy and know union? Gospel of Luke: How do we mature in service? And these four gospels are more than the sum of their parts. The four in the sequence of their fourth-century reading cycle are one of the world's great maps of the universal journey- one of growth, transformation, and love. As Alexander's describes, The Four-Gospel Journey is the pattern of the living, here and now Christ - a pattern within the Cosmos, in everything and across all time. To make this universal journey with another or a small community - see the "Heart and Mind Community Guides" in the Store on the Quadratos website. The Guides follow the book. There is one guide for each of the four paths, as well as one to prepare for the journey, and another on the eight core practices of Quadratos. ****From Rob Bell - NYT bestselling author: "This is a stunning book. You won't read the gospels the same way ever again. You won't think about your life the same way again. Anthropology, psychology, the heroes journey, the Bible,

fear, struggle, hope, bravery, anticipation, euphoria, return - its all here in this masterful work, by one of my favorite teachers-guides-gurus-leader-village elder - Alexander John Shaia." -- Rob Bell, author of "What We Talk About When We Talk About God" and "What is the Bible?"

this bridge we call home Apr 05 2021 More than twenty years after the ground-breaking anthology *This Bridge Called My Back* called upon feminists to envision new forms of communities and practices, Gloria E. Anzaldúa and AnaLouise Keating have painstakingly assembled a new collection of over eighty original writings that offers a bold new vision of women-of-color consciousness for the twenty-first century. Written by women and men--both "of color" and "white"--this bridge we call home will challenge readers to rethink existing categories and invent new individual and collective identities.

Healthcare Architecture in an Era of Radical Transformation Jan 14 2022 In the 1960s and 1970s large, high-technology, inpatient oriented hospitals reflected the central role of such facilities in an expanding healthcare system. But hospital architecture and the healthcare system have vastly changed since then, in profound and unpredicted ways. This book explores for the first time how and why acute care hospitals and the often related psychiatric facilities, retirement communities, and community clinics have been transformed during the final decades of the twentieth century. The authors also consider utopian visions of unbuilt work and look ahead to the possible healthcare landscape of the future: "health villages," home-based care for the aging and aged population, and cyberclinics and virtual hospitals.

Educating Nurses Jan 26 2023 Praise for *Educating Nurses* "This book represents a call to arms, a call for nursing educators and programs to step up in our preparation of nurses. This book will incite controversy, wonderful debate, and dialogue among nurses and others. It is a must-read for every nurse educator and for every nurse that yearns for nursing to acknowledge and reach for the real difference that nursing can make in safety and quality in health care." —Beverly Malone, chief executive officer, National League for Nursing "This book describes specific steps that will enable a new system to improve both nursing formation and patient care. It provides a timely and essential element to health care reform." —David C. Leach, former executive director, Accreditation Council for Graduate Medical Education "The ideas about caregiving developed here make a profoundly philosophical and intellectually innovative contribution to medicine as well as all healing professions, and to anyone concerned with ethics. This groundbreaking work is both paradigm-shifting and delightful to read." —Jodi Halpern, author, *From Detached Concern to Empathy: Humanizing Medical Practice* "This book is a landmark work in professional education! It is a must-read for all practicing and aspiring nurse educators, administrators, policy makers, and, yes, nursing students." —Christine A. Tanner, senior editor, *Journal of Nursing Education* "This work has profound implications for nurse executives and frontline managers." —Eloise Balasco Cathcart, coordinator, Graduate Program in Nursing Administration, New York University

Radical Product Thinking Aug 29 2020 Iteration rules product development, but it isn't enough to produce dramatic results. This book champions Radical Product Thinking, a systematic methodology for building visionary, game-changing products. In the last decade, we've learned to harness the power of iteration to innovate faster—we've invested in a fast car, but our ability to set a clear destination and navigate to it hasn't kept up. When we iterate without a clear vision or strategy, our products become bloated, fragmented, and driven by irrelevant metrics. They catch "product diseases" that often kill innovation. Radical Product Thinking (RPT) gives organizations a repeatable model for building world-changing products. The key? Being vision-driven instead of iteration-led. R. Dutt guides readers through the five elements of the methodology (vision, strategy, prioritization, execution and measurement, and culture) to develop a clear process for translating vision into reality, and turning RPT skills into muscle memory. This book offers refreshing solutions to the shortcomings of our current model for product development; be prepared to toss out everything you know about a good vision and learn how to measure progress to create revolutionary products. The best part? You don't have to be a natural-born visionary to produce extraordinary results.

Heart and Mind Aug 21 2022 This important book recovers the ancient way of reading the four gospels as four steps in a transformative process. While being rooted in the history of the Early Church, it moves beyond focus on the historical Jesus, and recovers the practice of uniting heart and mind with a living, dynamic Christ. "It's a rare treat to have someone show you a previously undiscovered layer of meaning and import. Alexander Shaia has given us a tremendous resource." Brian D. McLaren, Speaker, activist, author of *A New Kind of Christianity* "The liveliest presentation of the gospels that I have seen in a very long time." Phyllis Tickle, Author of *The Great Emergence* "Eye-opening, intelligent and practical. This will transform

the way you read scripture and reveal a path for a vibrant Christian way of life." Diana Butler Bass, Author of Christianity for The Rest of Us

Brief Interventions for Radical Change Dec 13 2021 As a mental health professional, you know it's a real challenge to help clients develop the psychological skills they need to live a vital life. This is especially true when you are working with time constraints or in settings where contacts with the client will be brief. *Brief Interventions for Radical Change* is a powerful resource for any clinician working with clients who are struggling with mental health, substance abuse, or life adjustment issues. If you are searching for a more focused therapeutic approach that requires fewer follow-up visits with clients, or if you are simply looking for a way to make the most of each session, this is your guide. In this book, you'll find a ready-to-use collection of brief assessment and case-formulation tools, as well as many brief intervention strategies based in focused acceptance and commitment therapy (ACT). These tools and strategies can be used to help your clients stop using unworkable behaviors, and instead engage in committed, values-based actions to change their lives for the better. The book includes a practical approach to understanding how clients get stuck, focusing questions to help clients redefine their problem, and tools to increase motivation for change. In addition, you will learn methods for rapidly constructing effective treatment plans and effective interventions for promoting acceptance, present-moment awareness, and contact with personal values. With this book, you will easily integrate important mindfulness, acceptance, and values-based therapeutic work in their interactions with clients suffering from depression, anxiety, or any other mental health problem.

Educating for Radical Social Transformation in the Climate Crisis Apr 17 2022 This book asks how education can be developed to facilitate the radical social, cultural and economic transformations needed to deal with the ongoing climate emergency. The author illuminates important links between the work currently being done in climate change and education and the broader and older theories of radical education: an area of education theory and practice that has long grappled with the question of how to use education to create a more just society. Highlighting both current work and long traditions that include popular, progressive, feminist, anti-racist and anti-colonial education, the author draws on interdisciplinary research to make the case for how radical education can help tackle the climate change crisis. It will have direct relevance for scholars of environmental education and radical education as well as activists and practitioners.

A Place Called Self May 06 2021 Dr. Stephanie Brown, a pioneering addiction researcher and therapist,

offers women a map to find their way through the rocky spots in sobriety. For many women, newfound sobriety--with its hard-won joys and accomplishments--is often a lonely and unsatisfying experience. Here, pioneering therapist Stephanie Brown, Ph.D., helps readers understand that leaving behind the numbing comfort of alcohol or other drugs means you must face yourself, perhaps for the first time. With personal stories and gentle guidance, Brown helps readers unravel painful truths and confusing feelings in the process of creating a new, true sense of self. EXCERPT: "Recovery is not a move from bad to good, but from false to real. This is the transformation. The point of surrender and new abstinence represents a letting go of the old self. . . By accepting her loss of control, the woman in recovery opens the door to finding her real, authentic self, the woman she is underneath the layers of defense that have protected her -- her false self -- perhaps for her entire life."

Navigating the Badlands Jul 20 2022 In this groundbreaking book, Mary O'Hara-Devereaux -- an internationally renowned business forecaster -- shows how organizations can hone their competitive edge during these uncertain times. Using the metaphor of traveling through the badlands of the American West, *Navigating the Badlands* offers the principles, tools, transformative strategies, and essential understanding executives and business leaders need if they are to weather the rugged, global business landscape of the future. Throughout the book O'Hara-Devereaux reveals how business leaders can seize the opportunity to create new value from successful alliances, reach global markets, and find top talent.

Radical Business Model Transformation Jun 26 2020 Many companies are relying on a business model that is fundamentally suited to a different era. Now, organizations are under pressure from new trends such as digitization and servitization. Trying to adapt to a new environment, they risk relying on improvements that only scratch the surface of developing a radically different value proposition. Based on rigorous research into companies that have successfully and radically redesigned their business models, *Radical Business Model Transformation* shows why they made the leap, what they had to do to achieve it and how it has transformed the potential for their organizations. This book is a step-by-step guide for leaders who want to seize the opportunity of new business models and gain a competitive advantage. It explains how to assess the status quo, identify the value of future business models and develop a transformation path. It also provides advice on how to involve both the leadership team and all other employees in order to implement successful business model transformation. Illustrative case studies of organizations that have crossed the line to a more transformative business range from exponential-growth companies like Netflix and global players like Xerox, SAP and Daimler to mid-sized hidden champions like Knorr-Bremse and LEGIC. *Radical Business Model Transformation* is essential reading for business leaders, transformation experts and MBA students interested in ensuring that their business model is future-proof and can withstand the new proliferation of innovations that are set to transform the business landscape. Online supporting resources include a business model transformation calculator to help design your transformation path.

Radical Transformation Feb 27 2023 "Radical Transformation is a tour de force."-- Thomas Homer-Dixon, author of *The Upside of Down: Catastrophe, Creativity and the Renewal of Civilization* *Radical Transformation* is a story about industrial civilization's impending collapse, and about the possibilities of averting this fate. Human communities first emerged as egalitarian, democratic groups that existed in symbiotic relationship with their environments. Increasing complexity led to the emergence of oligarchy, in which societies became captive to the logic of domination, exploitation, and ecological destruction. The challenge facing us today is to build a movement that will radically transform civilization and once more align our evolutionary trajectory in the direction of democracy, equality, and ecological sustainability.

Transforming the Transformation? Feb 03 2021 *Transforming the transformation?* The East European Radical Right in the Political Process examines the significance of radical right parties, along with other organizations, in terms of their involvement in the political process of new democracies. This groundbreaking study highlights firstly the radical right's interaction with other political actors, such as parties, governments and interest groups, in their respective countries. Secondly, the contributors analyze the effects of such interaction with regard to agenda setting and policies in "loaded" policy fields, namely minorities and immigration, law and order, religion, territorial issues and democratization. Through an examination of the role of radical right actors in political processes and an assessment of the resulting measurable outcomes, this book shows how policies, election results and regime changes indicate shifts away from the liberal-democratic order institutionalized in the course of post-Communist transformation. Offering a unique cross-national comparison of particular facets and themes, as well as in-depth analysis of country cases, this book will be of interest to undergraduate and postgraduate students, as well as scholars, of European politics and far right studies.

Obama's Radical Transformation of America Nov 12 2021 In only one year, Obama has saddled Americans with a skyrocketing deficit that will leave future generations deeply in debt; a health-care plan that prescribes a cure worse than the illness; catastrophically expensive environmental schemes; and a foreign policy that appeases enemies and punishes friends. In this frank and insightful *Broadside*, Joshua Muravchik analyzes these and Obama's other misguided efforts to "fundamentally transform" America during his first year in office.

A Companion to Adorno Oct 11 2021 A definitive contribution to scholarship on Adorno, bringing together the foremost experts in the field As one of the leading continental philosophers of the last century, and one of the pioneering members of the Frankfurt School, Theodor W. Adorno is the author of numerous influential—and at times quite radical—works on diverse topics in aesthetics, social theory, moral philosophy, and the history of modern philosophy, all of which concern the contradictions of modern society and its relation to human suffering and the human condition. Having authored substantial contributions to critical theory which contain searching critiques of the 'culture industry' and the 'identity thinking' of modern Western society, Adorno helped establish an interdisciplinary but philosophically rigorous study of culture and provided some of the most startling and revolutionary critiques of Western society to date. The *Blackwell Companion to Adorno* is the largest collection of essays by Adorno specialists ever gathered in a single volume. Part of the acclaimed *Blackwell Companions to Philosophy* series, this important contribution to the field explores Adorno's lasting impact on many sub-fields of philosophy. Seven sections, encompassing a diverse range of topics and perspectives, explore Adorno's intellectual foundations, his critiques of culture, his views on ethics and politics, and his analyses of history and domination. Provides new research and fresh perspectives on Adorno's views and writings Offers an authoritative, single-volume resource for Adorno scholarship Addresses renewed interest in Adorno's significance to contemporary questions in philosophy Presents over 40 essays written by international-recognized experts in the field A singular advancement in Adorno scholarship, the *Companion to Adorno* is an indispensable resource for Adorno specialists and anyone working in modern European philosophy, contemporary cultural criticism, social theory, German history, and aesthetics.

Radical Change in Everyday Life May 18 2022 This volume deals with a key concept concerning the future: change. It is omnipresent and yet is often only perceived in retrospect. The book's editor and founder of Psychological Future Management argues that we are currently experiencing the beginning of the most radical and profound change in human history. This is the right moment to analyze people's ability to change more precisely. In this first, representative study, Germany was chosen as an example. The results serve as a basis for further psychological, sociological and prospective considerations. The Germans obviously have great resilience and problem-solving competence. At the same time, however, they are one-sidedly fixated on maintaining the economic status quo and fear negative changes in the future. Their social milieus are permeated by contradictions. The wealthy, in particular, are tied to security concerns and are therefore unwilling to experiment and take risks, two qualities without which a future in times of exponential change can hardly be managed. What could other countries and societies learn from these descriptions of the current state of one of the world's leading countries? The entire subject revolves around this question. The psychological effects of digitization and artificial intelligence also play a role, as they put our neuronal and emotional habits under enormous pressure. How can we improve our future competence and learn to adapt new knowledge more quickly and continuously? Against this background, the phenomenon of change will be examined and discussed from various national and international perspectives.

Re-Aligning with Nature Mar 16 2022 Denise DeLuca's *Re-Aligning with Nature* takes readers who are looking for radical social and business solutions on a direct and simple path to real change: nature's path. In this clear, direct, illustration-driven book, DeLuca lays out the core issues of why we are in danger due to being out of alignment with nature and how realigning with nature can save the planet. Long ago, humans lived in alignment with nature. As we discovered how to exploit nature's resources, as well as human resources, life became easier and more comfortable (especially for the few), but we became detached from nature and our own human spirit. We are now realizing that ecosystems are being destroyed, species are going extinct, and the Earth is heating up. But giant companies, governments, and other organizations are sluggish and can't respond to change fast enough. In addition to realigning what we make and how we make things with nature, we need to realign ourselves with nature and our own human nature. We need to recognize and recapture our natural paradigm. Radical? Absolutely. Hard? It's much easier than you'd think. Welcome to the 'real' world!

Radical Transformational Leadership Nov 24 2022 Monica Sharma describes how we can source our inner capacities and wisdom to manifest change that embodies universal values such as dignity, compassion, fairness, and courage. Drawing on more than twenty years of work for the United Nations and elsewhere, she presents a radical new approach to transformational leadership, one that creates systems of change where everyone can engage—not just analysts and policy-makers. Demonstrating that we all can be architects of a new humanity, Monica demystifies policy-making, planning, and implementation so that everyone can play an informed and strategic part in eradicating the world's most intractable problems. Using real-life examples from around the world, she shows how our innate characteristics of universal compassion, equity impulse, and human capability can create new patterns that effectively address major challenges such as gross inequality, unbridled hate, conflicts based on social identity, and the never-enough mindset of greed. Written in a straightforward, accessible style, *Radical Transformational Leadership* outlines a path-breaking paradigm shift that is already generating equitable and sustainable results across the globe. Radical Transformation Apr 29 2023 In *Radical Transformation*, Imants Barušs leads the reader out of the receding materialist paradigm into an emerging post-materialist landscape in which new questions present themselves. If consciousness has nonlocal properties, then how are boundaries between events established? If consciousness directly modulates physical manifestation, then what is the scope of such modulation? If consciousness continues after physical death, then how much interference is there from non-physical entities? As we face the threat of extinction on this planet, is there anything in recent consciousness research that can help us? Are there effective means of self-transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises? The author leads the reader through discussions of meaning, radical transformation, and subtle activism, revealing the unexpected interplay of consciousness and reality along the way.

Entrepreneuring the Future of Higher Education Feb 15 2022 Projections are frightening. Even before the onset of the COVID-19 pandemic, financial considerations were forcing the closing of increasing numbers of American colleges and universities. Higher education in the United States is facing a tsunami of economic issues and the abrupt shift to on-line learning has only accelerated the process. But it doesn't have to be this way. The wobbly two-legged stool that supports virtually every American school – tuition and endowment – was never designed to be sustainable into the 21st century. Instead, the university leaders of the future must embrace the best elements of the most forward-seeing and nimble practitioners of modern business – the entrepreneur. *Entrepreneuring the Future of Higher Education: Radical Transformation in Times of Profound Change* is that rare nuts-and-bolts guide that provides the essential tools for colleges and universities to switch from barely surviving to thriving. Assisted by an impressive array experts and visionaries, higher education author and futurist Dr. Mary Landon Darden presents a do-able roadmap out of the morass of escalating costs and decreasing revenue. In no-nonsense, sometimes blunt language, Darden lays out specific, revenue streams available to virtually every college – and a step-by-step primer on how to achieve them. *Entrepreneuring* is not a theoretical argument, parsed with passive-voice modifiers and exceptions. It is a blueprint on how to revive, restore and secure the academy in the second decade of the 21st century. Each chapter addresses significant failures (or missed opportunity) that virtually all modern colleges can rapidly address and reform. Too many institutions are hopelessly attached to the failed practices of the past. Students have changed. Governments have changed. Economic engines and drivers have changed. The need to financially support higher education has not – and it is more crucial than ever. *Entrepreneuring the Future of Higher Education: Radical Transformation in Times of Profound Change* is the answer for the post-COVID academy in America: Practical, unapologetically direct, awash in real-life applications and answers.
