**The Chronicles of the Syrian Revolution** May 06 2021 This book is simply the memoir of the Syrian Revolution in its six-year journey, all through the eyes of a Syrian poet who lived his youth in the capital city of Damascus. Beginning on the first Friday after the revolution started and every Friday thereafter, the Syrians made it a habit, taking to the streets to demonstrate against the regime. They also gave names to those Fridays to reflect the current events. The first one was the Friday of Dignity (3/18/11), then Friday of Glory (3/25/11), Friday of Martyrs (4/1/11), Friday of Withstanding (4/8/11), Friday of Insistence (4/15/11), and so on until today, which sums up to more than three hundred Fridays. The author started firing poems in support of the revolution and also to document its events week after week for the next six years. He managed to translate almost half of them to put in this book. Listing the poems in order takes the reader on a journey throughout the ups and downs of the revolution and helps him to understand what happened, when, and why. Since the author is antidictatorship and prodemocracy, his writings are not only full of fury and power, confidence, and hope, but also satire and wit, which characterize the people of that historic city.

**Secret Son** Dec 01 2020 When a young man is given the chance to rewrite his future, he doesn't realize the price he will pay for giving up his past... Casablanca's stinking alleys are the only home that nineteen-year-old Youssef El-Mekki has ever known. Raised by his mother in a one-room home, he dreams of escape - until, one day, the father he thought dead turns out to be very much alive, and whisks him from the slums into the luxurious life of Casablanca's elite. But as he leaves the poverty of his childhood behind him, he comes up against a starkly un-glittering reality...

**Orthodox Christian Bible Commentary** Feb 15 2022 This Orthodox Christian commentary is derived from a series of sermons given by His Grace Bishop Youssef of the Coptic Orthodox Diocese of the Southern United States, where His Grace has been serving in this capacity since the early 90s. ABOUT THE BOOK: Corinth was a very important commercial center which made it easy for it to be a place for all sorts of vice and evil. Also, its closeness to Athens added the problem of intellectualism. Greece was known for its philosophers and philosophy. St. Paul established the church of Corinth during his second missionary trip. Unfortunately, the immoral environment found in the city adversely affected the church. In addition, pride caused division in the church and disruption in the services (1 Cor. 1-4, 11). Immorality and immodesty found its way into the church, which led to a bad reputation for the church of Corinth (1 Cor. 5). There was also the problem of the Christian brethren who were taking their personal problems with each other before the heathen courts instead of working them out among themselves (1Cor. 6). Other issues affecting the church included questions about marriage (1 Cor. 7), meats sacrificed to idols (1 Cor. 8-10), women praying and prophesying with their heads uncovered (1 Cor. 11), the use of spiritual gifts (1 Cor. 12-14), the resurrection from the dead (1 Cor. 15), and the collection for the saints in Jerusalem (1 Cor. 16). Reports of the problems within the church reached St. Paul's ears, and so he set out to answer these reports, correcting sinful practices and refuting false doctrine.

**Manufacturing Technology** Jan 26 2023 Individuals who will be involved in design and manufacturing of finished products need to understand the grand spectrum of manufacturing technology. Comprehensive and fundamental, *Manufacturing Technology: Materials, Processes, and Equipment* introduces and elaborates on the field of manufacturing technology—its processes, materials, tooling, and equipment. The book emphasizes the fundamentals of processes, their capabilities, typical applications, advantages, and limitations. Thorough and insightful, it provides mathematical modeling and equations as needed to enhance the basic understanding of the material at hand. Designed for upper-level undergraduates in mechanical, industrial, manufacturing, and materials engineering disciplines, this book covers complete manufacturing technology courses taught in engineering colleges and institutions worldwide. The book also addresses the needs of production and manufacturing engineers and technologists participating in related industries.

**Jesus, Jihad and Peace** Jul 28 2020 Judaism, Christianity, and Islam all feature parallel accounts of the "end times," and all three accounts feature a messianic Savior, an apocalyptic final war between good and evil, and a central role for the city of Jerusalem. Do these three "end times" scenarios intersect in some way? In a world that cries out for peace, which will prevail—Jesus or jihad?

**Zein** When nothing is certain, Everything is possible Dec 13 2021 My son reminded me that it must get worse before it gets better, that there is a silver lining in everywhere we go and everything we do, yet it is on us to choose to see it or not! There were days where we thought this is it... this is the end of the tunnel and hey no light here! And there, right there at rock bottom is where I witnessed, experienced and lived the true definition of...rise again. We live one life that can change in a blink of an eye and without giving us any notice! So, the question is...are you strong enough to look this sudden change in the eye and stand for it? Can you smile when you feel like breaking down? Are you capable of embracing the different emotions of fear, anger and feeling helpless... while still believing that patience is the way to a promised happiness? A true story from a mom's perspective about a young hero who inspired thousands of people, with his bravery to fight late stages of cancer 4 different times. A book that stands as a true motivation and inspiration to everyone no matter what battle they are fighting

**Hope for This Present Crisis** Nov 24 2022 Our culture has lost its mind. Now, we are waging a bigger fight—a war for our soul. Is it possible our world has gone mad? We are under siege and the war is not from without; it is from within. The collapse of the Roman Empire occurred in a single generation and was not so much the result of invasions by their enemies but the result of moral decay and internal corruption. Similar patterns are emerging in America. We neglected or abandoned our traditional institutions long ago, but now it's time to take them back. Today, forces are at work to strip the principles and precepts of faith from public venues or minimize their significance. Many progressive leaders are convinced that when Christianity disintegrates it will create peace on earth. But the loss of our heritage will merely create a spiritual vacuum that will be filled with folly, crammed with chaos, or invaded by Islam. The reality is: Western civilization will become so decadent and reckless that America will collapse like a house of cards. In *Hope for This Present Crisis*, Dr. Youssef provides a diagnosis of the insanity of the current culture and a seven-step prescription for restoring sanity to a world gone mad. Here's the seven-step path to restoring a world gone mad: Remember the Truth – Stand firm on the truth of the gospel. Restore the Soul – Seek God's approval? not the approval of other people. Revitalize the Family – Guard your children from the horrors of the Internet. Reestablish the Classroom – Support conscientious, caring public school teachers. Respect our Freedoms –

Know your rights. Reform our Society – Morally and spiritually purify yourself. Revive the Church – Demonstrate the forgiving love of Jesus at all times. This book will teach you how to stand up to attacks on your faith, and defend Christianity as a meaningful contribution to society.

**Revolution for Dummies** Jul 20 2022 “Hilarious and Heartbreaking. Comedy shouldn’t take courage, but it made an exception for Bassem.” --Jon Stewart “The Jon Stewart of the Arabic World”—the creator of *The Program*, the most popular television show in Egypt’s history—chronicles his transformation from heart surgeon to political satirist, and offers crucial insight into the Arab Spring, the Egyptian Revolution, and the turmoil roiling the modern Middle East, all of which inspired the documentary about his life, *Tickling Giants*. Bassem Youssef’s incendiary satirical news program, *Al-Bernameg* (*The Program*), chronicled the events of the 2011 Egyptian Revolution, the fall of President Hosni Mubarak, and the rise of Mubarak’s successor, Mohamed Morsi. Youssef not only captured his nation’s dissent but stamped it with his own brand of humorous political criticism, in which the Egyptian government became the prime laughing stock. So potent were Youssef’s skits, jokes, and commentary, the authoritarian government accused him of insulting the Egyptian presidency and Islam. After a six-hour long police interrogation, Youssef was released. While his case was eventually dismissed, his television show was terminated, and Youssef, fearful for his safety, fled his homeland. In *Revolution for Dummies*, Youssef recounts his life and offers hysterical riffs on the hypocrisy, instability, and corruption that has long animated Egyptian politics. From the attempted cover-up of the violent clashes in Tahrir Square to the government’s announcement that it had created the world’s first “AIDS cure” machine, to the conviction of officials that Youssef was a CIA operative—recruited by Jon Stewart—to bring down the country through sarcasm. There’s much more—and it’s all insanely true. Interweaving the dramatic and inspiring stories of the development of his popular television show and his rise as the most contentious funny-man in Egypt, Youssef’s humorous, fast-paced takes on dictatorship, revolution, and the unforeseeable destiny of democracy in the Modern Middle East offers much needed hope and more than a few healing laughs. A documentary about his life, *Tickling Giants*, debuted at the Tribeca Film Festival in 2016, and is now scheduled for major release.

*The Magical Reality of Nadia (The Magical Reality of Nadia #1)* Feb 27 2023 From Bassem Youssef, aka the Jon Stewart of the Arab World, and author Catherine R. Daly comes a hilarious and heartfelt story about prejudice, friendship, empathy, and courage. Nadia loves fun facts. Here are a few about her: • She collects bobbleheads -- she has 77 so far. • She moved from Egypt to America when she was six years old. • The hippo amulet she wears is ancient... as in it's literally from ancient Egypt. • She's going to win the contest to design a new exhibit at the local museum. Because how cool would that be?!(Okay, so that last one isn't a fact just yet, but Nadia has plans to make it one.) But then a new kid shows up and teases Nadia about her Egyptian heritage. It's totally unexpected, and totally throws her off her game. And something else happens that Nadia can't explain: Her amulet starts glowing! She soon discovers that the hippo is holding a helpful -- and hilarious -- secret. Can she use it to confront the new kid and win the contest? From *The Daily Show* comedian Bassem Youssef and author Catherine R. Daly comes a humorous and heartfelt story about prejudice, friendship, empathy, and courage. Includes sections of black-and-white comics as well as lively black-and-white illustrations throughout.

*Molecular Gastronomy at Home* Apr 24 2020 "This book embodies the ultimate crash course for the amateur chef and home cook in preparing food using modern scientific principles... For a reader seeking new and broader culinary horizons just come armed with a dash of patience and a pinch of scientific interest -- the results ought to be astounding." -- Publishers Weekly At one time revolutionary and the sole purview of dedicated expert chefs, molecular gastronomy is well established as a cuisine choice. Food aficionados who want to create it at home can now find equipment and locate the catalyst ingredients, but it's neither a bargain method of cooking nor a quick study. This book shows the most common methods used in molecular gastronomy adapted for the home. Clear and easy-to-follow step-by-step photographs demonstrate each technique so that cooks can practice the unique skills, handle the unusual ingredients and plate the dishes. Most beneficial to home cooks, however, is that should special equipment be unavailable, the author recommends the closest domestic equivalents. *Molecular Gastronomy at Home* is an outstanding practical introduction to a fascinating and delicious cooking method. It demonstrates how with clear technical guidance, numerous illustrations, achievable recipes and a generous dose of patience, home cooks can take culinary physics out of the lab and into their home kitchen. With the first edition of *Molecular Gastronomy at Home* sold out, this second edition will be available for a wider audience of cooks who like to explore and learn new skills.

**Refugee** Apr 17 2022 A tour de force from acclaimed author Alan Gratz (*Prisoner B-3087*), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A *New York Times* bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world . . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America . . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home.

**Youssef Chahine** Aug 21 2022 A discussion of the frequently controversial film maker Youssef Chahine. The book aims to illuminate Chahine's work in the context of modern Egyptian culture and its tumultuous post-war history and how such films as 'Cairo Station' (1958), 'The Earth' (1959) and 'The Sparrow' (1973) dramatized the dilemmas of ordinary Egyptians. He also argues that Chahine's intensely autobiographical trilogy 'Alexandria...Why?' (1978), 'An Egyptian Story' (1985) and 'Alexandria...More and More' (1989)

spoke to the concerns of the broader Egyptian intelligentsia amongst whom he has earned the reputation of being the 'poet and thinker' of modern Arab cinema. The final analysis of the book argues that Chahine's work stands comparison with directors such as Fellini, Bergman, Kurosawa or Sembene but also emphatically draws strength from its links with one of the most vibrant popular cinemas of the world and from the roots and traditions of popular Arabic culture.

**Polysaccharide Building Blocks** Mar 24 2020 This book is an archival reference for the evolving field of biomaterials and their applications in society, focusing on their composition, properties, characterization, chemistry and applications in bioenergy, chemicals, and novel materials and biomaterials. It has broad appeal due to the recent heightened awareness around bioenergy and biomass as potential replacements for petroleum feedstocks. The book is divided into three parts: cellulose-based biomaterials, chitin and chitosan biomaterials, and hemicelluloses and other polysaccharides. Each chapter addresses a separate biomaterial, discussing its chemical, physical, and biological attributes, and hones in on each compound's intrinsic tunability for numerous chemical transformations. In the current quest for a "green" economy and resources, this book will help inspire scientists towards novel sources for chemicals, materials, and energy in the years to come.

**When the Crosses Are Gone** Sep 29 2020 The collapse of the Roman Empire occurred in a single generation and was not so much the result of invasions by their enemies, but the result of moral decay and internal corruption. Similar patterns are emerging in America and the elimination of the Christian cross is one of the most significant symbols of that cultural decay. Today, forces are at work to strip this "dangerous symbol" from public venues and to minimize its significance. Many Muslim leaders are convinced that when Christianity disintegrates it will create a spiritual vacuum in the West and their extreme brand of Islam will rush in to fill that void. They believe that Western civilization will become so decadent that America will collapse like a house of cards. Dr. Youssef writes that Christians must stand up against these attacks and defend the cross as a symbol of the love and grace of God, and he provides a diagnosis of the insanity of the current culture and a prescription for restoring sanity to a world gone mad.

**Middle School Mischief (The Magical Reality of Nadia #2)** May 18 2022 Inspired by the author's real-life experiences, this second hilarious and sweet novel about sixth grade Egyptian immigrant Nadia has her battling school newspaper drama, controversy with the school mascot, and some magical mischief, too. Nadia loves fun facts. Here are a few about her: There was a magical—and hilarious—ancient Egyptian teacher named Titi trapped in her hippo amulet until she freed him last fall. Her school is choosing a new mascot and her idea is totally going to win! She's going to kick butt writing for the school newspaper this term... ..Maybe. A couple of weeks in, the newspaper is a big mess. The mascot contest is mayhem, too. (Who knew choosing a costumed character could cause such controversy?!) Then Nadia and Titi discover that the hippo amulet holds a second secret, one that's super powerful—and super scary. Too bad they have no idea how to stop it. But Nadia is on the case! If she can solve the mystery of an ancient amulet, winning the mascot contest and acing her reporter assignments should be easy...right? From The Daily Show comedian Bassem Youssef and author Catherine R. Daly comes a humorous and heartfelt story about integrity, empathy, power, and friendship. Includes sections of black-and-white comics as well as black-and-white illustrations throughout, brought to life by Last Kids on Earth illustrator, Douglas Holgate.

**Never Give Up** Jun 19 2022 What if the answers to our modern crises are found in ancient truths? This book will give you the hope and courage you need to stay firm in your faith despite the circumstances going on around you. You will keep your devotion to God and boldly share your faith. The truth of the gospel is in great danger. Biblical beliefs are being attacked. Biblical morality is being assaulted. Christians are being insulted for holding to the ancient truths found in the Scriptures. We are in a fight to be heard and not canceled—to share our faith amidst the cancel culture. What is God's message to us this day? What does He want from us in these troubled times? Resilience. Courage. Faithfulness. His call to us is to never give up. Never give up...on the infallible Word of God. Never give up...on the faith once delivered. In his last letter, the aged and imprisoned apostle Paul realized that his final days were approaching. So, he wrote his last legacy message for his beloved Timothy and for future generations of disciples—namely you and me. In *Never Give Up*, Dr. Michael Youssef echoes the words of the apostle Paul so that we may experience encouragement—and know triumph in the midst of defeat. With a sense of urgency, we are called to the steadfast service of a certain conviction. Despite hardship and suffering, we can learn to be unwavering in our devotion. As followers of Jesus, too often we are tempted to throw in the towel, give up the fight, and give in to fear. But we must not let that be our reality. We have not been abandoned. God is here. Yet conviction is needed and service is required. No matter what comes our way, we must never give up.

**Machining Technology** Mar 04 2021 Offering complete coverage of the technologies, machine tools, and operations of a wide range of machining processes, *Machining Technology* presents the essential principles of machining and then examines traditional and nontraditional machining methods. *Applied Mechanics of Polymers* Jan 14 2022 Applied Mechanics of Polymers: Properties, Processing, and Behavior provides readers with an overview of the properties, mechanical behaviors and modeling techniques for accurately predicting the behaviors of polymeric materials. The book starts with an introduction to polymers, covering their history, chemistry, physics, and various types and applications. In addition, it covers the general properties of polymers and the common processing and manufacturing processes involved with them. Subsequent chapters delve into specific mechanical behaviors of polymers such as linear elasticity, hyperelasticity, creep, viscoelasticity, failure, and fracture. The book concludes with chapters discussing electroactive polymers, hydrogels, and the mechanical characterization of polymers. This is a useful reference text that will benefit graduate students, postdocs, researchers, and engineers in the mechanics of materials, polymer science, mechanical engineering and material science. Additional resources related to the book can be found at polymersmechanics.com. Provides examples of real-world applications that demonstrate the use of models in designing polymer-based components Includes access to a companion site from where readers can download FEA and MATLAB code, FEA simulation files, videos and other supplemental material Features end-of-chapter summaries with design and analysis guidelines, practice problem sets based on real-life situations, and both analytical and computational examples to bridge academic and industrial applications

**The Book of the Sultan's Seal** Jul 08 2021 A PROFOUNDLY ORIGINAL DEBUT FROM HIGHLY ACCLAIMED EGYPTIAN WRITER Youssef Rakha's extraordinary The Book of the Sultan's Seal was published less than two weeks after then Egyptian President Hosni Mubarak stepped down, following mass protests, in February 2011. It's hard to imagine a debut novel of greater urgency or more thrilling innovation. Modeled on a medieval Arabic manuscript in the form of a letter addressed to the writer's friend, The Book of the Sultan's Seal is made up of nine chapters, each centered on a drive our hero, Mustafa Çorbaci, takes around greater Cairo in the spring of 2007. Together these create a portrait of Cairo, city of post-9/11 Islam. In a series of dreams and visions, Mustafa Çorbaci encounters the spirit of the last Ottoman sultan and embarks on a mission the sultan assigns him. Çorbaci's trials shed light on the contemporary Arab Muslim's desperation for a sense of identity: Sultan's Seal is both a suspenseful, erotic, riotous novel and an examination of accounts of Muslim demise. The way to a renaissance, Çorbaci's journeys lead us to see, may have less to do with dogma and jihad than with love poetry, calligraphy, and the cultural diversity and richness within Islam. With his first novel, Rakha has created a language truly all his own—an achievement that has earned international acclaim. This profoundly original work both retells canonical Arabic classics and offers a new version of "middle Arabic," in which the formal meets the vernacular. Now finally in English, in Paul Starkey's masterful translation, The Book of the Sultan's Seal will astonish new readers around the world.

**The Hidden Enemy** Dec 21 2019 What's going on in our world? Why are suicide bombers attacking our cities? Why are shooters invading our workplaces and malls? Why are students attacking speakers at their colleges? Why are there two versions of the truth on the Internet and in the media? Michael Youssef, popular teacher and Middle Eastern expert, explains in detail what's troubling today's world. Aggressive secularism is stripping our nation of the vestiges of truth, as many Christians are browbeaten into silence. What's ironic is that secularism is actually opening the door to the "might makes right" nature of radical Islam. In a post-truth world, the most powerful voice wins. What can save us and our children from this chilling future? Michael Youssef, in this groundbreaking book, shows how we can win the war against aggressive secularism, beat back the threat of radical Islam, and build a brighter future for both ourselves and the next generation. Be prepared for the times in which we live. Understand what's happening. Stand up for a brighter and hope-filled future for our children.

**Warning** Feb 21 2020 In actuality, this book expresses all of the problems I've encountered in my life since I was a child. Hi, my name is Yousef Saleh Erakat aka Fousey. I am a YouTuber, Actor, Wannabe Motivational Speaker, Artist, and a Depressive with over 15 million total YouTube subscribers, a couple of Hollywood movies on my resume, some big awards on my shelf, and for the first time, I will be opening up about how I survived my struggles with depression, anxiety, fame, suicidal thoughts, and addiction. Welcome to my life.

**GAIIA** Nov 12 2021 It's time for change, a transformational approach that will reform all areas of human life. Open your mind and embark on a journey that will test your cognitive flexibility and encourage you to transition from a logical to a more creative thinking process. To understand these ideas, you need to break free and exercise your intellectual freedom. With a wide range of interdisciplinary knowledge, Hares Youssef presents his philosophical, scientific, and economic ideas in the form of a fascinating science fiction novel. The reader will go on a mind-bending journey where they will meet Nikola Tesla, Joseph Stalin, and the prominent figures who make history today. In this engrossing adventure, the reader will recognize the fact that Earth has a twin planet and that all things in the universe exist in pairs. They will learn about the role of language in the process of human self-knowledge, the three stages of the development of civilization, how architecture becomes philosophy, and finally the lunar generation and the mysterious Paideums which may come in nightmares to the sage Plato. GAIIA predicts the behavior of a world ready for radical change. Predicting means revealing aspects of reality that tomorrow will mark the cornerstone of historical events. Hares Youssef's ideas have transformational potential aimed at reframing all areas of human life such as economics, ecology, psychology, society, art, time, the problem of consciousness, new technologies, and human relationships. More importantly, every thought expressed by him is always inextricably linked with action and, moreover, with projects to change the financial system, educational model, value system, language approach, and scientific picture of the world. It's a challenge to the global system of values that will ultimately pull the rug from under your feet by calling into question everything that yesterday seemed indisputable to you. To accept and comprehend these challenges, you need to have cognitive flexibility and the ability to make the transition from logical thinking to creative or lateral thinking. In other words, to understand these ideas you need to exercise intellectual freedom. GAIIA is a visionary and inspirational science fiction novel with a mind-bending storyline that is perfect for readers who are willing to look ahead, challenge their imbedded vision of the world system, and be a catalyst for change.
