A look at Malcolm X's life and times from his Pulitzer Prize-winning biographer, Manning Marable Manning Marable's Pulitzer Prize-winning biography, Malcolm X: A Life of Reinvention, has reshaped perceptions of one of America's great revolutionary thinkers. This volume, the first collection of major documents addressing Malcolm X in decades, features never-before-published material, including articles from major newspapers and underground presses, oral histories, police reports, and FBI files, to shine a brighter light on Malcolm's life and times. Conceived as both a companion to the biography and a standalone volume, and assembled by Marable and his key researcher, Garrett Felber, prior to Marable's untimely death, The Portable Malcolm X Reader presents an invaluable portrait of Malcolm X. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. This exhilarating collection of essays is the product of a lifetime's engagement with Jane Austen's writing. They are modest, searching, wonderfully perceptive essays from which all

lovers of Jane Austen, the most knowledgeable as well as those who have just discovered her, will have much to learn. They are essays that send us back to the novels with a renewed understanding of Jane Austen's extraordinary achievement. Prof. Richard Cronin, University of Glasgow

This volume presents an exhilarating and insightful collection of essays on Jane Austen – distilling the author's deep understanding and appreciation of Austen's works across a lifetime. The volume is both intra- and inter-textual in focus, ranging from perceptive analysis of individual scenes to the exploration of motifs across Austen's fiction. Full of astute connections, these lively discussions hinge on the study of human behaviour – from family relationships to sickness and hypochondria – highlighting Austen's artful literary techniques and her powers of human observation.

Jane Austen: Reflections of a Reader by (the late) Nora Bartlett is a brilliant contribution to the field of Jane Austen studies, both in its accessible style (which preserves the oral register of the original lectures), and in its foregrounding of the reader in a warm, compelling and incisive conversation about Austen's works. As such, it will appeal widely to all lovers of Jane Austen, whether first-time readers, students or scholars. Bringing to life the world of *Mutants*, this book enables you to meet your favourite characters, learn about their abilities, and thus build up your reading skills. It also features illustrations that make learning about these amazing crime-fighters, from Cyclops and his laser eyes to Wolverine and his very special skeleton, great fun. The colonias of the U.S.–Mexico border form a loose network of

more than 2,500 settlements, ranging in size from villages to cities, that are home to over a million people. While varying in size, all share common features: wrenching poverty, substandard housing, and public health issues approaching crisis levels. This book brings together scholars, professionals, and activists from a wide range of disciplines to examine the pressing issues of economic development, housing and community development, and public and environmental health in colonias of the four U.S.–Mexico border states. The Colonias Reader is the first book to present such a broad overview of these communities, offering a glimpse into life in the colonias and the circumstances that allow them to continue to exist—and even grow—in persistent poverty. The contributors document the depth of existing problems in each state and describe how government agencies, nongovernmental organizations, and community activists have mobilized resources to overcome obstacles to progress. More than reporting problems and documenting programs, the book provides conceptual frameworks that tie poverty to institutional and class-based conflicts, and even challenges the very basis of colonia designations. Most of these contributions move beyond portraying border residents as hapless victims of discrimination and racism, showing instead their devotion to improving their own living conditions through grassroots organizing and community leadership. These contributions show that, despite varying degrees of success, all colonia residents aspire to a livable wage, safe and decent housing, and basic health care. The Colonias Reader showcases

many situations in which these people have organized to fulfill these ambitions and provides new insight into life along the border. **SPEED READING IS A GIFT THAT YOU CAN GIVE TO YOURSELF** You may know people who are able to read a newspaper in a few minutes, flip through yet thoroughly absorb a book in an hour, or effortlessly finish skimming a report before you even suspected they were done. Now in its second edition, *How to Read Texts*

introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close-reading skills. Great birthday, diary, or family reunion gift for people who love ancestry, genealogy, and family trees. This anthology brings together classic perspectives on violence, putting into productive conversation the thought of well-known theorists and activists, including Hannah Arendt, Karl Marx, G. W. F. Hegel, Osama bin Laden, Sigmund Freud, Frantz Fanon, Thomas Hobbes, and Pierre Bourdieu. The volume proceeds from the editors' contention that violence is always historically contingent; it must be contextualized to be understood. They argue that violence is

a process rather than a discrete product. It is intrinsic to the human condition, an inescapable fact of life that can be channeled and reckoned with but never completely suppressed. Above all, they seek to illuminate the relationship between action and knowledge about violence, and to examine how one might speak about violence without replicating or perpetuating it. On Violence is divided into five sections. Underscoring the connection between violence and economic world orders, the first section explores the dialectical relationship between domination and subordination. The second section brings together pieces by political actors who spoke about the tension between violence and nonviolence—Gandhi, Hitler, and Malcolm X—and by critics who have commented on that tension. The third grouping examines institutional faces of violence—familial, legal, and religious—while the fourth reflects on state violence. With a focus on issues of representation, the final section includes pieces on the relationship between violence and art, stories, and the media. The editors' introduction to each section highlights the significant theoretical points raised and the interconnections between the essays. Brief introductions to individual selections provide information about the authors and their particular contributions to theories of violence. With selections by: Hannah Arendt, Walter Benjamin, Osama bin Laden, Pierre Bourdieu, André Breton, James Cone, Robert M.
