Argues that significant barriers to family-making exist for lesbian mothers of color in the United States One might be tempted, in the afterglow of Obergefell v. Hodges, to believe that the battle has been won, that gays and lesbians fought a tough fight and finally achieved equality in the United States through access to legal marriage. But that narrative tells only one version of a very complex story about family and citizenship. Queering Family Trees explores the lived experience of queer mothers in the United States, drawing on over one hundred interviews with African American, Latina, Native American, white, and Asian American lesbian mothers living in a range of socioeconomic circumstances to show how they have navigated family-making. While the legalization of same-sex marriage and adoption in 2015 has provided avenues toward equality for some couples, structural and economic barriers have meant that others—especially queer women of color who often have fewer financial resources—have not been able to access seemingly available “choices” such as second-parent adoptions, powers of attorney, and wills. Sandra Patton-Imani here argues that the virtual exclusion of lesbians of color from public narratives about LGBTQ families is crucial to maintaining the narrative that legal marriage for same-sex couples provides access to full equality as citizens. Through the lens of reproductive justice, Patton-Imani argues that the federal legalization of same-sex marriage reinforces existing structures of inequality grounded in race, gender, sexuality, and class. Queering Family Trees explores the lives of a critically erased segment of the queer population, demonstrating that the seemingly “color blind” solutions offered by marriage equality do not rectify such inequalities. Now, based on new research conducted with leaders, change

makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries **Brené Brown: Atlas of the Heart!** **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership** is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership. **Writing Your Family History Can Be Complicated** Now there's help! **Scrivener** is the No.1 writing software on the market. **Scrivener for the Family Historian** will guide genealogists to becoming well-organized and productive family history writers. beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an account of the history of the human race.
