This book analyzes the lives and the continuing ritual traditions of the Mayas who live in the United States. Focusing on a predominantly Maya town in rural Florida, it shows how members of this ancient Central American civilization use their religious tradition to maintain their ethnic identity in an unfamiliar environment. Bringing together studies of Mesoamerican fiesta or cargo systems, religious ritual and migration studies, this interdisciplinary work describes the religious traditions of indigenous Guatemala, the crisis migration of the 1980s, and the Mayas' daily life in the United States, including Maya women's reflections on their new challenges. The book is unique in its focus on the transfer of the fiesta cycle to the diaspora and its analysis of the behind-the-scenes aspects of ritual. The rise of leadership, contested interpretations of ethnic identity, choices about symbolic representation, and maintenance of ties to villages of origin all take place in the context of organizing public ritual events. Through these strategies, the Maya people not only cope materially and spiritually with the chaotic experience of uprootedness, but find ways to strengthen their unique identity. Bibliography. Index. Puns, jokes, proverbs, riddles, play languages, verbal dueling, parallelism, metaphor, grammatical stretching and manipulation in poetry and song— people around the world enjoy these forms of speech play and verbal artistry which form an intrinsic part of the fabric of their lives. Verbal playfulness is not a frivolous pursuit. Often indicative of people's deepest values and worldview, speech play is a significant site of intersection among language, culture, society, and individual expression. In this book, Joel Sherzer examines many kinds of speech play from places as diverse as the United States, France, Italy, Bali, and Latin America to offer the first full-scale study of speech play and verbal art. He brings together various speech-play forms and processes and shows what they have in common and how they overlap. He also demonstrates that speech play explores and indeed flirts with the boundaries of the socially, culturally, and linguistically possible and appropriate, thus making it relevant for anthropological and linguistic theory and practice, as well as for folklore and literary criticism. With play-by-play coverage of every Nittany Lion bowl game, this book chronicles Penn State football's vibrant history all the way back to the 1923 Rose Bowl. Set in Arequipa during Peru's recent years of crisis, this ethnography reveals how dress creates gendered bodies. It explores why people wear clothes, why people make art, and why those things matter in a war-torn land. Blenda Femenías argues that women's clothes are key symbols of gender identity and resistance to racism. Moving between metropolitan Arequipa and rural Caylloma Province, the central characters are the Quechua- and Spanish-speaking maize farmers and alpaca herders of the Colca Valley. Their identification as Indians, whites, and mestizos emerges through locally produced garments called bordados. Because the artists who create these beautiful objects are also producers who carve an economic foothold, family workshops are vital in a nation where jobs are as scarce as peace. But ambiguity permeates all practices shaping bordados' significance. Femenías traces contemporary political and ritual applications, not only Caylloma's long-standing and violent ethnic conflicts, to the historical importance of cloth since Inca times. This is the only book about expressive culture in an Andean nation that centers on gender. In this feminist contribution to ethnography, based on twenty years' experience with Peru, including two years of intensive fieldwork, Femenías reflects on the ways gender shapes relationships among subjects, research, and representation. 'Other' Spanish Theatres challenges established opinions on modern Iberian theatre through a consideration of the roles of contrasting figures and companies who have impacted upon both the practice and the perception of Spanish and European stages. In this broad and detailed study, Delgado selects six subjects which map out alternative readings of a nation's theatrical innovation through the last century. These six subjects include Margarita Xirgu, Enrique Rambal, María Casarest and Nuria Espert.
