By 1915, nearly 100 had been built and turned over to the Army. From then on, as Sir Albert Stern said 'They searched the world for war', operating as far apart as the northwest frontier of India, the Middle East and southern Africa. The cars were fast, quiet and reliable but above all powerful. 'A Rolls in the desert is above rubies,' said Lawrence of Arabia. further cars served all across the Empire, including in Ireland and even later Shanghai, returning for a final brief appearance in the early stages of World War II. Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World

Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components

together to produce a finished one-off 'special.' Content includes:
