Writing as Freedom, Writing as Testimony Jul 20 2022 In *Writing as Freedom, Writing as Testimony*, Sergio Parussa explores the relationship between Judaism and writing in the works of four twentieth-century Italian writers: Umberto Saba, Natalia Ginzburg, Giorgio Bassani, and Primo Levi. Parussa examines the different ways in which each author's work responds to Judaism and the notion of Jewish identity. With great detail, he shows how their writings reflect a change in attitude toward Judaism that occurred in Italian society between the mid-nineteenth and mid-twentieth centuries, from a perception of Jewish identity as a constraint to one's freedom to an understanding of it as a tool of intellectual freedom that can contribute to one's sense of identity. For these authors, the recovery of Judaism consists not only of telling stories with Jewish subject matter but also of the repeated act of remembering, a process by which, as Parussa puts it, "the past is salvaged from oblivion by means of its reactualization in the present." Through memory, one becomes free to affirm difference and to make Jewish traditions an integral part of Italian culture.

The Difficult Construction of European Banking Union Feb 21 2020 The Difficult Construction of European Banking Union examines the political, legal and economic issues surrounding the lacunae and design faults of European Banking Union and its problematic operation. The volume brings together the work of sixteen scholars focused on the diverse debates surrounding the construction and operation of Banking Union (BU), and its necessary reform. BU represents one of the most important developments in European integration since the launch of Monetary Union. Furthermore, the design of the BU agreed between 2012 and 2014 was a messy compromise among EU member states. It is not surprising then that BU has sparked a lively academic debate and triggered an ever-growing number of publications from different disciplinary backgrounds. The first wave of academic work on BU focuses upon the economic rationale underpinning the supranationalisation of control over banking — regulation, supervision, support and resolution — and the political dynamics and legal issues that shaped the design of the Union agreed. This volume is located at the intersection of this first phase of academic research and a second stage which analyses the functioning of the different elements of BU. New research questions are triggered by the albeit limited empirical evidence on BU's implementation and operation. Contributions to this second wave of research attempt to identify potentially dangerous lacunae and contribute to on-going reform debates. The Difficult Construction of European Banking Union will be of great interest to scholars of the European Union, Banking, Economic Governance, and Political Economy. Most of the chapters were originally published as three special issues in the Journal of Economic Policy Reform.

Warm Beer, Lousy Food Dec 13 2021 The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.

A Dictionary of Chinese Buddhist Terms May 18 2022 This invaluable interpretive tool, first published in 1937, is now available for the first time in a paperback edition specially aimed at students of Chinese Buddhism. Those who have endeavoured to read Chinese texts apart from the apprehension of a Sanskrit background have generally made a fallacious interpretation, for the Buddhist canon is basically translation, or analogous to translation. In consequence, a large number of terms existing are employed approximately to connote imported ideas, as the various Chinese translators understood those ideas. Various translators invented different terms; and, even when the same term was finally adopted, its connotation varied, sometimes widely, from the Chinese term or phrase as normally used by the Chinese. For instance, klésa undoubtedly has a meaning in Sanskrit similar to that of, i.e. affliction, distress, trouble. In Buddhism affliction (or, as it may be understood from Chinese, the afflictors, distressers, troublers) means passions and illusions; and consequently fan-nao in Buddhist phraseology has acquired this technical connotation of the passions and illusions. Many terms of a similar character are noted in the body of this work. Consequent partly on this use of ordinary terms, even a well-educated Chinese without a knowledge of the technical equivalents finds himself unable to understand their implications.
