Policies and Persons Oct 29 2020

A Casebook in Interprofessional Ethics Feb 25 2023 The first ethics casebook that integrates clinical ethics (medical, nursing, and dental) and research ethics with public health and informatics. The book opens with five chapters on ethics, the development of interprofessional ethics, and brief instructional materials for students on how to analyze ethical cases and for teachers on how to teach ethics. In today's rapidly evolving healthcare system, the cases in this book are far more realistic than previous efforts that isolate the decision-making process by professions as if each is not embedded in a larger context that involves healthcare teams, hospital policies, and technology. The

central claim of this book is that ethics is an important common ground for all of the health professions. Furthermore, when we recognize that our professions converge upon a common goal we will find less conflict and more pleasure in working together.

Managing in the Public Sector Mar 22 2020 This casebook contains dozens of brief, engaging case studies for public administrators in public and nonprofit institutions. Inspired by real-life stories, these short cases cover a wide range of topics from affirmative action to human resources to sports management. *Managing the Public Sector* illustrates theoretical concepts while encouraging active reader participation and critical thinking.

Managing the Public Sector May 16 2022 Debuting its first edition, this unique casebook contains dozens of brief, engaging case studies for public administrators in public and nonprofit institutions. Inspired by real-life stories, these short cases cover a wide range of topics from affirmative action to human resources to sports management. *Managing the Public Sector* illustrates theoretical concepts while encouraging active reader participation and critical thinking.

Research Ethics Consultation Mar 02 2021 Interesting and important ethical questions confront researchers, regulators, institutional review boards, support personnel, and research participants committed to the ethical conduct of human subjects research at all stages of research. Questions encompass - but are not limited to - study design, enrolling participants, balancing the clinical needs of participants against the research agenda, ending trials, discharging post-trial obligations, and resolving conflicts. Straightforward solutions to these types of questions are often not found in regulations, ethics codes, or the bioethics literature. These resources may leave room for interpretation, offer conflicting guidance, or simply fail to address particular questions. Ethics consultation, which has been offered in clinical care settings with regularity since the 1980s, has since the turn of the century increasingly been sought in the clinical research context. Because there has only lately been recognition that ethics consultants can play a valuable role helping the research community conduct research in the most ethically informed way, there are many open questions in the field of research ethics consultation including the appropriate role of consultants and the best methods of consultation. The Clinical Center Bioethics Consultation Service has been serving the NIH community of researchers, administrators, healthcare providers, and research participants for more than a decade, conducting nearly 1,000 consultations in that time. In this book, members of the

Bioethics Consultation Service reflect on this long track-record and unparalleled range of research ethics consultations to share a collection of their most interesting and informative research ethics consultations and to start a dialogue on remaining open questions. Although the NIH experience is unique, this book focuses on cases - and associated lessons - that are generalizable and valuable for the entire clinical research community. This book will be valuable to ethics consultants, clinical investigators, students and teachers, and others desiring insight into clinical research ethics and ethics consultation.

Ethics in Plain English Jul 26 2020 *Ethics in Plain English* is a practical and engaging resource that shows psychologists how to apply the principles of APA's Ethics Code to the ethical dilemmas that they encounter in their daily lives. This second edition has been wholly rewritten and updated to make it consistent with the newly revised standards of the APA Ethics Code (2002). Each ethical standard is reproduced in its entirety. Then it is translated into everyday language and is followed by a fictional case study that illustrates, in an entertaining way, how the standard might be applied to a real life situation. Examples of both problematic and exemplary behavior in diverse settings are provided. New to this edition are thought-provoking discussion questions after each case study, making the book even more useful for classroom use or self study.

Crisis Intervention Ethics Casebook Sep 20 2022

Ethics Case Book of the American Psychoanalytic Association Jan 24 2023 Addressing the issue of professional ethics in the field of psychotherapy, this volume uses classical vignettes and discussions to examine the complexities faced by a therapeutic clinician in dealing with patients. Either hypothetical, generic, or composite situations, the examples are designed to help clinicians better recognize and respond to the ethical issues they will likely encounter in the field.

Public Health Ethics: Cases Spanning the Globe Feb 19 2020 This Open Access book highlights the ethical issues and dilemmas that arise in the practice of public health. It is also a tool to support instruction, debate, and dialogue regarding public health ethics. Although the practice of public health has always included consideration of ethical issues, the field of public health ethics as a discipline is a relatively new and emerging area. There are few practical training resources for public health practitioners, especially resources which include discussion of realistic cases which are likely to arise in the practice of public health. This work discusses these issues on a case to

case basis and helps create awareness and understanding of the ethics of public health care. The main audience for the casebook is public health practitioners, including front-line workers, field epidemiology trainers and trainees, managers, planners, and decision makers who have an interest in learning about how to integrate ethical analysis into their day to day public health practice. The casebook is also useful to schools of public health and public health students as well as to academic ethicists who can use the book to teach public health ethics and distinguish it from clinical and research ethics.

The Social Work Ethics Casebook Jun 17 2022

European Business Ethics Casebook Nov 22 2022 Business cases are at the heart of business ethics as a discipline. Analysis and reflection on the morality of business often is triggered by concrete cases. After four introductory chapters into recent developments within business ethics and the value of case analysis, the present volume offers extensive description of eight recent European cases, mainly stemming from The Netherlands and Belgium and all of them with a clear moral impact. Among them are the Lernout and Hauspie speech technology disaster, Heineken struggle with the promotion girls selling beer in Cambodia, cartels in the Dutch construction industry, the pharmaceutical industry and the Aids crisis, and Unilever allegedly making use of child labour in the cotton industry in India. The book will be of interest to researchers as well as teachers of undergraduate and graduate courses in Business Ethics, Business in Society, Management and Organisation Theory and Strategic Management. It will also be useful for business practitioners eager to learn about business ethics by means of cases.

Ethical Problems in the Practice of Law Jun 24 2020 Ethical Problems in the Practice of Law is a problem-based casebook sure to generate lively class discussion. Using real-world problems and cases, with emphasis on issues students are likely to face in their early years of practice, it places students in the lawyers position to engage in simultaneous strategic and ethical analysis of each problem. The Third Edition includes hundreds of new examples and introduces new material on current ethical issues. Outsourcing, contract lawyers, Internet advertising, and nonlawyer ownership of law firms are given thorough treatment, as are recent changes in rules and Justice Department policies. Sure to stimulate discussion, the companion website features a new recorded interview with the Guantanamo defense lawyer ordered to represent an unwilling defendant. Hallmark features: Co-authors Lerman and Schrag bring a broad range of teaching, consulting, clinical

research, and policy-making experience to this problem-based text. Contemporary approach succinctly covers all essential topics through clear, thorough exposition. Challenging problems compel students to engage in simultaneous strategic and ethical analysis. Comprehensive presentation of all ethics and professional responsibility topics and issues, including: Confidentiality and conflicts. Ethics rules. Legal malpractice. Disqualification. Criminal law. Wrongful discharge. Pertinent constitutional law. Lawyer's public responsibilities. More than 70 compelling, detailed problems, based on real cases and real-life situations that students are likely to experience during their first years of practice. Famous and less well-known cases are the basis of most of the problems, placing students in the lawyer's role. Recent and projected changes in the legal profession, including those resulting from the 2008 financial collapse. Distinct graphical elements appear throughout to help students see the relationships among parts of rules or theories.

Legal Ethics Nov 29 2020 Combining rigorous analysis of the professional rules of lawyer conduct with extensive interdisciplinary materials on the legal profession and ethics, this casebook offers a unique perspective on the professional challenges facing contemporary lawyers--and their opportunity to promote the public good. The book combines real-life problems, doctrinal and statutory analysis, and carefully-edited readings to offer a comprehensive and critical examination of the role of lawyers as client representatives and democratic citizens. Many of the chapters can be used as independent units for courses focusing on ethical problems in corporate practice, tax practice, family law, criminal law, and public interest law. The eighth edition also includes extensive revisions that provide new analysis of core professional rules, enhanced organizational formats, and critical additions to the case law and professional literature. Key changes include expanded coverage of how the lawyer-client relationship begins and ends; important updates to the materials on confidentiality, conflicts of interest, and market regulation; recent media clips; and new research on access to justice, diversity and inclusion, lawyer well being and legal education.

Policies and Persons Nov 10 2021

Environmental Ethics and Sustainability Feb 01 2021 *Environmental Ethics and Sustainability: A Casebook for Environmental Professionals* introduces a decision-making model constructed from the viewpoint that ethics are not about the way things are, but about the way things should be. The first part of the book covers natural human instincts, human attitude, treatment of other

species and the natural world, and fundamental concepts in environmental decision making in the public policy arena. It also provides insight and specifics on how to develop an ethics culture in an organization as well as conduct an environmental ethics education program that trains leaders, professionals, and students. The second part of the book identifies and deals with numerous dilemmas in a case-study format, offers options, tests ethical values, and offers practice to the environmental professionals in making the right choice and evaluating the justification for those decisions. The authors of this book explore the notion that doing the right thing is not a natural human instinct, and that the techniques needed for resolving an ethical dilemma require training. The book defines ethics as "the difference between what a person has the right to do and the right thing to do!" It details a framework for understanding and resolving various ethical claims and concentrates on providing hands-on practical training for environmental practitioners and students aspiring to become environmental leaders and professionals.

Boundaries Feb 13 2022 In this expanded and revised edition of a fresh and original case-study textbook on environmental ethics, Christine Gudorf and James Huchingson continue to explore the line that separates the current state of the environment from what it should be in the future. *Boundaries* begins with a lucid overview of the field, highlighting the key developments and theories in the environmental movement. Specific cases offer a rich and diverse range of situations from around the globe, from saving the forests of Java and the use of pesticides in developing countries to restoring degraded ecosystems in Nebraska. With an emphasis on the concrete circumstances of particular localities, the studies continue to focus on the dilemmas and struggles of individuals and communities who face daunting decisions with serious consequences. This second edition features extensive updates and revisions, along with four new cases: one on water privatization, one on governmental efforts to mitigate global climate change, and two on the obstacles that teachers of environmental ethics encounter in the classroom. *Boundaries* also includes an appendix for teachers that describes how to use the cases in the classroom.

A Casebook of Medical Ethics Dec 23 2022 Paternalism in the therapeutic relationship -- Duties to patient and family -- Deciding for others -- Medical research involving human subjects -- Physicians, third parties, and society.

The Ethics of Teaching Jan 12 2022 *The Ethics of Teaching* provides a frank discussion of the most frequently encountered ethical dilemmas that can arise

in educational settings, as well as tips on how to avoid these predicaments and how to deal with them when they do occur. The goal is to stimulate discussion and raise faculties' consciousness about ethical issues. Ethical dilemmas are presented as short, engaging case scenarios, most of which are based on actual situations, so as to furnish more realistic and interesting stimuli for individual reflection and group discussion. These scenarios offer the opportunity to consider the subtle complexities inherent in the social and psychological contexts in which educator-student interactions occur and the effects of those complexities on ethical decision making. Each case is followed by a detailed analysis and advice. The book's 195 cases are grouped into 22 chapters representing topics, such as the controversial classroom presentations and assignments, debatable testing and grading practices, problematic student-faculty interactions, dual-role relationships with students, collegial conflicts, managing very difficult students, and confidentiality dilemmas. *The Ethics of Teaching: A Casebook, Second Edition*: *focuses on commonly encountered ethical "gray areas" that have no clear solution; *includes questions to stimulate discussion of related ethical issues; *concludes with a chapter on prevention, peer mentoring, and intervention; and *serves as excellent "assigned reading" to stimulate group discussion in teaching workshops and faculty development programs. The first edition of this book evolved by collecting a variety of teaching situations that commonly occur in college and university settings. The authors then created responses to the situations and circulated both the cases and the responses to reviewers from a number of departments across the country. As a result, the vast majority of the cases are "discipline free." The second edition features many new cases to reflect recent trends and events related to academic ethics. Questions were added to stimulate discussion and to further elaborate the issues. *The Ethics of Teaching: A Casebook* is ideal for college and university faculty, graduate assistants, and administrators involved in workshops, graduate teaching assistant courses, and faculty development and new faculty orientation programs. As a result of the book's cross-disciplinary development, it will be beneficial to faculty from a broad spectrum of disciplines.

Ethics for Psychologists Dec 11 2021 With full coverage of the APA Code of Ethics and engaging vignettes to draw students into the material, *Ethics for Psychologists* provides unique multicultural, moral, and legal perspectives to the standards of conduct in the field of psychology. This book describes complex ethical dilemmas students may encounter and offers a variety of

frameworks through which to examine such dilemmas. Legal, moral, values-driven, and global approaches are provided in concise commentaries about the dictates of our own Code of Ethics. Students will be challenged to take control of their learning experience by moving beyond the basics of looking up each situation to find "the right thing to do," into a more active and engaged approach, with the goal of not only becoming ethical thinkers but informed decision makers.

Clinical Ethics Casebook Apr 15 2022 You decide! Learn to identify and effectively evaluate ethical problems in health care. The hundreds of brief, readable cases in this book will help you do just that. Author Peter Horn, a philosopher and applied ethicist who has taught clinical ethics for 20 years, includes cases drawn from a variety of areas of clinical practice. Discussion questions following each case help you appreciate the moral complexity of the situations and offer guidance for structuring possible answers.

An Ethics Casebook for Hospitals Mar 26 2023 Originally published in 1999, this classic textbook includes twenty-six cases with commentary and bibliographic resources designed especially for medical students and the training of ethics consultants. The majority of the cases reflect the day-to-day moral struggles within the walls of hospitals. As a result, the cases do not focus on esoteric, high-tech dilemmas like genetic engineering or experimental protocols, but rather on fundamental problems that are pervasive in basic healthcare delivery in the United States: where to send a frail, elderly patient who refuses to go to a nursing home, what role the family should play in making a treatment decision, what a hospital should do when it is getting stuck with too many unpaid bills. This thoroughly revised and updated second edition includes thirteen new cases, five of which are designated as "skill builder" cases aimed specifically at persons who wish to conduct clinical ethics case consultations. The new cases highlight current ethical challenges that arise in caring for populations such as undocumented immigrant patients, persons with substance use disorders involving opioids, and ethical issues that arise beyond the bedside at the organizational level. The reader is invited to use the supplemental videos and assessment tools available on the website of the Loyola University Chicago ACES project (www.LUC.edu/ethicsconsult).

Health Care Ethics for Psychologists May 04 2021 Health Care Ethics For Psychologists: A Casebook explores the ethical questions encountered most often by practitioners in health care settings. Ethical challenges occur almost routinely in health care. Issues of informed consent, respect for patients'

dignity and confidentiality, the balance between patient and family rights, and billing for services under managed care are just a few of the topics that challenge psychologists to uphold their ethical obligations across the health care continuum. This casebook offers a real-life view of ethical situations as they unfold, including case-by-case consideration of critical background information, key stakeholders, the direct relevance of specific APA principles and standards, and suggested steps to resolve ethical issues. Case examples in settings from the emergency room to long-term care vividly illustrate the complexities of ethical dilemmas, and case commentaries helpfully explicate the quandaries presented. These detailed cases allow the reader to acquire a true understanding of the patients' specific contexts and the challenges to clinical decision-making. This dynamic view affords readers the opportunity to critically evaluate the

ACA Ethical Standards Casebook Oct 21 2022 “This practical guide is ideal both for teaching future members of the profession about their ethical responsibilities and for reinforcing ethical competence among current professionals. We strongly recommend this book.” Jeffrey E. Barnett, PsyD, ABPP W. Brad Johnson, PhD Loyola University Maryland United States Naval Academy Coauthors, Ethics Desk Reference for Counselors, 2nd Edition “Herlihy and Corey’s text boosts the reader’s ethical understanding leaps and bounds above mere reading of the ACA Code of Ethics. With multifaceted case study examples and an integrated approach to tackling ethical dilemmas, this book is a must-read for students, counselors, counselor educators, and supervisors.” Shannon Hodges, PhD Michael Knight Niagara University Graduate Student, Niagara University ACA Ethics Revision Task Force Member The seventh edition of this top-selling text provides a comprehensive resource for understanding the 2014 ACA Code of Ethics and applying its principles to daily practice. Each individual standard of the Code is presented with an explanatory case vignette, and a Study and Discussion Guide is provided at the beginning of each major section of the Code to stimulate thought and discussion. Common ethical concerns, with instructive case studies, are then explored in individual chapters. Topics addressed include client rights and informed consent, social justice and counseling across cultures, confidentiality, counselor competence, working with minor clients, managing boundaries, client harm to self or others, counselor training and supervision, research and publication, and the intersection of ethics and law. Chapters new to this edition examine managing value conflicts and the issues surrounding new technology, social media, and online counseling. The

Casebook also contains an Inventory of Attitudes and Beliefs About Ethical Issues to assist counselors in developing a personal ethical stance. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org.

The Ethical Practice of Forensic Psychology Jan 20 2020 Highlights the ethical standards and guidelines set forth by the American Psychological Association's (APA) Ethical Principles of Psychologists and Code of Conduct (EPPCC) and the Specialty Guidelines for Forensic Psychology (SGFP). This Casebook provides readers with a practical review of these ethical standards and professional guidelines in the context of 35 forensic case vignettes with corresponding commentary by leaders in the field. Concepts are presented using a best-practices model that encourages and promotes engaging in empirically supported decision-making.

Ethical Casebook for the Practice of Marriage and Family Counseling Dec 19 2019

Media Law and Ethics Jun 05 2021 This new edition of the casebook includes extensive excerpts from 25 major decisions by the Supreme Court of the United States in media law or related to media law. The cases are presented in the order in which they are discussed in the third edition of *Media Law and Ethics* by Roy L. Moore and Michael D. Murray, but the casebook is designed to be used as a supplemental text in any media law course. Each case includes a brief overview and has been edited to delete detailed citations and highly technical material. However, every effort has been made to preserve the Court's original language, including its recitation of the facts, its reasoning and the holding in the case. Most of the cases also include excerpts from the Court's syllabus, a summary prepared by the Court's Reporter of Decisions. A few of the cases include excerpts from concurring and/or dissenting opinions, where those opinions illustrate the complexity of the case or were influential in later decisions.

California Legal Ethics Apr 03 2021 The new editions of *Problems in Legal Ethics* (Eighth Edition) and *California Legal Ethics* (Sixth Edition) retain their popular problem-based approach while integrating recent developments since the prior editions. Of particular note is the completely rewritten chapter addressing judicial conduct, which adopts a fresh and more teachable approach to judicial ethics, based on the new 2007 ABA Model Code of Judicial Conduct.

Environmental Ethics and Sustainability Dec 31 2020 Environmental Ethics and Sustainability: A Casebook for Environmental Professionals introduces a decision-making model constructed from the viewpoint that ethics are not about the way things are, but about the way things should be. The first part of the book covers natural human instincts, human attitude, treatment of other species and the natural

Media Law and Ethics,, Third Edition Aug 27 2020 The third edition of Media Law and Ethics features a complete updating of all major U.S. Supreme Court cases and lower court decisions through 1998; more discussion throughout the book on media ethics and the role of ethics in media law; and an updated appendix that now features a copy of the U.S. Constitution, new sample copyright and trademark registration forms, and the current versions of major media codes of ethics, including the new code of the Society of Professional Journalists. Extensively updated and expanded chapters provide: *more detailed explanations of the legal system, the judicial process, and the relationship between media ethics and media law; *new cases in this developing area of the law that has attracted renewed attention from the U.S. Supreme Court; *the new Telecommunications Act and the Communications Decency Act; *a discussion of telecommunications and the Internet; *new developments in access to courts, records, and meetings such as recent court decisions and statutory changes; and *more information about trademark and trade secret laws and recent changes in copyright laws, as well as major court decisions on intellectual property. The book has also been updated to include new developments in obscenity and indecency laws, such as the Communications Decency Act, and the U.S. Supreme Court decision in *Reno vs. ACLU*. In addition, the instructor's manual includes a listing of electronic sources of information about media law, sample exams, and a sample syllabus.

Ethics for Psychologists Jul 18 2022 With full coverage of the APA Code of Ethics and engaging vignettes to draw students into the material, *Ethics for Psychologists* provides unique multicultural, moral, and legal perspectives to the standards of conduct in the field of psychology. This book describes complex ethical dilemmas students may encounter and offers a variety of frameworks through which to examine such dilemmas. Legal, moral, values-driven, and global approaches are provided in concise commentaries about the dictates of our own Code of Ethics. Students will be challenged to take control of their learning experience by moving beyond the basics of looking up each situation to find "the right thing to do," into a more active and

engaged approach, with the goal of not only becoming ethical thinkers but informed decision makers.

The Global and the Local: An Environmental Ethics Casebook Sep 08 2021 In *The Global and the Local: An Environmental Ethics Casebook*, Dale Murray presents fifty-one compelling case studies. By interweaving theoretical considerations into case studies, Murray illuminates a comprehensive range of the most pressing environmental issues facing our biosphere.

The Ethics of Teaching Aug 19 2022 *The Ethics of Teaching* provides a frank discussion of the most frequently encountered ethical dilemmas that can arise in educational settings, as well as tips on how to avoid these predicaments and how to deal with them when they do occur. The goal is to stimulate discussion and raise faculties' consciousness about ethical issues. Ethical dilemmas are presented as short, engaging case scenarios, most of which are based on actual situations, so as to furnish more realistic and interesting stimuli for individual reflection and group discussion. These scenarios offer the opportunity to consider the subtle complexities inherent in the social and psychological contexts in which educator-student interactions occur and the effects of those complexities on ethical decision making. university faculty, graduate assistants, and administrators involved in workshops, graduate teaching assistant courses, and faculty development and new faculty orientation programs. As a result of the book's cross-disciplinary development, it will be beneficial to faculty from a broad spectrum of disciplines.

Managing in the Public Sector Aug 07 2021 Casebooks in public administration have become intensely sophisticated with complex scenarios, richly detailed multi-step simulations, and demanding role playing requirements. While these types of cases and exercises have their place, Managing in the Public Sector is a casebook designed with maximum instructor flexibility and student engagement in mind. Featuring cases brief enough to be covered in the last few minutes of a class as well as those substantive enough to last the entire hour, this book allows instructors to illustrate theoretical concepts, encourage active student participation, to make a transition between topics, or to integrate different approaches to administrative study. Retaining the first edition's use of focused, real-life-inspired cases to help elucidate the application of concepts for students, the second edition has been updated and revised throughout to include: An expanded chapter on ethical analysis A new section on how to make logical arguments Thoroughly updated cases as well as many new contemporary cases New chapter introductions featuring overviews of major leadership and ethical theories to provide students with the context they need Discussion questions at the end of each case to facilitate critical analysis and classroom discussion A cross-listing of all cases and subject matter in an appendix for quick topical reference. Now even more enmeshed in the literature of ethics, leadership, and public administration, Managing in the Public Sector, 2e provides authentic, hands-on experience of the decisions public administrators must face. It is an ideal casebook to supplement undergraduate and graduate public administration, leadership, human resource management, or administrative ethics courses.

The Ethics of Teaching Apr 22 2020 The Ethics of Teaching provides a frank discussion of the most frequently encountered ethical dilemmas that can arise in educational settings, as well as tips on how to avoid these predicaments and how to deal with them when they do occur. The goal is to stimulate discussion and raise faculties' consciousness about ethical issues. Ethical dilemmas are presented as short, engaging case scenarios, most of which are based on actual situations, so as to furnish more realistic and interesting stimuli for individual reflection and group discussion. These

scenarios offer the opportunity to consider the subtle complexities inherent in the social and psychological contexts in which educator-student interactions occur and the effects of those complexities on ethical decision making. Each case is followed by a detailed analysis and advice. The book's 195 cases are grouped into 22 chapters representing topics, such as the controversial classroom presentations and assignments, debatable testing and grading practices, problematic student-faculty interactions, dual-role relationships with students, collegial conflicts, managing very difficult students, and confidentiality dilemmas. *The Ethics of Teaching: A Casebook, Second Edition*: *focuses on commonly encountered ethical "gray areas" that have no clear solution; *includes questions to stimulate discussion of related ethical issues; *concludes with a chapter on prevention, peer mentoring, and intervention; and *serves as excellent "assigned reading" to stimulate group discussion in teaching workshops and faculty development programs. Journalism Ethics Apr 27 2023 Closely organized around the Society of Professional Journalists' code of ethics--the news industry's widely accepted "gold standard" of journalism principles--this updated edition features a wide selection of case studies penned by professional journalists--including several new additions--that offer examples of thoughtful, powerful, and principled reporting. Cases where regrettable decisions have taught important lessons are also included, providing a new template for analyzing moral predicaments. This revised edition includes chapters such as "Ethics and the Law," "Conflicts of Interest," "Privacy," and "Source/Reporter Relationships." Describing the basic connection between ethical journalism and excellent journalism, this is a lively, succinct, and accessible discussion

of how this type of reporting can be morally upheld in the present day, regardless of medium or platform.

Health Care Law and Ethics Jul 06 2021 Health Care Law and Ethics, Ninth Edition offers a relationship-oriented approach to health law—covering the essentials, as well as topical and controversial subjects. The book provides thoughtful and teachable coverage of every aspect of health care law. Current and classic cases build logically from the fundamentals of the patient/provider relationship to the role of government and institutions in health care. The book is adaptable to both survey courses and courses covering portions of the field. Key Features: New authors Nick Bagley and Glenn Cohen Incorporated anticipated changes to the Affordable Care Act More current cases and more streamlined notes, including ones on medical malpractice, bioethics, and on finance and regulation More coverage of “conscientious objection” and “big data” - Discussion of new “value based” methods of physician payment - Expanded coverage of “fraud and abuse” Current issues in public health (e.g., Ebola, Zika) and controversies in reproductive choice (e.g., Hobby Lobby) Coverage of cutting-edge genetic technologies (e.g., gene editing and mitochondrial replacement)

Casebook on Ethical Issues in International Health Research Mar 14 2022 I. Defining "research"--II. Issues in study design . -- III. Harm and benefit -- IV. Voluntary informed consent -- V. Standard of care -- VI. Obligations to participants and communities -- VII. Privacy and confidentiality -- VIII. Professional ethics.

Ethical Problems in the Practice of Law Sep 27 2020 Ethical Problems in the Practice of Law, Concise Fourth Edition is the briefer version of Lerman and Schrag’s highly successful problem-based textbook that offers a contemporary and thoughtful approach to challenging ethical dilemmas, encouraging deep analysis and lively class discussion. Key Features: Succinct and accessible explanation of lawyer law in question and answer format Numerous problems based on actual cases, in which students must analyze the ethical and strategic issues as if they were practicing lawyers Focus on issues that students are most likely to face in their early years of practice Stimulating presentation of materials, including cartoons, tables, and photos New to the Fourth Edition: Updates of countless recent developments in lawyer law, including the amendments to Rules 1.6, 1.18 and 8.4 Up-to-date discussions of how the Internet is affecting law practice, including the use of e-mail and social media Engaging two-color design New chapter on the changing legal profession Reorganized so that the chapters match the practice

MPRE questions in Lerman, Schrag, and Gupta's Ethical Problems in the Practice of Law: Model Rules, State Variations and Practice Questions.

European Business Ethics Casebook Oct 09 2021

The Ethics of Teaching May 24 2020 The Ethics of Teaching provides a frank discussion of the most frequently encountered ethical dilemmas that can arise in educational settings, as well as tips on how to avoid these predicaments and how to deal with them when they do occur. The goal is to stimulate discussion and raise faculties' consciousness about ethical issues. Ethical dilemmas are presented as short, engaging case scenarios, most of which are based on actual situations, so as to furnish more realistic and interesting stimuli for individual reflection and group discussion. These scenarios offer the opportunity to consider the subtle complexities inherent in the social and psychological contexts in which educator-student interactions occur and the effects of those complexities on ethical decision making. Each case is followed by a detailed analysis and advice. The book's 195 cases are grouped into 22 chapters representing topics, such as the controversial classroom presentations and assignments, debatable testing and grading practices, problematic student-faculty interactions, dual-role relationships with students, collegial conflicts, managing very difficult students, and confidentiality dilemmas. The Ethics of Teaching: A Casebook, Second Edition: *focuses on commonly encountered ethical "gray areas" that have no clear solution; *includes questions to stimulate discussion of related ethical issues; *concludes with a chapter on prevention, peer mentoring, and intervention; and *serves as excellent "assigned reading" to stimulate group discussion in teaching workshops and faculty development programs. The first edition of this book evolved by collecting a variety of teaching situations that commonly occur in college and university settings. The authors then created responses to the situations and circulated both the cases and the responses to reviewers from a number of departments across the country. As a result, the vast majority of the cases are "discipline free." The second edition features many new cases to reflect recent trends and events related to academic ethics. Questions were added to stimulate discussion and to further elaborate the issues. The Ethics of Teaching: A Casebook is ideal for college and university faculty, graduate assistants, and administrators involved in workshops, graduate teaching assistant courses, and faculty development and new faculty orientation programs. As a result of the book's cross-disciplinary development, it will be beneficial to faculty from a broad spectrum of disciplines.
