Joe Gagnon, one of our countries leading experts on appliance maintenance, has been in the appliance service industry for more than 30 years. For the last several years, Gagnon has been dispensing free advice on home appliances as a talk show host on WJR-AM. Well known as a consumer gladiator, he shares hundreds of tips that will make you a safer, smarter and more aware consumer, as well as save you hundreds of dollars and hundreds of hours each year on home and appliance maintenance. Technical instructor and HVAC expert Jerry Clemons completely covers both air-conditioning as well as heating systems, so you can save money repairing your own vehicle. Covered is a history of HVAC systems, airflow throughout the system, the principles of refrigerant, diagnosis of common faults in older systems, testing procedures, and finally repair and, in the case of air conditioning, recharging your system. Also included is proper evacuation and disposal of any residual refrigerant in the system. Components such as compressors, condensers, evaporators and heater cores, pressure switches and climate control electrics and switches are also covered. Finally, for people with older cars, converting from the no-longer-available R-12 to R134a is detailed. Automotive climate controls are a complex system and are difficult to repair without proper instruction. Whether you are trying to get your old classic back to its original form or are just looking to save on expensive repairs, author Jerry Clemons and this book provide the knowledge you will need to get your car back on the road and cruising in
