Political progress ... not political posturing. Instead of the constant jockeying for political advantage, in What Works, author and columnist Cal Thomas focuses on what promotes the general welfare, regardless of which party or ideology gets the credit. Thomas probes and provides answers to questions like, Why must we constantly fight the same battles over and over? Why don't we consult the past and use common sense in order to see that what others discovered long ago still works today? And why does present-day Washington too often look like the film Groundhog Day, with our elected officials waking up each day only to repeat identical talking points from previous days, months, and years? Without letting politics, or ignorance, get in the way, Thomas urges readers to pay attention so that politicians can no longer pick their pockets—literally or intellectually. What Works is about solutions, not theories. It's about pressuring political leadership to forget about the next election and start focusing on the needs of the people who work hard to provide for themselves, send their tax dollars to Washington, and want to see the country achieve something of

The real point at issue in that controversy was not whether a Governor-General has the power to dismiss a Prime Minister. The fact that the power was exercised is proof that the power exists. The question to be asked is whether the Govenor-General was justified by the facts as he saw and

interpreted them, and, if he were justified, whether he was wise to use the power. There is a difference between an extreme situation and a customary action. The controversy over the dismissal of a Prime Minister concentrated attention on one aspect, but in this lucid essay Sir Paul Hasluck sets out the wide range of the Governor-General's duties and the place of office in the whole structure of Australian government.
