Published by the strangely obscure Sunrae Products Company in the tiny town of Ogema, Wisconsin, it was marketed via a series of small classified ads in popular do-it-yourself magazines, and gave traditional rootworkers an introduction to the convenience of mail- order supplies.The anonymous author took the secret of his or her identity to the grave, but the data supplied here about down-home treatments with herbs, roots, seeds, and flowers

forms the foundation of modern herbal medicine. Now, on the 70th anniversary of its original publication, the Lucky Mojo Curio Company is proud to present a restored and revised edition of this essential text, newly edited by Catherine Yronwode and illustrated with the classic botanical art of F. Schuyler Mathews. Filled with historically valuable medical lore, this beautiful book belongs in every conjure worker's library. The Hoodoo Rootwork Correspondence Course is a teaching companion to "Hoodoo in Theory and Practice" and "Hoodoo Herb and Root Magic" by Catherine Yronwode, providing a private 52-week tutorial for those who want to learn how to become conjure doctors. Both theoretical and practical matters are covered in the lessons, including herbal information, magic spells, traditional techniques, historical background, how root doctors work for clients, what candle shop owners do, and other inside information not generally available to the public. This book is to help those who have heard of Hoodoo & Rootwork but have no idea where to start, and would like to begin practicing. After the information in this book is learned, the reader will have a firm understanding of the basic elements of Hoodoo to being practicing on their own. This is the first book of its kind, presenting accurate botanical information about roots and herbs employed in conjure, with sample spells that will show you how to make and use your own mojo bags, spiritual baths, and incenses. 500 herbs, roots, minerals, and rare zoological curios, 750 traditional spells, tricks, and magical recipes, 50 black and white illustrations "Chireau has written a marvelous text on an important dimension of African American religious culture. Expanding beyond the usual focus of scholarship on Christianity, she describes and analyzes the world of magical-medical-religious practice, challenging hallowed distinctions among "religion" and "magic." Anyone interested in African American religion will need to reckon seriously with Chireau's text on conjure."—Albert J. Raboteau, Princeton University "Deprived of their own traditions and defined as chattel, enslaved Africans formed a new orientation in America. Conjuring—operating alongside of and within both the remnants of African culture and the acquired traditions of North America—served as a theoretical and practical mode of deciphering and divining within this, enabling them to create an alternate meaning of life in the New World. Chireau's is the first full-scale treatment of this important dimension of African American culture and religion. A wonderful book!"—Charles H. Long, Professor of History of Religions University of California, Santa Barbara and author of Significations: Signs, Symbols and Images in the Interpretation of Religion In this book, Katrina Hazzard-Donald explores African Americans' experience and practice of the herbal, healing folk belief tradition known as Hoodoo. Working against conventional scholarship, Hazzard-Donald argues that Hoodoo emerged first in three distinct regions she calls "regional Hoodoo clusters" and that after the turn of the nineteenth century, Hoodoo took on a national rather than regional profile. The first interdisciplinary examination to incorporate a full glossary of Hoodoo culture, *Mojo Workin': The Old African American Hoodoo System* lays out the movement of Hoodoo against a series of watershed changes in the American cultural landscape. Throughout, Hazzard-Donald distinguishes between "Old tradition Black Belt Hoodoo" and commercially marketed forms that have been controlled, modified, and often fabricated by outsiders; this study focuses on the hidden system operating almost exclusively among African Americans in the Black spiritual underground. Why do plants need roots? Learners will see how roots take in water, anchor plants to the ground, and even become foods to eat. Do you work magic with herbs? Do you use them in spells, for talismans or simply use their innate powers? If you don't have Cunningham's *Encyclopedia of Magical Herbs*, you need to get it right away. This book has become a classic in its field. Paul Beyerl, a respected author on herbs calls it "...an essential reference book by students of herbalism and magick alike ... Scott's personable charm touches every page... I highly recommend this book." And Jeanne Rose, famous author of books on herbs and developer of an herbal course says "I love books like this ... It is accessible, easy to read, and with its encompassing index (all too often neglected), simple to use as well." Over 200,000 people already have this book and use it frequently. In this edition of the book (it's expanded and revised on the 15th anniversary of original publication) you will find the magical properties and folklore of over 400 herbs! You'll also find lists of herbs based on their magical powers, their genders, their planetary rulers, and more. Perhaps the most important list is the folk name cross-reference. With that information, when a recipe calls for "bramble," you'll know it needs blackberry. Or if the magic calls for "enebro," you'll know you that is juniper. The main part of this book is the listings of the herbs. Each one includes names, associations, and magical attributions. Violets can be used for protection, luck, love, and more. Primrose is for protection and love. Garlic is for protection, healing, exorcism, lust, and prevention of theft. This book is considered a classic. It is probably consulted more than any other book on this subject. If you want to learn the secrets of magical herbs, this book is a must! The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth's practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth's most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, *Into the Magic Shop* shows us how we can fundamentally change our lives by first changing our brains and our hearts. As ervas e raízes que usaram foram amalgamadas com outras crenças para formar a prática que agora conhecemos como Hoodoo. Muitas pessoas pensam que Hoodoo é uma prática religiosa, mas a verdade é exatamente o oposto. Hoodoo não é baseado na adoração de deuses, deusas ou outras divindades formais. Em vez disso, é uma forma de as pessoas praticarem magia popular usando as ferramentas e ingredientes mais básicos. Então, que relevância o Hoodoo tem na sociedade de hoje? Bastante! Os humanos estão começando a entender quais poderes existem na natureza e como usá-los. A progressão natural para rituais de magia e construção de raízes transmitidos na história parece inevitável. Entender por que algumas plantas e ervas podem atrair boa sorte enquanto outras formam um escudo protetor apela à nossa sensação pessoal de bem-estar. Este tipo de magia e conjuração pode ser realizada por qualquer pessoa que queira experimentá-la, desde que respeite o poder e aprenda a se proteger do mal. From 2002 through 2013, the Lucky Mojo Curio Company offered an assortment of informational "shop flyers" to all in-store and mail-order customers, featuring basic information about African American hoodoo drawn from catherine yronwode's book "Hoodoo in Theory and Practice." Meanwhile, from 2008 through 2013, the Missionary Independent Spiritual Church annual Hoodoo Workshops, attendees who came to receive hands-on training in the practice of conjure and other forms of world folk-magic received hand-out flyers describing the spells, recipes, and methods of practice being taught. All of these three-hole-punched information sheets -- the Lucky Mojo Shop Flyers and the Hoodoo Workshop Hand-Outs -- were then collected together into a black school-report cover -- which we called The Black Folder. As the years went on, the content of The Black Folder grew and grew and grew, until there were so many pages that they could no longer easily fit into a single report cover ... and so we put together the complete set of all of the past Missionary Independent Spiritual Church Workshop flyers, plus a complete set of all of the Lucky Mojo shop flyers into a 136 page professionally printed BOOK. The name of the book is "The Black Folder" -- but don't let the name (or the cover) fool you -- it's a regular 8 1/2" x 11" trade paperback book, like nothing else available anywhere. "High stakes, big heart, and lots of Black Girl Magic...unputdownable." —Aiden Thomas, New York Times bestselling author of *Cemetery Boys* A rich, dark urban fantasy debut following a teen witch who is given a horrifying task: sacrificing her first love to save her family's magic. The problem is, she's never been in love—she'll have to find the perfect guy before she can kill him. After years of waiting for her Calling—a trial every witch must pass to come into their powers—the one thing Voya Thomas didn't expect was to fail. When Voya's ancestor gives her an unprecedented second chance to complete her Calling, she agrees—and then is horrified when her task is to kill her first love. And this time, failure means every Thomas witch will be stripped of their magic. Voya is determined to save her family's magic no matter the cost. The problem is, Voya has never been in love, so for her to succeed, she'll first have to find the perfect guy—and fast. Fortunately, a genetic matchmaking program has just hit the market. Her plan is to join the program, fall in love, and complete her task before the deadline. What she doesn't count on is being paired with the infuriating Luc—how can she fall in love with a guy who seemingly wants nothing to do with her? With mounting pressure from her family, Voya is caught between her morality and her duty to her bloodline. If she wants to save their heritage and Luc, she'll have to find something her ancestor wants more than blood. And in witchcraft, blood is everything.
