This little manual grew out of a want felt by the writer in her experience as a teacher,—viz., that of light and interesting sketches of the famous men of art and letters

whose genius has filled the civilized world with their immortal renown. The desire to supply in some measure this want has induced the preparation of this little volume; and Spain has been selected as the field for a first experiment, because no literature is more distinguished than is the elder Spanish for richness of invention, for beauty of style, for purity of moral tone, and for a lofty spirit of national pride and patriotic devotion. "With its projected companions, the Manuals of Italy and Germany, it is intended to awaken in the young reader a taste for literature and art, the gratification of which will be a source of future enjoyment. As the local habitation which has been rendered illustrious by the genius of the great always excites a feeling of interest, the writer has adopted cities rather than centuries as the basis of connection or arrangement for the sketches of the several characters. It is due to the Rev. Robert Turnbull to state that this plan was first suggested by his interesting book, "The Genius of Italy."

Occasionally a ballad or brief poetical extract has been introduced; but generally the simple aim has been to inspire interest, and lead the reader to peruse the charming pages of Ticknor, Roscoe, Sismondi, Hallam, and Schlegel, as well as the original writers in Spanish, Italian, and German literature. To Professor Ticknor the author desires to render the most grateful acknowledgments for the kind permission given to make use of his valuable work on Spanish Literature; a permission of which she has been happy to avail herself in nearly all of the translations from that language which appear in these pages. "Fame," to use the striking language of Sismondi, "does not possess a strong memory. For a long flight, she relieves herself of all unnecessary incumbrances. She rejects, on her departure and in her course, many who thought themselves accepted by her, and she comes down to late ages with the lightest possible burthen." Therefore the names chosen in the manuals are few, and those chiefly

whom we behold "through a succession of ages, like the loftiest summits of the Alps, which, the farther we recede from them, appear to rise higher." The organization of the Student Activities Manual (SAM) parallels that of the student text. Activities corresponding to each Tema in the textbook recycle and reinforce the vocabulary and grammar presented in the textbook. The Diario at the end of the activities for Temas 2 and 4 guides students in writing paragraphs on the topics of the chapter. As in the textbook, the communicative nature of activities has been maintained so that students are required to think about the meaning of what they are writing, and grammatical forms are not practiced without relating them to meaning. The order of the activities follows directly the order of presentation of vocabulary and grammar in the corresponding Tema of the textbook, so that instructors who cover only part of a Tema during a class can easily assign the matching activities from that Tema of the SAM. As in the textbook,

the final Tema of the SAM reviews material from throughout the chapter contextualized in a real-life setting. This SAM volume corresponds to Volume 1 of the Hoy día textbook. "A student-tested, faculty-approved introductory program for learning Spanish"--Cover. Spanish-speaking patients are no rarity in United States hospitals and clinics, as many English-speaking health care providers have discovered. To help these providers better communicate with the patients they serve, Ana Malinow Rajkovic has prepared the Manual for (Relatively) Painless Medical Spanish, a lively and innovative self-teaching guide to the grammar, pronunciation, and medical vocabulary of Spanish. Presented in a systematic and highly entertaining fashion, twelve lessons cover some of the most commonly encountered situations. These include the family clinic, the emergency room, appendicitis, the social chat, pregnancy, family planning, pelvic inflammatory disease and urinary tract infection,

depression, children with asthma, patients with angina, explaining a venipuncture and a spinal tap, and patients with shortness of breath. Each lesson closes with a bilingual interview that includes vocabulary and grammar introduced in that lesson. A guide to the medical history and

physical examination appears in English and Spanish in the appendix. Excellent in the classroom or for independent learning, the Manual will enable health care providers better to understand and supply the needs of Spanish-speaking patients.
