Continuing to travel the world giving workshops and inspiration to teachers, prisoners, actors and care-workers, Augusto Boal is a visionary as well as a product of his times - the Brazil of military dictatorship and artistic and social repression and was once imprisoned for his subversive activities. From his early days in Brazil's political theatre movement to his recent experiments with theatre as a democratic political process, Boal's story is a moving and memorable one. He has devised a unique way of using the stage to empower the disempowered, and taken his methods everywhere from the favelas of Rio to the rehearsal studios of the Royal Shakespeare Company. Rahul Sooknandan is a pen name. The story of Mudgar and all the characters are largely true. Names have been changed to protect Mudgar from further retribution. Mudgar is a descendant of Phoolmatie and Chandanand, two indentured labourers who crossed the Kala Pani to forge a new life in Trinidad. Mudgar lived on the precipice of both excess and success. His life became a journey towards greater opportunities as he worked his way through an education at New York University and Cambridge toward great professional success as a sought-after business consultant and university professor. And then, in a single year, several acts of violence shattered his home, his family and indeed, his life. Unable to work or even maintain his concentration, his downward spiral culminated in losing everything through a series of frauds committed against him. Only at the end did he truly know what he had loved and lost. In his own words, "I have never done things in halves. I have loved and failed severally. Hated and loved in equal measure. Sex and alcohol were choices; I accept all consequences and blame none for my troubles." Born in Tijuana to a Mexican father and an Anglo mother, Urrea moved to San Diego at age three. In this memoir of his childhood, Urrea describes his experiences growing up in the barrio and his search for cultural identity. It's 2008. Jim Axelrod—once among the most watched correspondents on network news and the first television reporter to broadcast from Saddam International Airport in 2003—is covering the final stages of the race for the Democratic presidential nomination. He's forty-five

years old and thirty pounds overweight. He's drinking too much, sleeping too little, and scarcely seeing his family. He's just figured out that the industry that pulled him up the corporate ladder is imploding as he's reaching for its final rungs. Then, out of the blue, Jim discovers his late father's decades-old New York Marathon finish times. At forty-six, Bob Axelrod ran a 3:29:58. With everything else going on in his life, Jim sets himself a defining challenge: "Can I beat him?" So begins a deeply felt, often hilarious, quixotic effort to run the 2009 New York Marathon. Along the way, Jim confronts his listing marriage, a career upset by the seismic changes going on throughout the television news industry, excruciatingly painful shin splints, and the worst-timed kidney stone possible. Looming over it all is the shadow of a loving father, who repeatedly lost his way in life but still has a lesson to impart. This is a book about a dead father's challenge to a son at a crossroads, but, more than that, it is about the personal costs paid when ambition and talent are not enough to ensure success. Most fundamentally, though, it is a book about learning what it takes to be happy in your own skin. Morgan Family Medics Book 1: Secret Son to Change His Life Book 2: How to Rescue the Heart Doctor* "The preparation of my Father's biography has been undertaken as a sacred trust. Early in the spring of 1894 he was asked by an old friend for permission to issue a biography with his approval. This my Father declined to do, and, on that occasion, expressed the wish that I should assume the task when his life-work was ended. In reply to my objection that such an undertaking demanded a literary experience that I did not possess, he said: 'I don't care anything about that. What I want is that you should correct inaccuracies and misstatements that it would be difficult to straighten out during my life. You are the one to do this. All my friends will unite on you and give you their assistance. There are many who think they know me better than any one else, and would feel themselves best able to interpret my life. IF you do not do this work there will be many inaccurate and conflicting 'Lives.'" —From the Introduction Shares a glimpse of the unspeakable pain, helplessness, frustration, and eventual healing that the author and his wife experienced since losing their son, offering comfort and connection to those walking similar paths. To the reader, I say: Woman behold thy son, and son behold thy mother. Abraham Lincoln grew up in the long shadow of the Founding Fathers. Seeking an intellectual and emotional replacement for his own taciturn father, Lincoln turned to the great men of the founding—Washington, Paine, Jefferson—and their great documents—the Declaration of Independence, the Constitution—for knowledge, guidance, inspiration, and purpose. Out of the power vacuum created by their passing, Lincoln emerged from among his peers as the true inheritor of the Founders' mantle, bringing their vision to bear on the Civil War and the question of slavery. In *Founders' Son*, celebrated historian Richard Brookhiser presents a compelling new biography of Abraham Lincoln that highlights his lifelong struggle to carry on the work of the Founding Fathers. Following Lincoln from his humble origins in Kentucky to his assassination in Washington, D.C., Brookhiser shows us every side of the man: laborer, lawyer, congressman, president; storyteller, wit, lover of ribald jokes; depressive, poet, friend, visionary. And he shows that despite his many roles and his varied life, Lincoln returned time and time again to the Founders. They were rhetorical and political touchstones, the basis of his interest in politics, and the lodestars

guiding him as he navigated first Illinois politics and then the national scene. But their legacy with not sufficient. As the Civil War lengthened and the casualties mounted Lincoln wrestled with one more paternal figure—God the Father—to explain to himself, and to the nation, why ending slavery had come at such a terrible price. Bridging the rich and tumultuous period from the founding of the United States to the Civil War, Founders' Son is unlike any Lincoln biography to date. Penetrating in its insight, elegant in its prose, and gripping in its vivid recreation of Lincoln's roving mind at work, this book allows us to think anew about the first hundred years of American history, and shows how we can, like Lincoln, apply the legacy of the Founding Fathers to our times. Every son is unique, but parentsa hopes for their sons are universal. The writings in this collection have been specially chosen for their emotional depth, timeless insight, and positive outlook. With a bold, dynamic illustration style, this book will appeal to sons of all ages.

A For the past forty years, doctors at the University of Virginia Medical Center have conducted research into young children's reports of past-life memories. Dr. Ian Stevenson, the founder of this work, has always written for a scientific audience. Now, in this provocative and fascinating book, Dr. Jim B. Tucker, a child psychiatrist who currently directs the research, shares these studies with the general public. *Life Before Life* is a landmark work—one that has the potential to challenge and ultimately change our understandings about life and death. Children who report past-life memories typically begin talking spontaneously about a previous life when they are two to three years old. Some talk about the life of a deceased family member, while others describe the life of a stranger. They may recount details about previous family members, events in the previous life, or the way they died in that life. The children tend to show a strong emotional involvement with the apparent memories and often cry to be taken to the previous family. In many cases, parents have taken their children to the places they named, where they found that an individual had died whose life matched the details given by the child. During the visits, some children have recognized family members or friends from that individual's life. Many children have had birthmarks that matched wounds on the body of the deceased individual. Researchers have studied more than 2500 such cases, and their careful investigations have produced an impressive body of work. *JAMA*, the *Journal of the American Medical Association*, stated in a review of one of Dr. Stevenson's scientific books that, "in regard to reincarnation he has painstakingly and unemotionally collected a detailed series of cases . . . in which the evidence is difficult to explain on any other grounds." *Life Before Life* explores the various features of this world-wide phenomenon, describing numerous cases along the way. We meet a boy in Michigan who, after being born with three birthmarks that matched wounds on his deceased brother, begins talking about events from the brother's life; a boy in Turkey who gives a number of accurate details, including the name, of a man who lived 500 miles away and died fifty years before the boy was born; and a girl in Sri Lanka who is able to recognize the family members of a deceased stranger as they are presented to her one by one, giving specifics about their lives that she could not have known from their appearance. Dr. Tucker presents this material in a straightforward way, relating extraordinary stories that have been amassed with a scientific approach. He then considers how best to interpret the evidence, and he lets readers reach their own conclusions—which, for many, will be profound. "[Doyle] imparts a sense of poignancy and glimpses of happiness, of grief and loss and small moments of connection . . . you're left feeling close to dazzled." —Daphne Merkin, *New York Times Book Review*

A brilliantly warm and witty portrait of our pandemic lives, told in ten heartrending short stories, from the Booker Prize-winning author of *Paddy Clarke Ha Ha Ha Love and marriage. Children and family. Death and grief. Life touches everyone the same. But living under lockdown, it changes us alone. In these ten beautifully moving short stories written mostly over the last year, Booker Prize winner Roddy Doyle paints a collective portrait of our strange times. A man abroad wanders the stag-and-hen-strewn streets of Newcastle, as news of the virus at home asks him to question his next move. An exhausted nurse struggles to let go, having lost a much-loved patient in isolation. A middle-aged son, barred from his mother's funeral, wakes to an oncoming hangover of regret. Told with Doyle's signature warmth, wit, and extraordinary eye for the richness that underpins the quiet of our lives, *Life Without Children* cuts to the heart of how we are all navigating loss, loneliness, and the shifting of history underneath our feet. Presents an inspirational compilation of hundreds of practical tips and wisdom on the joys and responsibilities of fatherhood, the relationship between fathers and sons, teaching values and responsibility, and more. Original. Warm and fuzzy, anchored in values, and filled with simple words of wisdom, this beloved, bestselling book for parents speaks to the important business of raising sons, and distills their timeless lessons into one nugget of wisdom per page—some lighthearted, some serious, some practical, and some intangible, and all supported by a strong moral backbone. Freshly updated, the book begins with the Five Keys of Parenting, a guide to navigating the extraordinary, even if sometimes exasperating, journey of parenthood. It's filled with the importance of nurturing responsibility: Teach him that the world will judge him by his actions, not his intentions. Fun stuff: Have tea with him in the afternoons. Serve cookies. And when he's ready to go: Hug him fiercely. A mother's heart should never have to grieve over the death of her child. Yet it happens all the time. I have gone through the traumatic experience of the illness and death of my adult son, but God gives me strength and comfort to continue with my life, taking it one day at a time. As I grieve for my son, time has healed the intensity of my pain. I rejoice because of the promises of God; that he goes with me into each new day. God's hand remains upon my family to this day. My family is in the exact place that God wants us to be, and tomorrow God will still be with us. The God of life has given me strength to walk through the darkest days and fills my future with hope. He can do it for you too. "Roy Choi sits at the crossroads of just about every important issue involving food in the twenty-first century. As he goes, many will follow." —Anthony Bourdain*

From the maverick chef the *New Yorker* called "The David Chang of L.A." and founder of the wildly popular Kogi taco trucks, comes a cookbook that's as inventive, creative, and border-crossing as the city to which it pays homage: Los Angeles. Los Angeles: A patchwork megalopolis defined by its unlikely cultural collisions; the city that raised and shaped Roy Choi, the boundary-breaking chef who decided to leave behind fine dining to feed the city he loved—and, with the creation of the Korean taco, reinvented street food along the way. Abounding with both the food and the stories that gave rise to Choi's inspired cooking, *L.A. Son* takes us through the neighborhoods and streets most tourists never see, from the hidden casinos where gamblers slurp fragrant bowls of pho to Downtown's Jewelry District, where a ten-year-old Choi wolfed down Jewish deli classics between diamond deliveries; from the kitchen of his parents' Korean restaurant and his mother's pungent kimchi to the boulevards of East L.A. and the best taquerias in the country, to, at last, the curbside view from one of his emblematic Kogi taco trucks, where people from all walks of life line up for a revolutionary meal. Filled with over 85 inspired recipes that meld the overlapping traditions and flavors of L.A.—including Korean fried chicken, tempura potato pancakes, homemade chorizo, and Kimchi and Pork Belly Stuffed Pupusas—L.A. Son embodies the sense of invention, resourcefulness, and hybrid attitude of the city from which it takes its name, as it tells the transporting, unlikely story of how a Korean American kid went from lowriding in the streets of L.A. to becoming an acclaimed chef. A father's moving memoir of cystic fibrosis "captures a brave child's legacy as well as the continuing fight against the genetic disease" (*The New York Times*). In 1971 a girl named Alex was born with cystic fibrosis, a degenerative genetic lung disease. Although health-care innovations have improved the life span of CF patients tremendously over the last four decades, the illness remains fatal. Given only two years to live by her doctors, the imaginative, excitable, and curious little girl battled through painful and frustrating physical-therapy sessions twice daily, as well as regular hospitalizations, bringing joy to the lives of everyone she touched. Despite her setbacks, brave Alex was determined to live life like a typical girl—going to school, playing with her friends, traveling with her family. Ultimately, however, she succumbed to the disease in 1980 at the age of eight. Award-winning author Frank Deford, celebrated primarily as a sportswriter, was also a budding novelist and biographer at the time of his daughter's birth. Deford kept a journal of Alex's courageous stand against the disease, documenting his family's struggle to cope with and celebrate the daily fight she faced. This book is the result of that journal. Alex relives the events of those eight years: moments as heartwarming as when Alex recorded herself saying "I love you" so her brother could listen to her whenever he wanted, and as heartrending as the young girl's tragic, dawning realization of her own very tenuous mortality, and her

parents' difficulty in trying to explain why. Though Alex is a sad story, it is also one of hope; her greatest wish was that someday a cure would be found. Deford has written a phenomenal memoir about an extraordinary little girl. An autobiography of the life, challenges, and law enforcement career of Bernard B. Kerik, who was New York City's Police Commissioner when terrorists attacked the World Trade Center on September 11, 2001. A young woman holds her newborn son And looks at him lovingly. Softly she sings to him: "I'll love you forever I'll like you for always As long as I'm living My baby you'll be." So begins the story that has touched the hearts of millions worldwide. Since publication in 1986, *Love You Forever* has sold more than 15 million copies in paperback and the regular hardcover edition (as well as hundreds of thousands of copies in Spanish and French). Firefly Books is proud to offer this sentimental favorite in a variety of editions and sizes: We offer a trade paper and laminated hardcover edition in a 8" x 8" size. In gift editions we carry: a slipcased edition (8 1/2" x 8 1/4"), with a laminated box and a cloth binding on the book and a 10" x 10" laminated hardcover with jacket. And a Big Book Edition, 16" x 16" with a trade paper binding. First published in 1945, this biography won the Pulitzer Prize in 1946. Its author worked for twenty-two years on John Muir, including as secretary of the John Muir Association and as editor of Muir's unpublished papers. She interviewed many family members and people who knew and worked with John Muir to produce this account of Muir's life. She recounts Muir's Scottish origins, his early years in the harsh Wisconsin wilderness, his remarkable mechanical aptitude and interest in botany and geology at the University of Wisconsin in Madison where he spent two and a half years before traveling to the Canadian wilderness, and then to California where he spent most of his life. "[A] well-balanced, informative and rewarding biography." — Kirkus Reviews "Into this biography of John Muir, Mrs. Wolfe has packed an amazing amount of factual information which she has illuminated with a sober critical judgment that gives us a convincing portrait of the whole man." — Francis P. Farquhar, *Pacific Historical Review* "Linnie Marsh Wolfe almost singlehandedly restored John Muir to the respectability and stature he always deserved... [Son of the Wilderness] should be on the reference shelves of anyone seriously interested in American environmental history." — John Opie, *Environmental History Review* "[A]n interesting personal biography... [Wolfe] creates Muir as a living personality — mystical but athletic, enthusiastic about nature but socially abrupt — a sort of middle-aged Thoreau." — Alexander Kern, *Journal of American History* "By immersing herself in Muir's life, for example, by soaking in his correspondence and journals, [Wolfe] was able to craft what amounts to a first-person narrative, the autobiography he never wrote for himself." — Char Miller, *John Muir Newsletter*

Ben Bradlee's all-American football player father lost his well-paying job in the Depression and never recovered his income but also never lost his balance and energy. Living on a borrowed estate, he undertook to clear the property, and his young son bonded with his father as they worked alongside each other in the woods. When thirteen-year-old Ben contracted polio, his father nursed him back to health until they could go to work again. Ben Bradlee tells the story of how this lifelong love of working outdoors enabled him to forge an intimate connection with his own son, Quinn, who was born with a heart defect and is learning disabled. Quinn Bradlee writes about how his father gave him courage and confidence, about what it is like not just to be the son of the Ben Bradlee but his father's best pal. He tells wistfully how their roles have reversed and how he has become his father's protector. Sally Quinn, wife and mother, offers her observation on fathers and sons in this joyous celebration of a special relationship. Brian Wheat is far from your typical rock star. As bassist for the multi-platinum band, Tesla, he's enjoyed the spoils of success and lived the sex, drugs, and rock 'n' roll lifestyle to the hilt. But it came at a cost, one that took years to repair. In this deeply honest and utterly revealing memoir, Wheat sheds light on the many challenges he faces, including bulimia, weight issues, and the crippling anxiety and depression caused by his conditions. Just like the songs his legendary band made, this is no-nonsense, blue-collar storytelling at its best. While revealing the vulnerable human behind the bass guitar, this autobiography also offers tremendous stories of life on the road, and collaborations and encounters with legendary figures like his pals in Def Leppard, David Lee Roth, Alice Cooper, and Paul McCartney. Son of a Milkman will entertain, surprise, and inspire longtime fans of this enduring band. #1 New York Times Bestseller

Meet Audrey Hepburn as you've never seen her before in *Little Audrey's Daydream: The Life of Audrey Hepburn*, an empowering children's book by her son and daughter-in-law, Sean and Karin Hepburn Ferrer. *Little Audrey's Daydream* tells the story of Audrey Hepburn's life from her own perspective as a child growing up in Belgium and Holland, and into her adult life as an actress, mother, and humanitarian. • A beautiful, personal introduction to the life of Audrey Hepburn: Audrey's extraordinary story unfolds during her childhood in Holland, where her happy life of ice-skating and dancing changes with the harsh realities of World War II. As she daydreams about who she will become when the war ends, her real-life story of fame, family, and charity work unfolds. • A beacon of hope for children during difficult times: Facing dire circumstances during Occupation, Audrey and her family often don't have enough to eat. Despite the challenges, Audrey never loses hope that, with spirit and determination, her dreams can still come true. • All author proceeds will be donated to EURORDIS: Following in the footsteps of his mother's incredible humanitarian legacy, Sean Hepburn Ferrer and his wife Karen are donating all of their author proceeds from the book to EURORDIS, the Voice of Rare Disease Patients in Europe. • Whimsical illustration by celebrated French couple: *Little Audrey's Daydream* is beautifully illustrated by the legendary Dominique Corbasson and Francois Avril. This book is Corbasson's last work. *Little Audrey's Daydream* is an essential addition to the library of all Audrey Hepburn fans and a beautiful introduction to the life of Audrey Hepburn for children.
