If you're fishing with a rod and reel, it is very important to know how to bait your hook and when to set it, to know when to fish and how to use limb lines, and to know the size of hook to use and the depth to fish. I discuss all of these things in this book, and if you follow my instructions, you will be successful. Good fishing.

Fishing Southern Illinois Apr 15 2022 "Now, let's find out where those fish are and how to catch a few," says Art Reid in his Preface. *Flatheads and Spoonies* Sep 08 2021 Since the early 1800s, people have made a living fishing and harvesting mussels in the lower Ohio Valley. These river folk are conscious of an occupational and social identity separate from those who earn their living from the land. Sustained by a shared love of the river, deriving joy from the beauty of their chosen environment, and feeling great pride in their ability to subsist on its wild resources and to master the skills required to make a living from it, many still identify with the nomadic houseboat-dwelling subculture that flourished on the river from the early nineteenth century to the 1950s. Today's community of fisherfolk is small and economically marginal, but their activities sustain a complex set of traditional skills and a body of verbal folklore associated with river life. In *Flatheads and Spoonies*, Jens Lund describes the activities, boats, gear, verbal lore, and sense of identity of the fisher folk of the lower Ohio River Valley and provides historical and ethnobiological background for their way of life. Lund connects the importance of river fish in the diet of inhabitants of the valley to local fishing activities and explores the relationship between river people and those whose culture is primarily land-based, painting a colorful portrait of river fishing and river life. This book offers a look -- historical and ethnographic -- at a little-known aspect of traditional life in the American Midwest, still surviving today despite immense changes in environment, resources, and economic base.

*Catfishing in the South* Jun 17 2022 Serious sport catfishing has

gained tremendous popularity in recent years, but a dearth of serious catfishing information inhibits the complete angler. Jeff Samsel of Clarkesville, Georgia, fills the gap with *Catfishing in the South*, a comprehensive guide to finding and catching catfish in the southeastern United States. No other catfishing book focuses on southern rivers and reservoirs, where this type of fishing is most popular. Beyond looking at species, habitats, gear, baits, and strategies from the perspective of the southern catfisher, *Catfishing in the South* includes detailed looks at several of the South's premier destinations for trophy catfish. Samsel also presents information on catching smaller cats and on fishing from banks. Relying on his own experience and on the expertise of individual veteran catfishers, some of whose faces show up in the twenty-nine photographs that illustrate the book, Samsel provides readers with all the tools they need for finding and catching all kinds of catfish from southern waters.

The Author: Jeff Samsel is a freelance magazine writer, photographer, and editor. He is author of *Georgia: A Guide to Backcountry Travel and Adventure*. He contributed to *Catfishing Strategies* and has published articles and photographs in more than one hundred publications, including *Bassmaster*, *Catfish Guide*, *North American Fisherman* and *Southern Sporting Journal*.
