For any Engineer or Computer Scientist interested in a brief introduction to the subject. Jimmy was only nine years old when he was molested and sexually assaulted in London's dingy East End. He struggled to keep his dark secret, while coping with being adopted and his illiterate father's violent outbursts. Desperately needing to be loved, Jimmy accepts an offer of 'conditional kindness' from Tom, his scoutmaster. Now, after a lifetime of secrets, his story can be told as Tom is now dead, so.... "They Can't Touch Him Now" This rarely-seen map of the Moon originates from a 300-inch hand-drawn map produced by the engineer and amateur astronomer Hugh Percival Wilkins (1896-1960). Combining artistry with scientific precision, Wilkins's detailed map reveals the rugged terrain of our celestial neighbour. First published in 1946 as a 100-inch reproduction, Wilkins continued to revise and expand his observations and produced this third edition in 1951. Comprised of 25 sheets, it was subsequently used by amateur and professional astronomers, and was even purchased by NASA. Acquired by the Museum in 2006, Wilkins's Map of the Moon is reproduced faithfully in this volume over 90 pages, making this beautiful record of astronomical history available for all. Peter Hunn. It's common for homeowners to have 2- or 4-cycle small engines in their lawn and garden equipment, utility vehicles, recreational vehicles, generators and other machines. With this easy-to-follow, richly illustrated handbook, homeowners will be able to understanding small engines, troubleshooting them and working on them. The book has a brief history of significant and popular small engines and a guide to setting up a home workshop in which to work on them. It also includes case studies on the disassembly, maintenance, repair and/or rebuilding of: a 2-stroke lawnmower engine, a 4-stroke utility motor, a 2-stroke chainsaw engine, and a curbside junker. The writing is lively and entertaining and the color photos clearly show how to work on these useful engines. This detailed coloring book features 36 hand-created sketches of all the most popular collectible and modern farm tractors. These beautiful pieces of art offer the coloring enthusiast young and old an opportunity to use colored pencils, ink pens, or crayons to relax and get creative with their favorite farm tractors. Includes machines from John Deere, International Harvester, Farmall, Ford, Allis-Chalmers, Case IH, and more. Many of the drawings are based on the well-known photography of Lee Klancher (Red Tractors 1958-2017, Farmall Calendar). The book also includes a few fantastic tractor concept drawings by legendary industrial designer Gregg Montgomery. The Republic of Texas began the fight for independence in 1833. For several years, Texans fought the Mexican government for the right to rule itself. One of the historical battles was fought on March 6, 1836, at the Alamo, a crumbling fort defended by 154 men. Stand with the defenders in what became a symbol of Texan courage and sacrifice in this impressive graphic novel. Maps, timelines, glossaries, and indexes make these titles an exciting addition to classroom discussion. This girls slime design is a perfect slime birthday gift for a girl who loves making slime. Dillon hadn't been called by anyone. He'd called himself and he wasn't ashamed of it. But no good can come from . . . Two years ago, to everyone's surprise, Dillon Whitfield Black, the secret son of Reverend Curtis Black, boldly moved back home, married a woman named Raven, decided he was going to become a minister, and then founded a church right in the center of his living room. Today he's pastor of a 1,000-plus-member congregation, and new members are joining weekly. Sadly, behind closed doors, Dillon is far from being a saint. Dillon has become more like the man his father was thirty years ago—consumed with money, power, and lots of women. His family may have let bygones be bygones, but they continue to keep their distance. Not Alicia, though. This daughter of Curtis Black joins Dillon's congregation, leaving her father's church behind. The family has forgiven Alicia for marrying Levi Cunningham, the former drug dealer she had an affair with, but once Alicia realizes they will never fully accept Levi, she decides to see her family less and less. She and Levi are truly happy, however, guilt from her betrayal of Phillip and its aftermath casts a shadow over their wedded bliss. But when Raven decides she wants a higher position in the church and Alicia hides a devastating secret, the entire family is affected in ways they don't see coming. In the end, no one will be able to trust anyone . . . and for very good reason. The gap between the rich and the poor has grown dramatically in the United States and is now at its widest since at least the early 1900s. While by most measures the economy has been improving, soaring cost of living and stagnant wages have done little to assuage economic anxieties. Conditions like these seem designed to produce a generation-defining intervention to balance the economic scales and enhance opportunities for those at the middle and bottom of the country's economic ladder—but we have seen nothing of the sort. Nathan J. Kelly argues that a key reason for this is that rising concentrations of wealth create a politics that makes reducing economic inequality more difficult. Kelly convincingly shows that, when a small fraction of the people control most of the economic resources, they also hold a disproportionate amount of political power, hurtling us toward a self-perpetuating plutocracy, or an "inequality trap." Among other things, the rich support a broad political campaign that convinces voters that policies to reduce inequality are unwise and not in the average voter's interest, regardless of the real economic impact. They also take advantage of interest groups they generously support to influence Congress and the president, as well as state governments, in ways that stop or slow down reform. One of the key implications of this book is that social policies designed to combat inequality should work hand-in-hand with political reforms that enhance democratic governance and efforts to fight racism, and a coordinated effort on all of these fronts will be needed to reverse the decades-long trend. Nothing runs or reads like a John Deere Lift-a-Flap farm book Introduce your little one to all the friendly animals on the farm with this adorable and sturdy board book filled with lively rural scenes and tractors designed to educate and entertain your little John Deere enthusiast. Today, businesses must allow interaction with their customers, partners, and employees at more touch points and at a depth never thought previously. At the same time, rapid advances in information technologies, like business digitization, cloud computing, and Web 2.0, demand fundamental changes in the enterprises' management practices. These changes have a drastic effect not only on IT and business, but also on policies, processes, and people. Many companies therefore embark on enterprise-wide transformation initiatives. The role of Enterprise

Architecture (EA) is to architect and supervise this transformational journey. Unfortunately, today's EA is often a ponderous and detached exercise, with most of the EA initiatives failing to create visible impact. The enterprises need an EA that is agile and responsive to business dynamics. Collaborative Enterprise Architecture provides the innovative solutions today's enterprises require, informed by real-world experiences and experts' insights. This book, in its first part, provides a systematic compendium of the current best practices in EA, analyzes current ways of doing EA, and identifies its constraints and shortcomings. In the second part, it leaves the beaten tracks of EA by introducing Lean, Agile, and Enterprise 2.0 concepts to the traditional EA methods. This blended approach to EA focuses on practical aspects, with recommendations derived from real-world experiences. A truly thought provoking and pragmatic guide to manage EA, Collaborative Enterprise Architecture effectively merges the long-term oriented top-down approach with pragmatic bottom-up thinking, and that way offers real solutions to businesses undergoing enterprise-wide change. Covers the latest emerging technologies affecting business practice, including digitization, cloud computing, agile software development, and Web 2.0 Focuses on the practical implementation of EAM rather than theory, with recommendations based on real-world case studies Addresses changing business demands and practices, including Enterprise 2.0, open source, global sourcing, and more Takes an innovative approach to EAM, merging standard top-down and pragmatic, bottom-up strategies, offering real solutions to businesses undergoing enterprise-wide changes This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. The new novel in Kimberla Lawson Roby's beloved New York Times bestselling Curtis Black series. "Roby's latest sizzles with scandal. A deliciously decadent beach read of temptation and the wages of sin." - Kirkus Reviews Raven Black is bouncing back after her very public divorce from Dillon. He's done everything he can to discredit her, but she's learned from her mistakes and him. In fact, she's become her ex-husband in more ways than one and is slowly but surely leading those connected to her down a terrible path of destruction. Playing with the lives of innocent people has dire consequences, the kind that Raven won't see coming. Compact Utility Tractors, or CUTs, are cute little cutters! As farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more. They have become a necessary utility for farmers, orchards, small construction jobs, and landscaping/maintenance for estates, parks and golf courses. At the forefront of this evolution was the Farmall Cub and John Deere Model L. Then came the Japanese invasion; a new kind of tractor by companies such as Yanmar and Kubota. These four-wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments. American companies like John Deere, International Harvester, and Massey Ferguson built their own their own four-wheel versions. Today's compact tractors, such as the Kubota BX series, Massey Ferguson's GC series, and the John Deere 3000, offer an even larger selection of implements for special purposes. As the European Union (EU) launches its common currency (the Euro), Central European (CE) nations are searching for best practices in public liability management in order to smooth their integration into the EU. This work addresses that concern, examining borrowing policies, institution building, portfolio optimization, and the implications of the Euro and EU accession for public debt management. To help the CE countries achieve their goals, the World Bank and the European Commission held a two-day seminar in Brussels in mid-December 1997. European Union Accession presents the papers delivered at that seminar which was attended by all ten EU applicant

countries: Bulgaria, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, the Slovak Republic, and Slovenia. The workshop pursued the following goals: 1. to investigate the implications of the launch of the Euro and of the EU accession on fiscal prudence and on the borrowing strategies of CE countries; 2. to facilitate the dissemination of the best public liabilities management techniques developed worldwide; and 3. to explore plausible arrangements to promote prudent public liabilities management in Central Europe through a regional expertise network. "Strike - you're out!" "He's safe!" "Homerun!" Every October, millions of baseball fans around the country anxiously wait to see which team wins baseball's biggest championship. But the original games of the 1900s hardly look like they do today. Take a look back over one hundred years and discover the history of baseball's greatest series. With triumphs, heartbreak, and superstitious curses, this action-packed book brings America's Pastime to life. Age 2-6 Boys & Girls. This illustrated children's book is for all the little boys and girls that love lawn mowers. You'll encounter a riding mower, a push mower, an old-fashioned reel mower, and the most modern and colorful mower out there. In this delightful spin on a beloved classic, a little ball gets stuck in the tall grass. After asking several lawn mowers to help the ball, a green electric mower agrees to help. Even though he is small and not the toughest model, the kind mower tries his best to cut his way through the thick grass to get to the little ball. Bits of facts about each type of lawn mower have been beautifully woven into the story, providing little gardening-tool enthusiasts with a story that lets their love for mowers come to life. Although Ertl, also like Tonka, has produced countless toy trucks, this book will focus solely on the Iowa toymaker's true bread and butter: toy tractors produced from 1945 to present. Two hundred color photos depict Ertl's 1/16- and 1/64-scale tractors, up close with theater-gel backgrounds, diecast implements, and the sort of plastic injection-molded farmers and livestock with which Ertl has often packaged its tractors. Accompanying the is the story of how this Dyersville-based company grew by leaps and bounds, including founder Fred Ertls' first licensing of some of these companies' names and actual designs in 1945 , the family-based assembly line he and his wife established in their home, Ertl's renowned commitment to quality, and the incredible detail that goes into today's precision-made scale models.- Most collectible toy tractors available today are produced by Ertl- The truly American story of how an unemployed immigrant foundryman licensed the designs of ag giants I-H and J-D, melted surplus aluminum aircraft pistons in his basement furnace, poured the slag into hand-made sand molds, and put his five sons to work assembling and painting the tractors at the kitchen table- New 1/16 scale Ertl tractors typically sell in the \$60 price range; most highly collectible vintage examples in the mid-three-figure range- WalMart is the #1 customer; followed by Farm & Fleet- Ertl, celebrating its 60th Anniversary, is the 900 pound gorilla in this categoryAbout the AuthorPatrick Ertel is the publisher for *Antique Power* magazine. With the heart of a "common man", he understands the challenges that India faces as a nation, while as an erudite mind, he has the vision of the India's rightful place of eminence among the comity of nations. The book "The Republican Ethic" is a collection of 95 of his selected speeches out of a total of 243 made by him in the first year of office. They have been divided in eight sections, viz: Addressing the Nation, Diversity of India, Window to the World, Educating India: Equipping India, Dharma of Public Service, Honouring our Sentinels, Spirit of the Law and Acknowledging Excellence. The book has been conceived to help the readers assess the vision and thought that the President espouses specially with relation to the vision of nation and individual citizen's duties. "Roby's highly engaging prose offers edgy characters and intense drama." - Booklist It's been four years since twenty-eight-year old Alicia Black, daughter of Reverend Curtis Black, divorced her second husband, the most womanizing and corrupt man she has ever known. Since then, Alicia has been dating her first husband, Phillip Sullivan, a wonderfully kind and true man of God whom she'd hurt terribly by cheating on him. Alicia has worked hard to prove herself worthy of his trust once more, and when he asks her to marry him again, she couldn't be happier. But Levi Cunningham, the drug dealer Alicia had an extramarital affair with, has just been released from prison, and he has completely turned his life around for the better. Still head-over-heels in love with Alicia, he will do whatever is necessary to win her back. Remarrying Phillip is the one thing Alicia has wanted for years, but she can't get Levi out of her mind. Alicia and Phillip aren't the only ones in the middle of a crisis. Their best friends, husband and wife Brad and Melanie Richardson, are struggling to keep their marriage together. Workaholic Brad is never home and has begun losing thousands on bad investments. Or so he says. Melanie, who is certain there's more to the story, is determined to get at the truth. Fresh betrayal leads to consequences no one saw coming, and Alicia's relationship with Phillip might not be the only thing that needs saving. But is it already too late?
