This book of photography
represents National
Geographic's Photo Ark, a
major cross-platform initiative
and lifelong project by
photographer Joel Sartore to
make portraits of the world's
animals -- especially those that
are endangered. His message:
to know these animals is to
save them. Sartore intends to
photograph every animal in
captivity in the world. He is
circling the globe, visiting zoos
and wildlife rescue centers to
create studio portraits of
12,000 species, with an
emphasis on those facing
extinction. He has
photographed more than 6,000
already and now, thanks to a

multi-year partnership with
National Geographic, he may
reach his goal. This book
showcases his animal portraits:
from tiny to mammoth, from
the Florida grasshopper
sparrow to the greater one-
horned rhinoceros. Paired with
the prose of veteran wildlife
writer Douglas Chadwick, this
book presents an argument for
saving all the species of our
planet.

birder Noah Strycker. It
includes hundreds of species,

from tiny finches to charismatic eagles; brilliant toucans, intricate birds of paradise, and perennial favorites such as parrots, hummingbirds, and owls also make colorful appearances"--Amazon.com.

The Mystic Ark Dec 31 2020

In this book, Conrad Rudolph studies and reconstructs Hugh of St. Victor's forty-two-page written work, *The Mystic Ark*, which describes the medieval painting of the same name. In medieval written sources, works of art are not often referred to, let alone described in any detail. Almost completely ignored by art historians because of the immense difficulty of its text, Hugh of Saint Victor's *Mystic*

Ark (c. 1125-1130) is among the most unusual sources we have for an understanding of medieval artistic culture.

Depicting all time, all space, all matter, all human history, and all spiritual striving, this highly polemical painting deals with a series of cultural issues crucial in the education of society's elite during one of the great periods of intellectual change in Western history.

"Noah's Ark is jam-packed but there's still an enormous queue of animals waiting to board. So Noah asks his friend Sam Jam

Balu to take the other ark . . . But is Sam Jam Balu ready for the hip-hopping hippos, burrowing flumps and candy-striped camels with comical humps?"

Jan Brueghel the Elder Jul 06

2021 Kolb has produced a thoroughly researched essay on this painting, which is in the Getty Museum. The study focuses on Brueghel's depiction of nature, especially his exacting representation of identifiable species of animals and birds, the names of which are listed. Brueghel's collaboration with other painters, his and other painters' re-use of the same theme and composition, and the history and practice of

natural history collection and representation are central themes. The volume, which is printed in a horizontal format (it's 11x8") and heavily illustrated, is written for a general audience, though art historians will also find much of interest.

On Noah's Ark Jan 20 2020
Jan Brett's intricate illustrations make a stunning picture book of a favorite story-this time featuring Noah's

granddaughter. As the floodwaters rise, she helps take the animals onto the ark and get them settled down. But it's not easy when giraffes are sleeping next to pandas and lions are curled up with turkeys. Finally the gentle rocking of the ark lulls them all to sleep until the waters recede and Grandpa Noah, his family, and all the animals leave the ark. This simple telling, combined with extraordinary illustrations of every animal imaginable, makes *On Noah's Ark* perfect for young and old. *Ark Survival Evolved* Feb 19 2020 Come discover through this guide with more than 200 pages all the tricks to become the undisputed master of the

Nature documentaries often depict animal life as a grim struggle for survival, but this visually stunning book opens our eyes to a different, more scientifically up-to-date way of looking at the animal kingdom. In more than one hundred thirty striking images, *The Exultant Ark* celebrates the full range of animal experience with dramatic portraits of animal pleasure ranging from the charismatic and familiar to the obscure and bizarre. These photographs, windows onto the inner lives of pleasure seekers, show two polar bears engaged in a bout of wrestling, hoary marmots taking time for a friendly chase, Japanese macaques enjoying a soak in a

hot spring, a young bull elk sticking out his tongue to catch snowflakes, and many other rewarding moments. Biologist and best-selling author Jonathan Balcombe is our guide, interpreting the images within the scientific context of what is known about animal behavior. In the end, old attitudes fall away as we gain a heightened sense of animal individuality and of the pleasures that make life worth living for all sentient beings.

Noah's Ark Mar 14 2022 ☐ Caldecott Medal Winner ☐ "the book is a triumph, the definitive Noah's Ark."—Publishers Weekly

Winner of the Caldecott Medal, an ALA Notable Children's Book, and a New York Times Best Illustrated Book of the Year, Peter Spier's Noah's Ark has been the iconic edition of this tale for over 40 years, in print continuously since its debut in 1977. In Spier's imaginative retelling, readers witness the danger and the grandeur of the terrifying flood but also the lighter moments: Noah's wife jumping on a crate to avoid the rats; Noah shooing all but two bees from a busy hive; and all the animal babies being born in the spring. It's an illustration feat that's both majestic and tender.

From armadillo to zebra, this enchanting picture book pairs the stunning photography of National Geographic photographer Joel Sartore with playful poems by New York Times best-selling author Debbie Levy to represent the

letters of the alphabet and celebrate the diversity of the animal world. This unique alphabet book is a dazzling journey through the animal kingdom. It invites children and their families to linger over Sartore's spectacular portraits of animals both familiar and little known, to look these incredible creatures in the eye and marvel at their shape, form, and expression. Each animal is showcased in an original poem by Levy, whose clever, quirky verse and exuberant wordplay will delight readers young and old. The photos are part of Sartore's mission to photograph all the animal species in human care, with special attention given to

rare and endangered species. A beautiful gift book for animal lovers of any age, and a very special read-aloud ABC book for young children. Geographic photographer Joel Sartore with the delicate poetry of Newbery award-winning author Kwame Alexander, this lush picture book celebrates the beauty, diversity, and fragility of the animal world. Featuring more than 40 unique animal portraits, the pages invite kids to explore each creature's markings, textures, and attributes in stunning detail, while calling on all of us to help protect each and every one. Three picture-packed gatefolds inside showcase even more familiar and exotic species. These images are part of Sartore's lifelong project to photograph every animal in the world, with special attention

given to disappearing and endangered species.
Ships Aug 19 2022 You are about to enjoy the most comprehensive visual record of the history of ships ever assembled in one single volume. Edited by an acknowledged authority, it takes you from the very beginnings up to the late 1950s when presumably we all became aware of the subject from personal observation and experience. Here are those rich, formative years before our own age of awareness, displayed pictorially (over 400 photos) and accompanied by a knowledgeable and pertinent commentary so that we might enjoy its reading over and over

again. The British editor may have tended to emphasize the European contribution, but since his expertise in the field is unassailable and since the wealth of detail he has provided is as impressive as in any other published document within our memory, we hope you agree that a small bias is more than compensated for by such a massive compendium of information and entertainment.
