Explore the world with students in grades 5-6 using *Discovering the World of Geography*. This 128-page book helps students use geographical knowledge and skills to interpret and analyze data. This text covers topics including the physical features of the United States, climates, latitude and longitude, the American Revolution, the Mexican War, the Civil War, WWI, and WWII. The book presents information through activities such as maps, charts, diagrams, and graphs that support National Geography Standards. It also includes assessments and answer keys. Make reading fun for students in grades 4 and up using *Reading Tutor: Weird, But True!* This 48-page book captures readers' enthusiasm with interesting, age-appropriate stories and activities relating to hard-to-believe occurrences. This book covers topics such as Paul Revere, the origin of Santa Claus, wedding superstitions, then and now, and in the White House. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the classroom and at home! Connect students in grades 7 and up with science using *Science Tutor: Chemistry*. This effective 48-page resource provides additional concept reinforcement for students who struggle in chemistry. Each lesson in this book contains an Absorb section to instruct and simplify concepts and an Apply section to help students grasp concepts on their own. The book covers topics such as matter, physical and chemical changes, mixtures and solutions, the periodic table, atomic structure, and radioactivity. It is great for use in the classroom and at home! *FrenchSmart Tutor* is a user-friendly curriculum-based workbook series for children who want to learn or improve their French skills. It covers all three strands of the French curriculum: Oral Communication, Reading, and Writing. Children are guided along by the Smart Tutor in the workbook, who provides explanations, definitions, and examples throughout the activities. Each unit begins with a brief tutor session followed by four pages of exercise. The workbook includes a comprehensive review section as well as accompanying audio clips that help children develop their oral and listening skills. The audio clips are available for download at www.popularbook.ca Build reference skills for students in grades 4 and up using *Research: Ready-to-Go Topics for Building Reference Skills*. This 64-page book is perfect for classroom centers, unit launches, small- and large-group activities, and take-home assignments. The activities can be used in any order and with the ongoing curriculum. Students write reports, prepare presentations, and delve into related topics from science, history, geography, math, geology, and everyday themes. Advance vocabulary for students in grades 5-6 using *Vocabulary: Daily Skill Builders*. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It covers topics such as defining, relating, classifying, writing, expressing opinions, and applying vocabulary words. Frequent reviews provide practice in a standardized test format, the activities align with state standards, and the book includes a matrix for selected states. Make reading fun for students in grades 4 and up using *Reading Tutor: Inventions!* This 48-page book captures readers' enthusiasm with interesting, age-appropriate stories and activities relating to inventions. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the classroom and at home! Tutoring is beginning to get the respect and recognition it deserves. More and more learners require individualized or small group instruction whether it is in the classroom setting or in a private tutoring setting either face-to-face or online. It is conceived and created for tutors and educators who desire to provide effective tutoring either in person or online in any educational setting, including the classroom. Rather than provide a specific "curriculum" to follow, *Pre-Algebra: Grades 6-8: Math Tutor Lesson Plan Series* book provides a blueprint to design effective tutoring lessons that are aligned with the "Dr. Holland-Johnson's Session Review Framework." Tutor evaluators and coaches are able to analyze tutoring sessions and coach tutors when utilizing the "Dr. Holland-Johnson's Lesson Plan Blueprint for Tutors." In each lesson plan, learners have an opportunity to focus on real-world connections, vocabulary, and practice the math concepts learned in the tutoring sessions in the appropriate amounts to learn and retain the content knowledge. Tutors will have an opportunity to provide direct and guided instruction, while learners practice concepts on their own during independent instruction. Each lesson plan comes with a mini-assessment pertaining to the math concepts learned in the specific tutoring session. Depending on the learner's academic needs, the tutor or teacher will deem when it is appropriate to administer the mini-assessment. For online tutoring sessions or as an online option to take the mini-assessment, tutors and teachers can upload these mini-assessments to be completed online in their choice of an online assessment tool. Introduces new chemistry concepts and provides activities so that students can practice and grasp the concepts. Key terms are highlighted in the text as well as in a comprehensive glossary. Answer keys are included. Take students in grades 6 and up on a field trip without leaving the classroom using *World Geography: Daily Skill Builders!* This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It covers topics such as location and place, human-environment interaction, different types of maps, map reading, and the regions and countries of the world. Activities become more challenging as students build upon what they have learned. The book is perfect for review and practice and supports National Geography Standards. Make math matter to students in grades 6-12 using *Exploring Fractions: Mastering Fractional Concepts and Operations!* In this 96-page book, five units cover fractional concepts from the basics through fraction and mixed number operations. The three-part lessons include teacher-guided exploration, independent practice, and opportunities to apply new concepts. The book also includes notes, suggestions, and a standards matrix and supports NCTM standards. Get a grasp on grammar with students in grades 4 and up using *Language Arts Tutor: Grammar!* This 48-page resource features innovative games, stories, riddles, and puzzles that improve grammatical skills and enrich the learning experience. A sidebar on each page states the concept or skills reinforced by the activity. The book includes answer keys and suggestions for use. Connect students in grades 4 and up with conventions using *Language Arts Tutor: Capitalization and Punctuation*. This 48-page resource features innovative games, stories, riddles, and puzzles that improve grammatical skills and enrich the learning experience. A sidebar on each page states the concept or skills reinforced by the activity. The book includes answer keys and suggestions for use. Make reading fun for students in grades 4 and up using *Reading Tutor: Sports!* This 48-page book captures readers' enthusiasm with interesting, age-appropriate stories and activities relating to sports. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the classroom and at home! Make math matter to students in all grades using *Math Tutor: Algebra Skills!* This 80-page book provides step-by-step instructions of the most common math concepts and includes practice exercises, reviews, and vocabulary definitions. The book covers factoring, exponents, variables, linear equations, and polynomials. It aligns with state, national, and Canadian provincial standards. Connect students in grades 6 and up with science using *Science Tutor: Earth and Space*. This effective 48-page resource provides additional concept reinforcement for students who struggle in earth and space science. Each lesson in this book contains an Absorb section to instruct and simplify concepts and an Apply section

to help students grasp concepts on their own. The book covers topics such as the layers of the earth, types of rock, how rock is formed, weather, the phases of the moon, and Earth's place in the solar system. It also highlights key terms in the text and includes a recap of the metric system. The book supports National Science Education Standards. Make reading fun for students in grades 4 and up using Reading Tutor: Biographies! This 48-page book captures readers' enthusiasm with interesting, age-appropriate biographies and activities relating to biographies. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the classroom and at home! Explore the world with students in grades 4-5 using Discovering the World of Geography. This 128-page book helps students use geographical knowledge and skills to interpret and analyze data. This text covers topics including maps, graphs, hemispheres, seasons, ocean currents, precipitation, and weather maps. The book presents information through activities such as maps, charts, diagrams, and graphs that support National Geography Standards. It also includes assessments and answer keys. Includes activities that develop the knowledge and skills that address the National Geography Standards. The student pages can be reproduced for classroom use. The Math Tutor series provides step-by-step instruction in the most common math concepts needed by students of all ages. Included are practice exercises, reviews, and vocabulary definitions. Math Tutor: Fractions and Decimals covers adding, subtracting, multiplying, and dividing fractions; reducing fractions; improper fractions; mixed numbers; and converting to decimals and percents. Correlated to state, national, and Canadian provincial standards. 80 pages Advance vocabulary for students in grades 4-5 using Vocabulary: Daily Skill Builders. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It covers topics such as defining, relating, classifying, writing, expressing opinions, and applying vocabulary words. Frequent reviews provide practice in a standardized test format, the activities align with state standards, and the book includes a matrix for selected states. Make reading fun for students in grades 4 and up using Reading Tutor: Mammals! This 48-page book captures readers' enthusiasm with interesting, age-appropriate stories and activities relating to mammals. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the classroom and at home! Make reading fun for students in grades 4 and up using Reading Tutor: Sports! This 48-page book captures readers' enthusiasm with interesting, age-appropriate stories and activities relating to sports. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the classroom and at home! The Math Tutor series provides step-by-step instruction in the most common math concepts needed by students of all ages. Included are practice exercises, reviews, and vocabulary definitions. Math Tutor: Multiplication and Division covers multiplying and dividing by one-, two-, and three-digit numbers; working with 10, 100, 1,000, and so on; factors; remainders; decimals; and estimation. Correlated to state, national, and Canadian provincial standards. 80 pages Get students in grade 4 reading with Reading Engagement! This 128-page resource provides instructional reading practice for below-average and reluctant readers, independent reading activities for average readers, and supplemental reading for more-competent readers. The book includes high-interest, low-readability stories, a reading-level analysis for reading selections, and answer keys. Connect students in grades 6 and up with science using Science Tutor: Life Science. This effective 48-page resource provides additional concept reinforcement for students who struggle in life science. Each lesson in this book contains an Absorb section to instruct and simplify concepts and an Apply section to help students grasp concepts on their own. The book covers topics such as patterns in the living world, energy flow, levels of organization, and descent and change. It is great for use in the classroom and at home! Get students in grade 5 reading with Reading Engagement! This 128-page resource provides instructional reading practice for below-average and reluctant readers, independent reading activities for average readers, and supplemental reading for more-competent readers. The book includes high-interest, low-readability stories, a reading-level analysis for reading selections, and answer keys. After a party gone wrong and in desperate need of money for the fall semester of college, twenty-year-old Nora Robertson needs to escape her hometown. She accepts a summer long live-in tutoring job for a handsome man and his little sister at a secluded home deep in the mountains. There is no running water. No electricity. No internet or cell service. When her tutoring job ends she's hit with a brutal turn of events ... she's not permitted to leave. After months in captivity, she makes a harrowing escape with her student that ends in a car accident on a desolate road. When Nora comes to, her student is missing. In a desperate attempt to find the girl, Nora will have to recount her time held captive. The good and the bad. Can Nora and the authorities work together to find the man who took her? Will they rescue the girl Nora tried to save? Get a grasp on grammar with students in grades 4 and up using Language Arts Tutor: Grammar! This 48-page resource features innovative games, stories, riddles, and puzzles that improve grammatical skills and enrich the learning experience. A sidebar on each page states the concept or skills reinforced by the activity. The book includes answer keys and suggestions for use. Connect students in grades 6 and up with science using Science Tutor: Physical Science. This effective 48-page resource provides additional concept reinforcement for students who struggle in physical science. Each lesson in this book contains an Absorb section to instruct and simplify concepts and an Apply section to help students grasp concepts on their own. The book covers principles in four key areas: the mechanics of motion, energy, electricity and magnetism, and waves of light and sound. It also highlights key terms in the text and includes a recap of the metric system. The book supports National Science Education Standards. Written for students who are struggling in math, Math Tutor: Mastering Algebra Skills is an excellent tool for providing additional concept reinforcement. Each lesson in this book contains an Absorb section to instruct and simplify math concepts, as well as an Apply section to help students grasp concepts on their own. Topics covered include fractions, order of operations, expressions and equations with variables, solving linear equations, polynomials, and more! It is great for use in the classroom or at home and fully supports NCTM standards! --Mark Twain Media Publishing Company specializes in providing captivating, supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character. Mark Twain Media also provides innovative classroom solutions for bulletin boards and interactive whiteboards. Since 1977, Mark Twain Media has remained a reliable source for a wide variety of engaging classroom resources. Write on! Write with students in grades 6-12 using Adventures in Writing. This 64-page book includes writing projects for which students develop characters, settings, and plots in a variety of written, oral, and artistic formats. Formats include a diary, skits, plays, stories, fairy tales, biographies, autobiographies, science fiction, and song lyrics. The book supports NCTE standards.
