This publication is an English translation of the original WWII German Parts Manual for the kleines Kettenkraftrad. This is Volume 2 in a series of 5 manuals translated to English in the Kettenkrad Technical Library. The Kettenkraftrad, or "Kettenkrad" for short, was produced for the German army during World War II. It is a halftrack vehicle, which is steered by direction of the front wheel and by a steering gear, which affects the tracks to a larger degree than that of the front wheel. This manual depicts every part and assembly that makes up a Kettenkrad. Pictures, exploded diagrams, quantities, and part numbers are listed on page after page. As were the other manuals in this series, the High Command of the Army Office of Development and Testing produced these manuals. Over 17,200 total pages ...
