Upheaval May 08 2021 SESUDAH mengubah pemahaman kita mengenai apa yang membuat peradaban bangkit dan ambruk, Jared Diamond mengungkap bagaimana negara-negara berhasil menghadapi krisis dengan melakukan perubahan selektif—mirip cara orang berusaha pulih dari krisis pribadi. Diamond membandingkan bagaimana sejumlah negara bertahan melalui krisis—antara lain Finlandia yang diserang Uni Soviet, kudeta dan kontrakudeta di Indonesia dan Chile, bagaimana Jerman dan Jepang memulihkan diri sesudah kalah Perang Dunia II. Uniknya, negara-negara yang dipilih adalah yang pernah ditinggalinya sendiri, sehingga Jared Diamond dapat memberikan pengalaman pribadi masyarakat di sana. Di buku ini, Jared Diamond menambahkan psikologi ke pendekatan geografi campur sejarah yang khas bukubuku sebelumnya, untuk mengungkapkan faktor-faktor yang berpengaruh ke cara negara maupun orang bisa menanggapi tantangan besar.

The Marketing of World War II in the US, 1939-1946 Feb 23 2020 From the late 1930s until December 7, 1941, isolationism and an antipathy toward war in Europe were strong political currents in the US. However, once the US entered World War II, the entire apparatus of the US government was mobilized to "market" the war to Americans who were incredulous and horrified about the attack at Pearl Harbor. Americans wanted immediate and detailed information from the US government and the nation's media and entertainment companies about the recent military disasters. This book analyzes the complex relationships between the US government and the entire media and entertainment industries between 1939 and 1946. The US government realized in early 1942 that it needed to forge an alliance with the media and entertainment industries to create and maintain support for the war. The Office of War Information (OWI) was the US government agency acting as the liaison between Washington and the diverse media and entertainment industries; and all of them confronted a series of major issues and concerns to convince Americans to support the war effort. This book offers business historians an examination of the complex and sometimes tense relationships between the OWI and the radio, magazine, newspaper, and motion picture industries.

Hukum Administrasi Negara Sep 23 2022 Cita-cita negara hukum Indonesia merupakan cita-cita yang terus hidup dalam hati masyarakat Indonesia. Sebagai gagasan ia disambut dengan antusias dan dibahas dalam sidang-sidang rapat Persiapan Kemerdekaan Indonesia pada tahun 1945. Konstitusi dan praktik ketatanegaraan pada awal kemerdekaan sampai tahun 1957 mencerminkan dianutnya konsep negara hukum yang demokratis. Namun, sesudah itu ia tenggelam dalam arus ideologi patrimonialisme Demokrasi Terpimpin. Rezim demokrasi Terpimpin yang otoritarian itu berusaha mengubur habis gagasan dan konsep negara hukum, dengan memberikan tafsir otoritarianistik UUD 1945 sebagai dasar untuk mengabsahkan praktik ketatanegaraan yang sesungguhnya menyimpangi konstitusi tersebut. Namun, cita negara hukum yang demokratis itu tetap hidup dalam hati dan pikiran para penentang demokrasi Terpimpin. Maka ketika rezim demokrasi Terpimpin ambruk seketika itu pula para mahasiswa, intelektual, golongan profesi, dan masyarakat politik Indonesia menggemakan kembali gagasan dan konsep negara hukum.

Foundations of Public Service Jan 28 2023 Designed to serve as a basic text for introductory courses in public administration, this pioneering work provides students with a clear-eyed understanding of the vital management functions covered in most standard textbooks with two important differences. First, it is written to address the needs of both the experienced practitioner and the entry-level public servant. Case examples bridge the content-rich environment of practitioners with the principles of public administration sought by pre-service students. Second, the discussion of management practices is grounded in the political and ethical tensions inherent in the American constitutional form of governance. This innovative approach reflects the authors' belief that public administration operates as an integral part of the country's political traditions, and thereby helps define the political culture. Key themes in this third edition include: - An emphasis on the ways in which public administration and their agents play a critical role in ensuring legal and political accountability of the political system. - An exploration of local public administration as the backstop of American democracy, requiring a close working partnership between part-time elected officials and career administrators. - Careful examination of the ways in which American political economy requires administrators who are skilled at co-producing the common good with voluntary associations, businesses, nonprofit organizations and other governmental entities. - An understanding that public administration plays a critical role with its prudential judgments in balancing the competing values necessary to secure a regime of ordered liberty. Every chapter has been thoroughly updated, with particular attention paid to chapters on budgeting and revenue, e-government and the digital divide, shared power and the rise of 'wicked problems,' and the future of public administration in the United States amidst deep polarization. *Foundations of Public Service*, 3rd Edition provides a framework for understanding American political traditions and how they inform public administration as a political practice. It is required reading for all introductory Public Administration courses with an emphasis on practice and real-world applications.

Socioeconomic Effects of the National Flood Insurance Program Apr 30 2023 This Brief presents a benefit-cost analysis of the National Flood Insurance Program (NFIP) as well as an evaluation of its cumulative socioeconomic effects. Created by Congress in 1968, the NFIP provides flood insurance protection to property owners, in return for local government commitment to sound floodplain management. Since 1994, the NFIP has included a Flood Mitigation Assistance (FMA) program to provide local communities with support for flood mitigation. This book offers quantitative evidence of the net social benefit of the NFIP for the years 1996-2010, including an independent assessment of the consumer benefit. Second, it provides distributionally weighted analysis to show the socioeconomic effects of payments and claims. Finally, this Brief includes an analysis of the change in government revenue attributable to the NFIP and FMA programs. The models used in each component of the analysis are usable by others for extending and revising the analysis. Providing a comprehensive analysis of this increasingly important federal policy, this Brief will be of use to students of environmental economics and public policy as well as those interested in risk management in the era of climate change.
