This book highlights the importance of talent management practices in recruiting, developing  
retaining talented professionals in the digital and IT&C industry. It unpacks the distinctive  
characteristics of 'digital talent' represented by a wide spectrum of professionals and manage  
with digital abilities, competencies and skills who add considerable value to organizations and  
industries worldwide. It shows that despite digital talent's increased variety and significant  
contribution to digital transformation processes, much of the existing human resource and ta  
management research and practice fail to account for their distinctiveness. This book calls fo  
need for a new kind of talent management, referred to as 'digital talent management' (DTM) t  
is applicable to digital talent and decidedly integrates digital talent's distinctive characteristic  
into talent management strategies and practices in a human-centered manner. Drawing upon  
existing, yet disconnected, streams of literature and empirical evidence derived from the  
information technology and communication (IT&C) industry, this book defines digital talent an  
delineates strategies to attract, develop and retain them for an uncertain and renewed future

A novel about transforming organizations from the author of bestselling business books The Goal and Zapp! T

Cure is a novel for managers about transforming an under-performing bureaucratic organization into a boundaryless, fact-driven management culture like the one that made Jack Welch's General Electric so consistently successful. It offers real, practical advice for overcoming political inertia, reinventing the company, and doing it in a year or less. By giving each key character a distinct voice, readers are reminded of people they have met and who may even sit in the desk next to them. These characters interact realistically and act pragmatically, and as a result readers become invested in how these people tackle their challenges and create real solutions. The methods described in the book have been successfully employed at many of high-profile companies, such as Black & Decker, Coleman, Emerson, Parker Hannifin, Textron, United Stationers, and Moen. The Cure argues that modern organizations must be flexible, quick, and boundaryless in order to thrive and survive, but it also shows managers how to make it happen fast. Based on the successful management theories of Dan Paul's General Management Technologies, The Cure accomplishes these things in the form of an entertaining, enlightening, and dramatic business narrative. Jeff Cox (Murrysville, PA) is a creative writer known for weaving progressive business concepts into compelling fiction. He is the coauthor of such business bestsellers as The Goal, and Heroz. Dan Paul (Pittsburgh, PA) is CEO of General Management Technologies, a consulting practice which focuses on the alignment of clients' strategies, work processes, and culture in order to target all the functions of a business on the same priorities. Formerly with General Electric, he worked with many high-profile clients and spoken at many conferences on strategic management for Business Week and the American Management Association. "Giving a nod to Jeff Bezos, Steve Jobs, Walt Disney and other ruthless, yet highly successful, managers everywhere, Kennedy presents what it really takes to get productivity from people and by doing so, maximum profit. This revision delivers eight new chapters, fresh case history examples and more"-- Taking a balanced, integrative approach, Operations Management, 2nd Value Edition demonstrates the critical impact OM has in today's business environments, and shows how it relates to every department in an organization. Authors R. Dan Reid and Nada R. Sanders provide clear, focused, and highly engaging coverage of key operations management topics, and make strong connections across concepts and chapters. Quantitative Analysis of Social and Financial Market Development is a crucial resource of current, cutting-edge research exploring the latest social and financial developments across Asia. This book contains 74 selected papers presented at the 5th International Seminar of Contemporary Research on Business and Management (ISCRBM 2021) which was organized by the Alliance of Indonesian Master of Management Program (APMMI) and held in Jakarta, Indonesia on 18 December 2021. This online conference was hosted by the Master of Management Program of Indonesia University. This year, ISCRBM focused on research related to driving sustainable business through innovation. Business has had to deal with the Covid-19 pandemic, so a new approach towards managing business to survive competition is indispensable. Innovation is the key for all organizations in surviving in the new normal and beyond. The Seminar aimed to provide a forum for leading scholars, academics, researchers, and practitioners in the business and management area to reflect on the issues, challenges and opportunities, and to share the latest innovative research and best practices. This seminar brought together participants to exchange ideas on the future development of management disciplines in human resource, marketing, operation, finance, strategic management and entrepreneurship.

At last, a simple, well-written survey of process redesign that will help you transform your organization into a world class competitor. Author Dan Madison explains the evolution of work management styles, from traditional to process-focused, and introduces the tools of process mapping, the roles and responsibilities of everyone in the organization, and a logical ten-step redesign methodology. Thirty-eight design principles allow readers to custom-fit the methodology to the particular challenges within their own organizations. Additional chapters by guest writers Jerry Talley, Ph.D., and Vic Walling, Ph.D., discuss cross-department process management and using computer simulation in redesign, respectively. (Publisher) Sustainable Collaboration in Business, Technology, Information and Innovation (SCBTII 2020) Proceeding's topic deals with ``Synergizing Management, Technology and Innovation in Generating Sustainable and Competitive Business Growth``. This proceeding offers valuable knowledge on how research can be applied to support the government by introducing a policy of economic transformation in solving various challenges and driving the business sector to gain the ability to create sustainable competitive advantages, which will lead to sustainable, competitive and quality growth. The subjects in this Proceeding are classified into four tracks: Strategy, Entrepreneurship, Economic Digital-Based Management; Finance and Corporate Governance; and Accounting. These valuable researches inside this proceeding can help academicians, professionals, entrepreneurs, researchers, learners, and other related groups from around the world who have special interest in theories and practices in the field of digital economy for global competitiveness. The Covid-19 pandemic has changed our activities, like teaching, researching, and socializing. We are confused because we haven't experienced before. However, as Earth's smartest inhabitants, we can adopt new ways to survive the pandemic without losing enthusiasm. Therefore, even in pandemic conditions, we can still have scientific discussions, even virtually. The main theme of this symposium is "Reinforcement of the Sustainable Development Goals Post Pandemic" as a part of the masterplan of United Nations for sustainable development goals in 2030. This symposium was attended by 348 presenters from Indonesia, Malaysia, UK, Scotland, Thailand, Taiwan, Tanzania and Timor Leste which published 202 papers. Furthermore, we are delighted to introduce the proceedings of the 2nd Borobudur Symposium Borobudur on Humanities and Social Sciences 2020 (2nd BIS-HSS 2020). We hope our later discussion may result transfer of experiences and research findings from participants to others and from keynote speakers to participants. Also, we hope this event can create further research network.

The International Conference on Educational Technology and Management (ICEMT) is held to bring together academics, researchers, teachers, educational entrepreneurs, practitioners, and policy makers. They are responsible for implementing educational technology by leveraging resources through educational management to create and enable ecosystem capabilities and access to education. The Covid-19 pandemic teaches that aspects of information and communication technology in educational management are full of limitations. Inevitably, educational users have moved dramatically to online channels. Students and teachers are accustomed to learning from home. There are opportunities, as well as challenges. Although the pandemic isn't over yet, future updates are needed. This is an open access book. The International Conference on Accounting, Management and Economics (ICAME) is an annual agenda organized by the Faculty of Economics and Business, Hasanuddin University. In 2022, we would like to introduce to you the 7th ICAME with the current theme entitled "Innovation Towards Sustainable Business". We hope that our conference can add discussions and information from various research towards the discourse on new economic policy in the post-pandemic era. This activity also became an important agenda in publishing scientific papers by academics and became a positive contribution to mapping Indonesia's future development. Therefore, we would like to invite academics, practitioners, and researchers to contribute to the development of economic and business management research through participating in the 7th of ICAME. Thank you for your participation and we look forward to meeting you at the conference. This is an open access book. It has been our great pleasure to welcome all the participants to the 4th Asia-Pacific Management Research Conference which was held in Surabaya, Indonesia, on May 18th–20th, 2022 as a hybrid conference (virtually conference). We recalled formulating the concept and conducting this conference with the Research Center and Case Clearing House (RC-CCH) Team back in 2017. The conference encourages fresh and impactful studies that address the latest issues and topics, particularly in economics, management, business, and accounting. The forum particularly welcomes the discussion and sharing among research fellows in a semi-formal academic setting. As we reach the fourth conference, we are confident that we will maintain a contribution to the global literature. It is undeniable that the theme of the COVID-19 Pandemic is the main issue of this fourth conference, but rather than focusing on the misery, we look for models, technologies, and concepts that are beneficial for the economy and businesses to grow toward the new normal. This conference received 136 abstracts of which 57 were accepted articles in Atlantis Proceeding. This is an open access book. The conference is hosted by the State Polytechnic of Malang. This online conference aims (1) to bring together the researchers and practitioners, students, and civil society organization representatives in the scientific forum; (2) to share and to discuss theoretical and practical knowledge about innovation in Management, Business and Economics. Specifically, this conference can be used as a scientific forum for accommodating discussion among researchers in the field of business, management and economics science. The theme is Digital Business Transformation and Information System: The Way Forward. Taking account of modern digital era, the emergence of Internet has brought a new scenario of ecology in project management (PM), its methodology, platform, procedures and tools are subjected to subversive changes. So a monograph of Project Management Under Internet Era is urgently needed for renewing concepts in our PM community. The concept of how PM is implemented on the virtual platform through Internet, which is widely used in PM community based on knowledge economy; meanwhile, it is different from former industrial economy with solid assets as its resources and run the project on a real physical

manner. Beside the traditional PM, this book presents how shall we accommodate to convent PM and also accommodate to Internet environment, it also discusses program management a portfolio management under Internet as well as the challenges of PM in the future. From stra point of view, talent cultivation is extremely critical to PM development,we need to cultivate talents accommodating to the digital era and on the "Internet +" platform. This is the impetus the reason of why this monograph is initiated, which can be used as the textbook for gradua undergraduate students in related majors, also a reference book to the practitioners, who are working on PM under Internet digital era. This book deals with one of the main environmental challenges in Indonesia, namely the processing of solid waste. As a case, the study focuses on household waste management in the city of Semarang in Central Java. Semarang still uses the end of pipe system. Waste is brought to temporary disposal sites (TDSs) and from there to a final disposal site (FDS). The poor urban waste management evidence does not only result in a negative impact on human life and the environment but also constitutes a geographical problem. This is because the negative impact of disposal sites will affect those living in the immediate vicinity. The extent of the burden or benefit, of the sites, will vary according to the site location. Further to this, within a specific population group, households will be unequally exposed to some burdens depending on their proximity to the disposal site, gender (women usually suffer more), age and social group. Frequently poor people are the most vulnerable people who will receive the burden of the disposal site rather than its benefit. The GCBME Book Series aims to promote the quality and methodical reach of the Global Conference on Business Management & Entrepreneurship, which is intended as a high-quality scientific contribution to the science of business management and entrepreneurship. The Contributions are expected to be the main reference articles on the topic of each book and have been subject to a strict peer review process conducted by experts in the fields. The conference provided opportunities for the delegates to exchange new ideas and implementation of experiences, to establish business or research connections and to find Global Partners for future collaboration. The conference and resulting volume in the book series is expected to be held and appear annually. The year 2019 theme of the conference is "Transforming Sustainable Business In The Era Of Society 5.0". The ultimate goal of GCBME is to provide a medium forum for educators, researchers, scholars, managers, graduate students and professional business persons from the diverse cultural backgrounds, to present and discuss their research, knowledge and innovation within the fields of business, management and entrepreneurship. The GCBME conferences cover major thematic groups, yet it opens to other relevant topics: Organizational Behavior, Innovation, Marketing Management, Financial Management and Accounting, Strategic Management, Entrepreneurship and Green Business. *Teknika: Jurnal Sains dan Teknologi* Volume 17, Number 2, 2021
