**Norwegian Waffen-SS Legion, 1941-43 Feb 28 2023** Following the Nazi occupation of Norway in 1941, the Waffen-SS began recruiting volunteers to serve in their ranks. Initially formed into small volunteer units, these developed into large divisions by 1943, referred to as 'Legions' in Nazi propaganda. Early volunteers were promised that they would not leave Scandinavia and that they would serve under native Norwegian officers - but after the German invasion of the Soviet Union they were deployed to the Leningrad front alongside Dutch and Latvian units, in the 2nd SS Infantry Brigade. These units combined to form the nucleus of a whole regiment within the new 11th SS Volunteer Panzergrenadier Division 'Nordland'. Fully illustrated with detailed artwork depicting the uniforms and equipment of the volunteer soldiers, this fascinating study tells the little-known story of the Norwegians who fought with the SS in World War II.

**The Armed Forces of World War II Jun 27 2020** For many years, military historians and artists, collectors of militaria, war-gamers and war enthusiasts in general have felt the need for a comprehensive record of the uniforms, insignia and organisation of the fighting men of World War II. This remarkable book provides just such a record. Andrew Mollo is one of the leading British military historians with a worldwide reputation and his book is the result of years of study and research. His text not only details the design of uniforms and insignia but also describes their effectiveness in the field and how this affected the fighting ability of the troops themselves. An impressive series of 350 full-colour drawings has been specially commissioned for this book. These are supported by 160 photographs of the combatants in action, along with 53 plates of insignia. The authenticity of the drawings, together with the comprehensive descriptions, make *The Armed Forces of World War II* an invaluable source of reference for all students of military uniform.

**REAL COLORS AIRCRAFT** Jan 27 2023 Only available English language. Limited & Numbered book. The Real Colors for aircraft models could not be introduced without releasing a special book devoted to this subject. Renowned researchers Maciej Góralczyk, Gerald T. Högl, Jürgen Kiroff, Nicholas Millman and Mikhail V. Orlov teamed up in order to produce the most up-to-date reference book on the aircraft colors of the main WWII adversaries: Germany, United States, Great Britain and Soviet Union. The resulting study is a comprehensive guide to the colors and camouflage schemes, presented on 292 pages and illustrated with 42 color profiles, several document reprints, and 390 b/w and color photos, many of which are very rare. Included is the latest information on the Luftwaffe's late war colors, which have been reproduced as scale colors on the basis of the original paint factory recipes by Gerald T. Högl and Jürgen Kiroff. For the very first time, the unparalleled research on the Soviet Air Force colors done by Mikhail V. Orlov is introduced to the non-Russian readers. Nicholas Millman's archival research brings us accurate reproduction and description of the colors used by the USAAF, US Navy and RAF/FAA. **The Germanic Tribes, the Gods and the German Far Right Today Aug 10 2021 The Germanic Tribes, the Gods and the German Far Right Today deals with the question of how right-wing extremists in German-speaking countries adapt and adopt elements from the history, culture, and mythology of the Germanic tribes. It provides the first in-depth study of the adoption of these historical motifs by right-wing extremists. Using linguistic and historical perspectives, and drawing on both publicly accessible material and sources gathered by the intelligence services, the book delineates the influence and impact of Germanic tribal history and culture within extremist subcultures. The author demonstrates that references to the Germanic peoples, their history, culture, and mythology, are even more widespread among contemporary right-wing extremists than they were in the interwar National Socialist era. This book will be of interest to researchers of right-wing extremism, German politics, and social movements.**
