[Protecting Oneself and Others](#) Sep 30 2020

[Teaching for Wisdom](#) Dec 22 2019 This book examines if it is possible to teach wisdom. It considers how people at different times and places have engaged the age-old question of how (or whether) we can learn to live a good life, and what that life is like. Offering a range of perspectives, coverage considers Greek and Confucian philosophy; Christian, Islamic and Buddhist religion; African tradition, as well as contemporary scientific approaches to the study of wisdom.

[A Method for Developing Mariner Assessments](#) Nov 01 2020 This report presents a systematic method for developing reliable and valid performance-based assessments (PBA) of mariner proficiencies. The method is compliant with: the requirements of the International Maritime Organization's (IMO) Seafarers' Training, Certification and Watchkeeping Code (STCW Code), as amended in 1995; with all relevant U.S. Coast Guard Navigation and Vessel Inspection Circulars (NVIC); with Instructional Systems Development (ISD); and with the best practices of the maritime industry. The method guides the developer through five steps: (1) specify assessment objectives, (2) determine assessment methods, (3) specify assessment conditions, (4) develop proficiency criteria, and (5) prepare the assessment materials. The report provides materials for a developer's workshop, a stand-alone assessment development manual, and four sample assessments that have been developed by project participants. Guiding materials for the actual conduct of such assessments are provided in a separate report (R & DC-204).

[Lesson Plans for the Busy Librarian](#) Jul 09 2021 Eighty-seven information literacy cross-curricular lessons based on AASL/AECT and McREL standards are organized by grade level for K-5.

[Active Learning in the Mathematics Classroom, Grades 5-8](#) May 19 2022 Active

Learning in the Mathematics Classroom, Grades 5–8, Second Edition offers attention-grabbers such as Algebra Jokes, The M&M Mystery, How Long Would It Take to Walk to China?, and Gummi Worms to help students use mathematics as a powerful problem-solving tool, gain meaningful understandings of key concepts, and effectively communicate their mathematical thinking.

--publisher description.

Image Reflector Geometry Jan 03 2021 Using the Image Reflector, this powerful collection of more than 20 activities is ideal for investigating symmetry, transformations, and geometric relationships along line segments. Designed to provoke thinking and motivate further exploration as students gain mastery of moving an image, making lines perpendicular. and other invaluable skills. Includes teacher's notes and blackline masters.

RTI in the Classroom Jan 15 2022 Written expressly for teachers, this book is jam-packed with tools and strategies for integrating response to intervention (RTI) into everyday instruction in grades K-5. Numerous real-world examples connect RTI concepts to what teachers already know to help them provide effective instruction for all students, including struggling learners. Drawing on extensive classroom experience, the authors: \*Present color-coded intervention recipes for all three tiers of RTI implementation. \*Provide hands-on tools and 50 reproducibles, with a large format and sturdy wire binding for ease of use. \*Explain the core features of RTI and what they look like in action. \*Describe evidence-based instructional methods for reading, writing, math, and behavior. \*Show how to fit assessment and progress monitoring into the busy school day.

Middle School Life Science Jan 27 2023 Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.

*Eat Well & Keep Moving* Mar 05 2021 Accompanying CD-ROM includes over 300 ready-to-use worksheets for students as well as lessons, units, manuals, and training materials for teachers and school food service staff.

*Math, Grade 2* Feb 28 2023 "2 CD-ROMs: Bonus parent materials! English & Spanish"--Cover.

Essential Skills Math Grade 1 Aug 10 2021 "Includes standards & benchmarks"--Cover.

Helping Your Child With Maps & Globes Feb 04 2021 Children get involved in fun-to-do activities while learning the important map-reading skills they need to succeed in a global society. Many activities combine music, art, drama, and poetry with important geography skills.

The Arithmetic Teacher Feb 22 2020

Earthquakes May 07 2021 A curriculum on earthquake for teachers to use with elementary school children. The material offers science content processes that are designed with children's abilities and needs in mind. Earthquakes are a danger to the entire nation, not just a few states -- a fundamental concern throughout the development of this curriculum. The writing team included teachers, scientists, curriculum specialists and consultants from 6 states, with a wide range of educational experience. Teacher in 11 states tested the material and provided feedback. Includes dozens of line masters with maps and drawings for use in the classroom.

God's Power to Help Hurting People Feb 16 2022 Discover how to help those who are hurting through this practical and encouraging study. Each chapter tells the story of one person's emotional crisis, a soul cry for help, and a corresponding Bible personality who had the same ardent crisis. Learn to effectively minister God's power over 12 commonly experienced emotions by hurting people including, guilt, insecurity, loneliness, fear, anxiety, low self-esteem, grief, and anger.

Business English for the 21st Century Jul 29 2020

This Is Your Brain: Teaching About Neuroscience and Addiction Research Apr 25 2020 The need for students' understanding of the value of the neurosciences and the damaging effects of illicit drug use, the mechanisms of addiction, and the scientific and ethical basis of animal-based drug abuse research is critical to creating a better future for our children (from the Introduction). This innovative middle school curriculum presents 10 comprehensive, ready-to-use lessons about contemporary real-world issues involved in drug use and abuse."

Making Good Choices Oct 12 2021 This guidebook offers teachers eight ready-to-use strategies to help students make good choices for good behavior in the classroom as well as in the real world.

What Did it Look Like Then? Aug 30 2020

Periodic Table Nov 25 2022 What do chocolate chip cookies, chemistry and logic have in common? They are the basis for a unit that lets students

become actively engaged in discovering the arrangement of the periodic table. This learning activity takes the periodic table out of the static presentation usually associated with textbooks and chemistry courses and interjects an element of discovery. The two activities in this unit provide students with information that they have to arrange in organized charts. In the process of creating the arrangements, students will be involved in problem solving and will gain an appreciation for the scientific process of exploration and verification. This dynamic unit meets national science standards in seven teaching and content areas. Bring the periodic table to life with this hands-on, minds-on unit. Book jacket.

*Parables of the Kingdom* Sep 11 2021 *Parables of the Kingdom* is a language arts curricular unit on the New Testament Parables for seventh grade and up. The unit correlates to state standards and outcomes and the curriculum calendar provides over 30 hours of content material. Each session is accommodated with a full lesson plan, as well as the accompanying worksheets and keys. The narrative unit investigates the parables as literature, and provides historic critical and sociological background of the text. This unit is based on best practices in teaching and learning, and it is enriched by socratic circles, story-maps, role plays as well as relevant reading and writing assignments, and creative, productive projects.
