Black Man on the Titanic Feb 01 2021 The true story of one of the black passengers on the Titanic, for history readers and fans of Hidden Figures and The Immortal Life of Henrietta Lacks. Joseph Laroche was an anomaly among the passengers of the Titanic. He was exceptionally well-educated in a time when few black men had access to an education—and when even fewer were able to travel on a luxurious ship in first or second class. So, who was Joseph Laroche? And where was he going? This biography recounts the life of Joseph Laroche, his part in the history of Haiti, and how he, as a 24-year-old father of two (soon to be three) children, ended up on the last ship of that era of glamorous travel. He was a direct descendant of the father of Haitian independence and related to two Haitian presidents. As an engineer, Laroche contributed to the construction of the Parisian railway and had a promising future ahead of him. Ivorian-French writer Serge Bilé offers a fresh perspective on the tragedy that still fascinates millions and has inspired dozens of books and films. With thorough research in Haiti and France, Bilé unearths the story of the intriguing figure of Joseph Laroche. This is an account of multi-cultural black history and of the political and natural forces that converged on one man. Praise for *Black Man on the Titanic* "A revelation."—Mitchell Kaplan, founder of Books & Books "An absorbing and rewarding read."—Leonard Carpenter, author of *Lusitania Lost* and *Conan the Savage*

Black Man in a White Coat Apr 15 2022 "When Damon Tweedy first enters the halls of Duke University Medical School on a full scholarship, he envisions a bright future where his segregated, working class background will become largely irrelevant. Instead, he finds that he has joined a new world where race is front and center. When one of his first professors mistakes him for a maintenance worker, it is a moment that crystallizes the challenges he will face throughout his early career. Making matters worse, in lecture after lecture the common refrain for numerous diseases resounds, "More common in blacks than whites." In riveting, honest prose, *Black Man in a White Coat* examines the complex ways in which both black doctors and patients must navigate the difficult and often contradictory terrain of race and medicine. As Tweedy transforms from student to practicing physician, he discovers how often race influences his encounters with patients. Through their stories, he illustrates the complex social, cultural, and economic factors at the root of most health problems in the black community. These elements take on greater meaning when Tweedy finds himself diagnosed with a chronic disease far more common among black people. In this powerful, moving, and compassionate book, Tweedy deftly explores the challenges confronting black doctors, and the disproportionate health burdens faced by black patients, ultimately seeking a way forward to better treatment and more compassionate care.- For readers of Atul Gawande, Sandeep Jauhar, Pauline W. Chen, and Henrietta Lacks"--

It's Hard to Be a Black Man in America and Other African American Poems Sep 20 2022 *It's Hard to Be a Black Man in America and Other African American Poems* By: Elroy Alister Esdaille This book examines the African-American experience from multiple perspectives and cannot be nailed down to any singular thematic presentation. By peering through the pages of time to current day, the book attempts to disclose the African-American experience in The United States, and it can be applied to other countries as well that once had former colonial designs and slave labor. Modern day America, for many Black people, can be said to be a sum total of its messy history of slavery and segregation, and the recalcitrant roots that still persist today. Life for many black men and women in America is extremely challenging for we have to negotiate systemic, and institutionalize racism on a daily basis, while simultaneously wrestling with issues of colorism and microaggressions that continue to pervade society. It's difficult to understand the perspective of a black man or black woman in America without getting at least a glimpse into his or her insight about race relations and its impact on him or her. Many African Americans feel that the system is designed against them, but their racial concerns often fall on deaf ears. This book gives in-depth examinations about race in America and it asks questions about accountability through the stylist forms of the poems. As a Caribbean immigrant who migrated to The United States, Elroy Alister Esdaille's experiences as a black man with race relations has at times been painful as he has experienced firsthand the ugliness of racism and how the system so often makes it extremely hard for many black men to strive and live with dignity and pride. He has watched how the stereotype of criminality has informed decisions made against black men like him, and how one must develop a will stronger than iron in order to survive. As he envisions his readers, it is his desire to speak to all truth seekers and world changers. Race is a messy topic that many people avoid, but it is his aim to confront the issues head-on and lay the foundation for honest and controversial conversations that could inspire meaningful change in society. He would not say he is attempting to enlighten anyone, but rather for people to find their true selves and push hard for the future that they want and deserve.

Out Of America Nov 22 2022 Keith B. Richburg was an experienced and respected reporter who had paid his dues covering urban neighborhoods in Washington D.C., and won praise for his coverage of Southeast Asia. But nothing prepared him for the personal odyssey that he would embark upon when he was assigned to cover Africa. In this powerful book, Richburg takes the reader on an extraordinary journey that sweeps from Somalia to Rwanda to Zaire and finally to South Africa. He shows how he came to terms with the divide within himself: between his African racial heritage and his American cultural identity. Are these really my people? Am I truly an African-American? The answer, Richburg finds, after much soul-searching, is that no, he is not an African, but an American first and foremost. To those who romanticize Mother Africa as a black Valhalla, where blacks can walk with dignity and pride, he regrets that this is not the reality. He has been there and witnessed the killings, the repression, the false promises, and the horror. "Thank God my nameless ancestor, brought across the ocean in chains and leg irons, made it out alive," he concludes. "Thank God I am an American."

Out Of America Mar 02 2021 Nothing in Keith Richburg's long and respected journalistic career at the Washington Post prepared him for what he would encounter as the paper's correspondent in Africa. He found a continent where brutal murder had become routine, where dictators and warlords silenced dissent with machine guns and machetes, and where starvation had become depressingly common. With a great deal of personal anguish, Richburg faced a difficult question: If this is Africa, what does it mean to be an African American? In this provocative and unvarnished account of his three years on the continent of his ancestors, Richburg takes us on an extraordinary journey that sweeps from Somalia to South Africa, showing how he confronted the divide between his African racial heritage and his American cultural identity.

Chokehold Aug 27 2020 Finalist for the 2018 National Council on Crime & Delinquency's Media for a Just Society Awards Nominated for the 49th NAACP Image Award for Outstanding Literary Work (Nonfiction) A 2017 Washington Post Notable Book A Kirkus Best Book of 2017 "Butler has hit his stride. This is a meditation, a sonnet, a legal brief, a poetry slam and a dissertation that represents the full bloom of his early thesis: The justice

system does not work for blacks, particularly black men.” —The Washington Post “The most readable and provocative account of the consequences of the war on drugs since Michelle Alexander’s *The New Jim Crow*” —The New York Times Book Review “Powerful . . . deeply informed from a legal standpoint and yet in some ways still highly personal” —The Times Literary Supplement (London) With the eloquence of Ta-Nehisi Coates and the persuasive research of Michelle Alexander, a former federal prosecutor explains how the system really works, and how to disrupt it Cops, politicians, and ordinary people are afraid of black men. The result is the Chokehold: laws and practices that treat every African American man like a thug. In this explosive new book, an African American former federal prosecutor shows that the system is working exactly the way it’s supposed to. Black men are always under watch, and police violence is widespread—all with the support of judges and politicians. In his no-holds-barred style, Butler, whose scholarship has been featured on 60 Minutes, uses new data to demonstrate that white men commit the majority of violent crime in the United States. For example, a white woman is ten times more likely to be raped by a white male acquaintance than be the victim of a violent crime perpetrated by a black man. Butler also frankly discusses the problem of black on black violence and how to keep communities safer—without relying as much on police. Chokehold powerfully demonstrates why current efforts to reform law enforcement will not create lasting change. Butler’s controversial recommendations about how to crash the system, and when it’s better for a black man to plead guilty—even if he’s innocent—are sure to be game-changers in the national debate about policing, criminal justice, and race relations.

12 Angry Men Dec 11 2021 “Beautifully written, painfully honest” first-person accounts of racial profiling, as experienced by twelve black men from all over America (Michelle Alexander, author of *The New Jim Crow*). In an era of contentious debate about controversial police practices and, more broadly, the significance of implications of race throughout American life, *12 Angry Men* is an urgent, moving, and timely book that exposes “a serious impediment to the collective American Dream of a colorblind society” (Pittsburgh Urban Media). In this “extraordinarily compelling” book, a dozen eloquent authors tell their own personal stories of being racially profiled. From a Harvard law school student tackled by a security guard on the streets of Manhattan, a federal prosecutor detained while walking in his own neighborhood in Washington, DC, and a high school student in Colorado arrested for “loitering” in the subway station as he waits for the train home, to a bike rider in Austin, Texas, a professor at a Big Ten university in Iowa, and the head of the ACLU’s racial profiling initiative (who was pursued by national guardsmen after arriving on the red-eye in Boston’s Logan airport), here are true stories of law-abiding Americans who also happen to be black men (Publishers Weekly).

America Made Me a Black Man Feb 25 2023 A searing memoir of American racism from a Somali-American who survived hardships in his birth country only to experience firsthand the dehumanization of Blacks in his adopted land, the United States. “No one told me about America.” Born in Somalia and raised in a valley among nomads, Boyah Farah grew up with a code of male bravado that helped him survive deprivation, disease, and civil war. Arriving in America, he believed that the code that had saved him would help him succeed in this new country. But instead of safety and freedom, Boyah found systemic racism, police brutality, and intense prejudice in all areas of life, including the workplace. He learned firsthand not only what it meant to be an African in America, but what it means to be African American. The code of masculinity that shaped generations of men in his family could not prepare Farah for the painful realities of life in the United States. Lyrical yet unsparing, *America Made Me a Black Man* is the first book-length examination of American racism from an African outsider’s perspective. With a singular poetic voice brimming with imagery, Boyah challenges us to face difficult truths about the destructive forces that threaten Black lives and attempts to heal a fracture in Black men’s identity.

Thirteen Ways of Looking at a Black Man Jun 05 2021 “This is a book of stories,” writes Henry Louis Gates, “and all might be described as ‘narratives of ascent.’” As some remarkable men talk about their lives, many perspectives on race and gender emerge. For the notion of the unitary black man, Gates argues, is as imaginary as the creature that the poet Wallace Stevens conjured in his poem “Thirteen Ways of Looking at a Blackbird.” James Baldwin, Colin Powell, Harry Belafonte, Bill T. Jones, Louis Farrakhan, Anatole Broyard, Albert Murray -- all these men came from modest circumstances and all achieved preeminence. They are people, Gates writes, “who have shaped the world as much as they were shaped by it, who gave as good as they got.” Three are writers -- James Baldwin, who was once regarded as the intellectual spokesman for the black community; Anatole Broyard, who chose to hide his black heritage so as to be seen as a writer on his own terms; and Albert Murray, who rose to the pinnacle of literary criticism. There is the general-turned-political-figure Colin Powell, who discusses his interactions with three United States presidents; there is Harry Belafonte, the entertainer whose career has been distinct from his fervent activism; there is Bill T. Jones, dancer and choreographer, whose fierce courage and creativity have continued in the shadow of AIDS; and there is Louis Farrakhan, the controversial religious leader. These men and others speak of their lives with candor and intimacy, and what emerges from this portfolio of influential men is a strikingly varied and profound set of ideas about what it means to be a black man in America today.

A Black Man's Guide to Law Enforcement in America Jul 26 2020 When a police officer pulls over a male African American driver, the result is usually an arrest. The Envy of the World Aug 19 2022 With an eloquence and compassion reminiscent of James Baldwin's *Letter to My Nephew*, Ellis Cose presents a frank and realistic examination of the daunting challenges facing black men in twenty-first-century America and offers a way out of the cycle of defeatism and despair that wrecks havoc on America's black communities. Black men have never had more opportunity for success than they do today. Yet, as Ellis Cose bluntly puts it, “We are watching the largest group of black males in history stumbling through life with a ball and chain wrapped around their legs. If brought together in one incorporated region, the population of black males behind bars would instantly become the twelfth largest urban area in America.” Add to that the ravages of AIDS, murder, poverty, and illiteracy, the raging anger between many black men and women, and the widening gap separating the black elite from the so-called underclass, and you have a prescription for a paralyzing pessimism. But even as he acknowledges the systemic obstacles that confront black men of all social strata, Ellis Cose refuses to accept them as reasons for giving up or giving in. In powerful and stirring prose, Cose rails against the historical worldview that has categorized academic achievement as a source of shame instead of pride in many black communities; he also outlines steps black males can take to enhance their odds for success. With insightful anecdotes about a broad range of black men -- from Franklin Raines, the first black man to run a Fortune 500 company, to unlettered ex-prisoners -- Cose documents the amazing journey the black race has made, and contemplates the challenges ahead. Both a warning of the vast social tragedy that is wasted black potential and a vital call to arms that can enable black men to reclaim their destiny, *The Envy of the World* is an honest and important book for anyone concerned about the future of America.

Slavery by Another Name Jan 12 2022 A Pulitzer Prize-winning history of the mistreatment of black Americans. In this ‘precise and eloquent work’ - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an ‘Age of Neoslavery’ that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

Uncomfortable Conversations with a Black Man Jun 17 2022 INSTANT NEW YORK TIMES BESTSELLER An urgent primer on race and racism, from the host of the viral hit video series “Uncomfortable Conversations with a Black Man” “You cannot fix a problem you do not know you have.” So begins Emmanuel Acho in his essential guide to the truths Americans need to know to address the systemic racism that has recently electrified protests in all fifty states. “There is a fix,” Acho says. “But in order to access it, we’re going to have to have some uncomfortable conversations.” In *Uncomfortable Conversations With a Black Man*, Acho takes on all the questions, large and small, insensitive and taboo, many white Americans are

afraid to ask—yet which all Americans need the answers to, now more than ever. With the same open-hearted generosity that has made his video series a phenomenon, Acho explains the vital core of such fraught concepts as white privilege, cultural appropriation, and “reverse racism.” In his own words, he provides a space of compassion and understanding in a discussion that can lack both. He asks only for the reader’s curiosity—but along the way, he will galvanize all of us to join the antiracist fight.

Everywhere You Don't Belong Apr 22 2020 A New York Times Book Review Notable Book of 2020 “A comically dark coming-of-age story about growing up on the South Side of Chicago, but it’s also social commentary at its finest, woven seamlessly into the work . . . Bump’s meditation on belonging and not belonging, where or with whom, how love is a way home no matter where you are, is handled so beautifully that you don’t know he’s hypnotized you until he’s done.” —Tommy Orange, The New York Times Book Review In this alternately witty and heartbreaking debut novel, Gabriel Bump gives us an unforgettable protagonist, Claude McKay Love. Claude isn’t dangerous or brilliant—he’s an average kid coping with abandonment, violence, riots, failed love, and societal pressures as he steers his way past the signposts of youth: childhood friendships, basketball tryouts, first love, first heartbreak, picking a college, moving away from home. Claude just wants a place where he can fit. As a young black man born on the South Side of Chicago, he is raised by his civil rights-era grandmother, who tries to shape him into a principled actor for change; yet when riots consume his neighborhood, he hesitates to take sides, unwilling to let race define his life. He decides to escape Chicago for another place, to go to college, to find a new identity, to leave the pressure cooker of his hometown behind. But as he discovers, he cannot; there is no safe haven for a young black man in this time and place called America. Percolating with fierceness and originality, attuned to the ironies inherent in our twenty-first-century landscape, *Everywhere You Don’t Belong* marks the arrival of a brilliant young talent.

A Particular Kind of Black Man May 16 2022 **One of Time’s 32 Books You Need to Read This Summer** An NPR Best Book of 2019 An “electrifying” (Publishers Weekly) debut novel from Rhodes Scholar and winner of the Caine Prize for African Writing about a Nigerian family living in Utah and their uneasy assimilation to American life. Living in small-town Utah has always been an uncomfortable fit for Tunde Akinola’s family, especially for his Nigeria-born parents. Though Tunde speaks English with a Midwestern accent, he can’t escape the children who rub his skin and ask why the black won’t come off. As he struggles to fit in, he finds little solace from his parents who are grappling with their own issues. Tunde’s father, ever the optimist, works tirelessly chasing his American dream while his wife, lonely in Utah without family and friends, sinks deeper into schizophrenia. Then one otherwise-ordinary morning, Tunde’s mother wakes him with a hug, bundles him and his baby brother into the car, and takes them away from the only home they’ve ever known. But running away doesn’t bring her, or her children, any relief; once Tunde’s father tracks them down, she flees to Nigeria, and Tunde never feels at home again. He spends the rest of his childhood and young adulthood searching for connection—to the wary stepmother and stepbrothers he gains when his father remarries; to the Utah residents who mock his father’s accent; to evangelical religion; to his Texas middle school’s crowd of African-Americans; to the fraternity brothers of his historically black college. In so doing, he discovers something that sends him on a journey away from everything he has known. Sweeping, stirring, and perspective-shifting, *A Particular Kind of Black Man* is “wild, vulnerable, lived...A study of the particulate self, the self as a constellation of moving parts” (The New York Times Book Review).

Redemption Oct 29 2020 A “New World Order” is the topic of discussion for politicians and many others. There is a constant push by those in authority and their cohorts to force a particular mind-set and world view on the masses. This speaks, primarily to the ambitions of the Western world (white world) to increase and continue their dominance over the Black and darker peoples of the Earth, through a method or science we refer to as “Tricknology,” the science of tricks and lies. It speaks to their desire to continue their parasitic existence off of the natural and human resources of the Black Nation, who are the Original Owners of the earth. The American so-called Negro has suffered a mental and spiritual death as a consequence of falling into the hands of such a clever and cunning open enemy, for over four hundred years. The slave-master robbed the Blackman and woman of their God, religion, name, language, and culture. The worst kind of crime has been committed against the so-called American Negroes by the white race. It is written in the slave codes and black codes of the United States of America that the “Negro” will never be redeemed (restored to his Own) and that he is ever to be the property of the American white man. And this mentality did not simply disappear from the slave-masters and their children after having held black people in chains under the most horrific conditions for over 310 years. And neither did the so-called “Emancipation Proclamation” alter their mentality of wanting to forever dominate and mistreat the so-called Negroes. *Redemption: Redeeming The Blackman And Woman In America*, discuss integration, manifest destiny and the grafting of the white race, slavery and “Emancipation,” Ezekiel’s vision of the Wheel in a Wheel and what it represents, the Coming of God to Redeem and restore the so-called Negro back to his Own and to destroy His enemies, among other topics. It is written in both Bible and Holy Qur’an, that God Himself will Come to Redeem the so-called American Negroes, and to place them back on top of Civilization, never to be ruled by an enemy again. And, as a matter of fact, there is a New World Order unfolding at the present time, wherein Righteousness and Peace will dwell, after the Almighty Supreme Being Allah (God) Himself, bring to naught the works of the devil, and put an end to the peace-breakers, mischief-makers, and the blood-shedders on our planet.

Captain Blackman Mar 14 2022 A “fascinating novel” of race and war in historical US conflicts—through the eyes of a black soldier inexplicably traveling through time (The New York Times Book Review). In the midst of the racial tensions in the army during the Vietnam War, Capt. Abraham Blackman does what he can to educate his fellow black soldiers on the history of race relations in the US military. But when he is gravely wounded in the jungle of Southeast Asia, he finds himself inexplicably rocketed into those conflicts of the past. From slavery to segregation, Blackman experiences firsthand the racism—from subtle and insidious discrimination to outright violence—of the American military’s past. Yet no matter the conflict, be it the Revolutionary War, the Civil War, or World War II, Blackman fights for a racist military establishment that expects black soldiers to die for the cause of “freedom”—even when they are denied it at home. Ultimately, Blackman’s greatest challenge will take place in his own time, in Vietnam, where he must battle not only to survive but for that most elusive of victories: justice. This “necessary [and] boldly experimental” historical novel from the two-time American Book Award-winning author brilliantly explores the complicated legacy of the African American soldier throughout US history (The New York Times Book Review).

Policing the Black Man May 04 2021 A comprehensive, readable analysis of the key issues of the Black Lives Matter movement, this thought-provoking and compelling anthology features essays by some of the nation’s most influential and respected criminal justice experts and legal scholars. “Somewhere among the anger, mourning and malice that *Policing the Black Man* documents lies the pursuit of justice. This powerful book demands our fierce attention.” —Toni Morrison *Policing the Black Man* explores and critiques the many ways the criminal justice system impacts the lives of African American boys and men at every stage of the criminal process, from arrest through sentencing. Essays range from an explication of the historical roots of racism in the criminal justice system to an examination of modern-day police killings of unarmed black men. The contributors discuss and explain racial profiling, the power and discretion of police and prosecutors, the role of implicit bias, the racial impact of police and prosecutorial decisions, the disproportionate imprisonment of black men, the collateral consequences of mass incarceration, and the Supreme Court’s failure to provide meaningful remedies for the injustices in the criminal justice system. *Policing the Black Man* is an enlightening must-read for anyone interested in the critical issues of race and justice in America.

Black Man Emerging Apr 03 2021 In the face of centuries of institutional and interpersonal racism, in light of the signals they receive from society, and given the choices they must make about what they want from life and how to go about getting it—how can Black men in America realize their full potential? In *Black Man Emerging*, psychologists Joseph L. White and James H. Cones III fashion a moving psychological and social portrait that reflects their personal views on the struggle of Black men against oppression and for self-determination. Using numerous case histories and biographical sketches of Black men who have failed and those who have prevailed, the authors describe strategies for responding to racism and entrenched power—underscoring the healing capacity of religion, family, Black consciousness movements, mentorships, educational programs, paid employment, and other positive forces. They also explore the concept of identity as it applies to being Black and male and the influence of Black men on American culture. *Black Man Emerging* is a poignant and personal discussion of the issues facing and felt by Black men in this country and an

important commentary on the conflicts born of human diversity.

The Extinction of Black Man in America Jun 24 2020 Very few books explicitly examine the experience of emptiness, and while several authors have examined the related phenomenon of meaninglessness, it has, for the most part, been regarded as a pathological sign. This book reviews the work of many authors who have tackled this topic and provides an integrated explanation for the experience of emptiness, showing that it is correlated with emotional growth and is thus a sign of an opportunity for personal development, even though not always an expected or welcome one. By providing explanations for this experience, numerous case examples spanning a variety of situations and descriptions of different manifestations of and reactions to emptiness, readers should be helped in understanding themselves and others. This book should be of interest to clinicians, students of psychology and culture and anyone interested in human growth and development.

The Fall of America Nov 10 2021 This title deals with many prophetic and well as historical aspects of Elijah Muhammad's teaching. It chronologically cites various aspects of American history, its actions pertaining to the establishment and treatment of its once slaves, which is shown to be a significant cause of America's fall.

Speak, Brother! Nov 29 2020 Unrelenting, uncompromising and downright honest, Roland S. Martin offers a bold and fresh perspective for the 21st century. He tackles a variety of issues with passion, knowledge and spirituality. Whether its commentaries on sports, social justice or business, Martin isn't a conservative or a liberal Democrat or a Republican. He is simply a black man in America.

Spirit and Soul Jul 18 2022 Spirit and Soul: Odyssey of a Black Man in America, Volume One, an engaging, edifying autobiography by Theodore Kirkland, offers critical insight and politically cognizant commentary on the past, future and real-time reality of race relations in America. His long career in law enforcement some 39 years total as a military police officer, Buffalo police officer, New York State parole board commissioner and adjunct professor begins by happenstance in the Air Force. Instead of being sent to gunnery school as he requested, he is ordered to report to the Army Military Police Academy in Camp Gordon, Georgia. Kirkland's narrative voice in this page turner is clear, self-effacing and relentlessly candid unapologetic for the black and white of his experience, and cautionary in his instruction for navigation through the gray. Yet in every syllable, there is a remarkable, palpable love for his family, friends and community and unyielding commitment to upholding the Constitutional promise that "all men are created equal." Spirit and Soul: Odyssey of a Black Man in America, Volume One is at once witty and wise; poignant, wistful and meticulously illustrative of an American perspective too often shadowed by stereotypes that contend that Black men contribute primarily to the prison population. It also is an important chronology of the evolution of African American life and experience from Jim Crow to contemporary "Post-racial America."

Makes Me Wanna Holler Oct 21 2022 One of our most visceral and important memoirs on race in America, this is the story of Nathan McCall, who began life as a smart kid in a close, protective family in a black working-class neighborhood. Yet by the age of fifteen, McCall was packing a gun and embarking on a criminal career that five years later would land him in prison for armed robbery. In these pages, McCall chronicles his passage from the street to the prison yard—and, later, to the newsrooms of The Washington Post and ultimately to the faculty of Emory University. His story is at once devastating and inspiring, at once an indictment and an elegy. Makes Me Wanna Holler became an instant classic when it was first published in 1994 and it continues to bear witness to the great troubles—and the great hopes—of our nation. With a new afterword by the author

Invisible Man, Got the Whole World Watching Dec 19 2019 A New York Times Bestseller An unflinching account of what it means to be a young black man in America today, and how the existing script for black manhood is being rewritten in one of the most fascinating periods of American history. How do you learn to be a black man in America? For young black men today, it means coming of age during the presidency of Barack Obama. It means witnessing the deaths of Oscar Grant, Trayvon Martin, Michael Brown, Akai Gurley, and too many more. It means celebrating powerful moments of black self-determination for LeBron James, Dave Chappelle, and Frank Ocean. In Invisible Man, Got the Whole World Watching, Mychal Denzel Smith chronicles his own personal and political education during these tumultuous years, describing his efforts to come into his own in a world that denied his humanity. Smith unapologetically upends reigning assumptions about black masculinity, rewriting the script for black manhood so that depression and anxiety aren't considered taboo, and feminism and LGBTQ rights become part of the fight. The questions Smith asks in this book are urgent—for him, for the martyrs and the tokens, and for the Trayvons that could have been and are still waiting.

Black Like Me Jul 06 2021 This American classic has been corrected from the original manuscripts and indexed, featuring historic photographs and an extensive biographical afterword.

The Black Man's President Sep 27 2020 Frederick Douglass called the martyred president "emphatically the black man's president" as well as "the first who rose above the prejudice of his times and country." This narrative history of Lincoln's personal interchange with Black people over the course his career reveals a side of the sixteenth president that, until now, has not been fully explored or understood. In a little-noted eulogy delivered shortly after Lincoln's assassination, Frederick Douglass called the martyred president "emphatically the black man's president," the "first to show any respect for their rights as men." To justify that description, Douglass pointed not just to Lincoln's official acts and utterances, like the Emancipation Proclamation or the Second Inaugural Address, but also to the president's own personal experiences with Black people. Referring to one of his White House visits, Douglass said: "In daring to invite a Negro to an audience at the White House, Mr. Lincoln was saying to the country: I am President of the black people as well as the white, and I mean to respect their rights and feelings as men and as citizens." But Lincoln's description as "emphatically the black man's president" rests on more than his relationship with Douglass or on his official words and deeds. Lincoln interacted with many other African Americans during his presidency His unflinching cordiality to them, his willingness to meet with them in the White House, to honor their requests, to invite them to consult on public policy, to treat them with respect whether they were kitchen servants or leaders of the Black community, to invite them to attend receptions, to sing and pray with them in their neighborhoods—all those manifestations of an egalitarian spirit fully justified the tributes paid to him by Frederick Douglass and other African Americans like Sojourner Truth, who said: "I never was treated by any one with more kindness and cordiality than were shown to me by that great and good man, Abraham Lincoln." Historian David S. Reynolds observed recently that only by examining Lincoln's "personal interchange with Black people do we see the complete falsity of the charges of innate racism that some have leveled against him over the years."

American Sirens May 24 2020 The extraordinary story of an unjustly forgotten group of Black men in Pittsburgh who became the first paramedics in America, saving lives and changing the course of emergency medicine around the world Until the 1970s, if you suffered a medical crisis, your chances of survival were minimal. A 9-1-1 call might bring police or even the local funeral home. But that all changed with Freedom House EMS in Pittsburgh, a group of Black men who became America's first paramedics and set the gold standard for emergency medicine around the world, only to have their story and their legacy erased—until now. In American Sirens, acclaimed journalist and paramedic Kevin Hazzard tells the dramatic story of how a group of young, undereducated Black men forged a new frontier of healthcare. He follows a rich cast of characters that includes John Moon, an orphan who found his calling as a paramedic; Peter Safar, the Nobel Prize-nominated physician who invented CPR and realized his vision for a trained ambulance service; and Nancy Caroline, the idealistic young doctor who turned a scrappy team into an international leader. At every turn, Freedom House battled racism—from the community, the police, and the government. Their job was grueling, the rules made up as they went along, their mandate nearly impossible—and yet despite the long odds and fierce opposition, they succeeded spectacularly. Never-before revealed in full, this is a rich and troubling hidden history of the Black origins of America's paramedics, a special band of dedicated essential workers, who stand ready to serve day and night on the line between life and death for every one of us.

Hung Dec 31 2020 A brilliant look at the pervasive belief that African American men are prodigiously endowed, from the author's own experiences to sharp analysis of how black male sexuality is expressed in art, literature, media, sports, and pornography "Scott really goes there, talking honestly and telling secrets about the black phallus and its, uh, massive impact on America." —Touré "Hung" is a double entendre, referring not only to penis size but to the fact that black men were once literally hung from trees, often for their perceived sexual prowess and the supposed risk it posed to white women. As a poignant reminder, Scott Poulson-Bryant begins his book with a letter to Emmett Till, the teenager who was lynched in Mississippi in the mid-1950s for whistling at a white woman. For Poulson-Bryant and other men of his generation, society's deep-seated obsession with the sexual powers of black men has had an enormous, if often deceptive, influence on how they perceive themselves and on the assumptions made by others. His tales of his sexual encounters with both sexes, along with anecdotes about the lives of various friends and colleagues, are wryly and at times shockingly revealing. Enduring racial perceptions have shaped popular culture as well, and Poulson-Bryant offers a thorough, thought-provoking look at media-created images of the "Well-Hung Black Male." He deftly deconstructs movies like *Mandingo* and *Shaft*, articles in the popular press, and edgy works like Robert Mapplethorpe's *Black Book*, while also providing distinctive profiles of icons like porn star Lexington Steele and rapper L.L. Cool J. A mixture of memoir and cultural commentary, *Hung* is the first book to take on phallic fixation and uncover what lies below.

The Awkward Black Man Aug 07 2021 A new collection of short fiction from the Edgar Award-winning author of *Devil in a Blue Dress* and *Trouble is What I Do*. With his extraordinary fiction and gripping television writing, Walter Mosley has proven himself a master of narrative tension. *The Awkward Black Man* collects seventeen of Mosley's most accomplished short stories to showcase the full range of his remarkable talent. Touching, contemplative, and always surprising, these stories introduce an array of imperfect characters—awkward, self-defeating, elf-involved, or just plain odd. In *The Awkward Black Man*, Mosley overturns the stereotypes that corral black male characters and paints subtle, powerful portraits of unique individuals. In "The Good News Is," a man's insecurity about his weight gives way to illness and a loneliness so intense that he'd do anything for a little human comfort. "Pet Fly," previously published in the *New Yorker*, follows a man working as a mailroom clerk—a solitary job for which he is overqualified—and the unforeseen repercussions he endures when he attempts to forge a new connection. And "Almost Alyce" chronicles failed loves, family loss, alcoholism, and a Zen approach to the art of begging that proves surprisingly effective.
