Colleges in the US teach some of the marketing techniques, but everything is explained simply. There are no tricks. This book provides insights into the fascinating life of the Lesser Flamingo (*Phoeniconaias minor*) and describes how this enigmatic bird has adapted to the extreme conditions of tropical soda lakes and can even withstand the caustic effects of brine. However, humans are increasingly disrupting the natural cycles of these wetlands, and for these pink birds characteristic of these salt lakes, it is becoming more and more difficult to find suitable habitats, food and breeding grounds. Their fate is considered a cautionary example of man's dealings with nature. Will the Lesser Flamingo survive in a man-made world? Flamingos are considered to be an embodiment of the Phoenix, and the author interweaves his personal experiences with and observations of the flamingos' unusual habitats with the Phoenix motif in order to stimulate reflection on the circle of life. Written in an accessible style that combines science, biological information and the author's own travels and fieldwork, the book also includes a wealth of captivating images. As such, it offers a unique resource for biologists and nature-loving Africa and Asia enthusiasts alike. An illuminating study of Amedeo Modigliani's early drawings and how they reflect the artist's conception of identity One of the great artists of the 20th century, Amedeo Modigliani (1884-1920) is celebrated for revolutionizing modern portraiture, particularly in his later paintings and sculpture. *Modigliani Unmasked* examines the artist's rarely seen early works on paper, offering revelatory insights into his artistic sensibilities and concerns as he developed his signature style of graceful, elongated figures. An Italian Sephardic Jew working in turn-of-the-century Paris, Modigliani embraced his status as an outsider, and his early drawings show a marked awareness of the role of ethnicity and race within society. Placing these drawings within the context of the artist's larger oeuvre, Mason Klein reveals how Modigliani's preoccupation with identity spurred the artist to reconceive the modern portrait, arguing that Modigliani ultimately came to think of identity as beyond national or cultural boundaries. Lavishly illustrated with the artist's paintings and over one hundred drawings collected by Dr. Paul Alexandre, Modigliani's close friend and first patron, this book provides an engaging and long overdue analysis of Modigliani's early body of work on paper. The debut novel from the internationally bestselling author of *Exit West* and *The Reluctant Fundamentalist*, both shortlisted for the Man Booker Prize *Moth Smoke*, Mohsin Hamid's deftly conceived first novel, immediately marked him as an uncommonly gifted and ambitious young literary talent to watch when it was published in 2000. It tells the story of Daru Shezad, who, fired from his banking job in Lahore, begins a decline that plummets the length of Hamid's sharply drawn, subversive tale. Fast-paced and unexpected, *Moth Smoke* was ahead of its time in portraying a contemporary Pakistan far more vivid and complex than the exoticized images of South Asia then familiar to the West. It established Mohsin Hamid as an internationally important writer of substance and imagination and the premier Pakistani author of our time, a promise he has amply fulfilled with each successive book. This debut novel, meanwhile, remains as compelling and deeply relevant to the moment as when it appeared more than a decade ago. In 1947, a Bedouin shepherd literally stumbled upon a cave near the Dead Sea, a settlement now called Qumran, to the east of Jerusalem. This cave, along with the others located nearby, contained jars holding hundreds of scrolls and fragments of scrolls of texts both biblical and nonbiblical—in Hebrew, Aramaic, and Greek. The biblical scrolls would be the earliest evidence of the Hebrew Scriptures, or Old Testament, by hundreds of years; and the nonbiblical texts would shed dramatic light on one of the least-known periods of Jewish history—the Second Temple period. This find is, quite simply, the most important archaeological event in two thousand years of biblical studies. The scrolls provide information on nearly every aspect of biblical studies, including the Old Testament, text criticism, Second Temple Judaism, the New Testament, and Christian origins. It took more than fifty years for the scrolls to be completely and officially published, and there is no comparable brief, introductory resource. *Core Biblical Studies* fulfill the need for brief, substantive, yet highly accessible introductions to key subjects and themes in biblical studies. In the shifting tides of biblical interpretation, these books are designed to help students locate relevant meanings in conversation with the text. As a first step toward substantive and subsequent learning, the series draws on the best scholarship in order to provide foundational concepts and contextualized information on a broad scope of issues, methods, perspectives, and trends. The thirty-year-long civil war in Sri Lanka which ended in 2009 shook the island-nation. Now there is peace, rapid development - and a new government. But questions remain. What do Tamils and Sinhalese feel about their new country? What are their dreams for the future? Sri Lanka: The New Country is insightful and unusual reportage from the dispassionate eye of a foreign correspondent who covered the bloody conflict for two decades. It is anecdotal narrative at its best: about ordinary Sri Lankans, former Tamil Tigers, meeting LTTE chief V. Prabhakaran, princes, 'secular clergymen', army generals, Tamil Buddhists, Sinhalese Tamils, politicians and sailors wary of ghosts. As the writer traverses Sri Lanka's formerly embattled north and east, internationally stereotypes about the nation are challenged. The book is a tribute to a wonderful people, as they pick up the pieces of their fragmented national identity and get on with building a new country. Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs This is a maintenance and repair manual for the DIY mechanic. The book covers the Mitsubishi Pajero, 1997-2009 models. Moving from the elegant drawing rooms of Lahore to the mud villages of rural Multan, a powerful collection of short stories about feudal Pakistan. An impoverished young woman becomes a wealthy relative's mistress; an electrician on the make confronts his desperate assailant to protect his most prized possession; a farm manager rises far in the world—but his family discovers after his death the transience of power; a maid, who advances herself through sexual favours, unexpectedly falls in love. In these linked stories about the family and household staff of the ageing KK Harouni, we meet masters and servants, landlords and supplicants, politicians and electricians, village women, and Karachi housewives. Part Chekhov, part RK Narayan, these stories are dark and light, complex and humane; at heart about the relationship between the powerful and powerless, bound together in life—and in death. Together they make up a vivid portrait of a feudal world rarely brought alive in the English language. Sensuous, graceful, melancholy, *In Other Rooms, Other Wonders* gives you Pakistan as you have never seen it. It marks the debut of an amazing new talent.
