*Songs about Love and Society Aug 08 2021 Songs about Love and Society show how love can help people feel better about what's wrong in society today. It features a series of newly updated songs originally written in 1994 and 1995 that show how love can help us better deal with the many problems in society today. Then and now, we have problems with crime, junkies, gangs, homelessness, bank fraud, insurance rates, oil spills, forest destruction, and global warming. Plus now we are dealing with a pandemic and collapsing economy. But love can help to take us away from these day to day problems, so that's what the songs in this book feature -- how love can help us feel better and not think about the many things wrong with our world today. These songs include:"I Can't Face Tomorrow Without You Tonight""I'll Put Another Log on the Fire""A Shot in the Dark"The last song concludes with a call to reach out to others who can work to fix the many problems we face. The photos in this book are the same ones that are in a music video of each song. GINI GRAHAM SCOTT, PhD is a writer, publisher, and film producer, who has published over 200 books, 50 for traditional publishers and 150 for her own company Changemakers Publishing, specializing in books on self-help, popular business, and social issues. She also writes, reviews, and ghostwrites books and scripts for clients. She has written and executive produced 10 feature films, documentaries, and TV series.*

*Tomorrow's Church Today Dec 12 2021 In his last interview, the late Italian Cardinal and former Archbishop of Milan, Carlo Maria Martini, said the need for deep reform in the Catholic Church was urgent and long overdue because 'the Church is 200 years behind the times'. The reference to 200 years clearly points to the watershed in European life that the French Revolution and the Enlightenment became. Vatican II was one attempt to meet the challenge of relevance to our times. But its best efforts have been on ice since the late 1970s. Now a new opportunity arrives in the pontificate of Jorge Mario Bergoglio. And the movement he has initiated is evangelical in source and comprehensive in reach. But, as many observers have pointed out, it will not be lasting if it*

*does not lead to sustainable structural change?to reform that accompanies renewal. In Tomorrow's Church Today, five highly qualified commentators focus on what lies ahead for the Church to be reformed if it is to meet the challenges of the 21st Century:*

- o A theologian and historian (Massimo Faggioli) who targets how ministry and leadership can be reshaped authentically for our times;*
- o A journalist and radio host for the Australian Broadcasting Corporation?the ABC?(Geraldine Dougue), writes a candid piece on how she would advise Pope Francis on the state of the Church;*
- o A reporter and analyst with 30 years experience of moves and machinations in the Etenrnal City (Robert Mickens);*
- o A bishop with a lifetime of experience of ministering to the divorced and remarried and the benefit of legal and biblical scholarship to support his approach (Geoffrey Robinson);*
- o A biblical scholar who examines much of what's taken for granted in the governance of the Church and exposes where it is left wanting (Antony Campbell);*
- and o A bishop whose forced 'resignation' exposes the deficiencies of a system of governance devoid of basics?due process and respect for natural rights. But the Catholic Church is not its clerics, scholars and commentators. It is the baptised. Geraldine Doogue is a celebrated Australian broadcaster and commentator whose Introduction speaks for and from the experience of the mass of Catholics.*

*Today's Stoic, Tomorrow's Hero? Feb 02 2021 A wrenching account of one family's five-year battle with what proved to be terminal liver disease, this story explores all aspects of the difficulty in raising a family under such conditions. Written from the point of view of the primary caregiver, the story reveals much about the possible challenges facing the 17,000 families now waiting for a liver transplant in the USA. Many more face other debilitating diseases or the ravages of age. Despite his scientific training to try to understand what is happening, the author is crushed by the medical bureaucracy, and the wild ups and downs of the course of the disease. Having adopted their children, the author struggles with his fundamental values and his conflicting*

*responsibilities to the children and to his ailing wife. This book should help friends and family better understand what a stoic experience the caregiver of one seriously ill may be going through. More importantly, it can show such a lonely individual that what they are going through is not unique, and that they need not be alone. As events proceed through hospice, funeral, and grief, the author looks back on their time together and reflects on the nature of life and love.*

*Russian Active Measures Dec 24 2022 The contributions gathered in this fascinating collection, in which scholars from a diverse range of disciplines share their perspectives on Russian covert activities known as Russian active measures, help readers observe the profound influence of Russian covert action on foreign states' policies, cultures, people's mentality, and social institutions, past and present. Disinformation, forgeries, major show trials, cooptation of Western academia, memory, and cyber wars, and changes in national and regional security doctrines of states targeted by Russia constitute an incomplete list of topics discussed in this volume. Most importantly, through a nexus of perspectives and through the prism of new documents discovered in the former KGB archives, the texts highlight the enormous scale and the legacies of Soviet/Russian covert action. Because of Russia's annexation of Crimea in 2014 and its on-going war in Ukraine's Donbas, Ukraine lately gained international recognition as the epicenter of Russian disinformation campaigns, invigorating popular and scholarly interest in conventional and non-conventional warfare. The studies included in this collection illuminate the objectives and implications of Russia's attempts to*

*ideologically subvert Ukraine as well as other nations. Examining them through historical lenses reveals a cultural clash between Russia and the West in general.*

*China Today, China Tomorrow Jun 18 2022 In this timely book, a group of leading scholars provides a comprehensive assessment of China's polity, economy, and society. Taking the thirtieth anniversary of Beijing's adoption of reform and opening as an occasion to reflect on the course of development over the past three decades, the contributors consider where the country may be going in the future. Just as China has had enormous success in developing its economy, it continues to face equally enormous challenges across a wide variety of issues, including inequality, social protest, energy, the environment, and a resurgence of religion. Authoritative, accessible, and current, this book will be an invaluable resource for all readers interested in the fate of a rising global power.*
