Science, Technology, and Government for a Changing World Mar 25 2020

Presidential Leadership and Public Opinion Jun 20 2022

Jimmy Carter and the Restoration of Presidential Dignity May 08 2021 The office of the President of the United States was plagued by scandals in the early 1970s. When Jimmy Carter ran for office in 1976, the nation was still struggling to process the Vietnam War and Watergate. Questionable presidential decisions prolonged a quagmire

in Asia, Richard Nixon's illegal surveillance broke the people's trust, and Gerald Ford's subsequent pardon of Nixon irrevocably sullied his relationship with the American people. Jimmy Carter sought to be the transparent, trustworthy leader that the nation demanded. Based on archival research and government documents, this book explores the steps Carter took during his presidency and how Congress reacted to them. Though Carter was not elected for a second term, this detailed history makes the case that his legacy has been misrepresented, and that he should not be remembered as a failed president, but as a man who restored dignity to an office burdened by controversy.

Energy Crises Feb 02 2021 The 1970s were a decade of historic American energy crises—major interruptions in oil supplies from the Middle East, the country's most dangerous nuclear accident, and chronic shortages of natural gas. In Energy Crises, Jay Hakes brings his expertise in energy and presidential history to bear on the questions of why these crises occurred, how different choices might have prevented or ameliorated them, and what they have meant for the half-century since—and likely the half-century ahead. Hakes deftly intertwines the domestic and international aspects of the long-misunderstood fuel shortages that still affect our lives today. This approach, drawing on previously unavailable and inaccessible records, affords an insider's view of decision-making by three U.S. presidents, the influence of their sometimes-combative aides, and their often tortuous

relations with the rulers of Iran and Saudi Arabia. Hakes skillfully dissects inept federal attempts to regulate oil prices and allocation, but also identifies the decade's more positive legacies—from the nation's first massive commitment to the development of alternative energy sources other than nuclear power, to the initial movement toward a less polluting, more efficient energy economy. The 1970s brought about a tectonic shift in the world of energy. Tracing these consequences to their origins in policy and practice, Hakes makes their lessons available at a critical moment—as the nation faces the challenge of climate change resulting from the burning of fossil fuels.

Our Endangered Values Apr 26 2020 The Nobel Peace Prize-winning former president and author of Sharing Good Times shares his personal views on moral values as they relate to key issues today, evaluating the controversial and increasing intersection between religious and political arenas. 250,000 first printing.

Empowering the White House Apr 30 2023 On the surface the new president seems to inherit an empty house," Hugh Heclo, a recognized expert on American democratic institutions, has noted. "In fact, he enters an office already shaped and crowded by other people's desires."

Empowering the White House examines how Richard Nixon entered that crowded Oval Office in 1969 yet managed to change it in a way that augmented the power of the presidency and continues to influence into the twenty-first century how his successors have governed. Nixon's White House is perhaps best remembered for the growth in the

size of the staff, which operated under the supposed iron fist of H. R. Haldeman. But more important than size and management style to the character of the Nixon White House were the assigned tasks, complexity, and dynamics of the burgeoning staff. Faced with hostile majorities in Congress and executive branch careerists assumed to be committed to a Democratic agenda, Nixon sought to control his political fate by engaging more actively than earlier presidents in public relations and the mobilization of support. At the command and under the control of the Oval Office, the staff carried out assignments designed to fulfill Nixon's aims. This theoretically informed and well-researched study explains how Nixon changed and expanded the institutionalized presidency and how that affected the Ford and Carter administrations. Nixon ushered in a new stage in the modern presidency by organizing and using his increasingly complex staff in new ways that have persisted beyond the 1970s to this day. To a greater degree than any predecessor, Nixon systematized outreach, legal advice, and policy formulation. His White House staffing, then, has come to be regarded as a "standard model" that influences incoming presidents regardless of party affiliation. Leavening this organizational study are revealing accounts of how the Nixon, Ford, and Carter staffs operated behind the scenes in the West Wing. Anyone needing to know how the White House worked during those presidencies—or how it has worked since—will find this book invaluable.

Carter Vs. Ford Feb 14 2022

The Real Jimmy Carter Jan 22 2020 This book reveals a man who has been given a dangerously free pass by historians, but who in reality is not only a failed ex-president, but as vindictive as he is egotistical, and a self-righteous busybody who leaves diaster in his wake.

Politics Changes : The Administrations of Nixon, Ford and Carter | Government Book Grade 7 | Children's Government Books Jan 28 2023 What changes did America go through from 1969 to 1981? We'll know as we go through the contents of this book. In particular, this book will discuss the political climate during the three administrations. Take into consideration the evolving culture and civil rights development happening during the said period of time. Go ahead and start reading today.

Nixon, Ford and Carter Feb 26 2023 Discusses the political lives and times of Presidents Richard M. Nixon, Gerald R. Ford and Jimmy Carter, their administrations, and the events which occurred during their tenures.

The Election of the Evangelical Oct 01 2020 "From the perspective of the early twenty-first century, the 1976 election looks like an odd anomaly: a bygone moment when the evangelical candidate with strong support from his fellow Southern Baptists was a Democrat and the Republican candidate was a social moderate whose wife loudly proclaimed her support for Roe v. Wade and who was able to win culturally liberal states such as Oregon,

California, and New Jersey, even while losing Ohio, Texas, and nearly the entire South. But the 1976 election was a pivotal turning point: a harbinger of a new culturally polarized politics that differentiated the parties according to values-based ideologies. Even though both nominees were centrists, both parties were pulled further to the extremes during the election year, setting up the divides of the 1980s and beyond. The story immediately following 1976 was that a self-described "evangelical Christian" and improbable dark-horse candidate from the Deep South won the presidency, which led Newsweek magazine to call 1976 the "year of the evangelical." But what people missed at the time was the effect that this election had on the parties. The Election of the Evangelical traces this watershed moment by doing what no other study of the 1976 election has done: it explains how and why the primary campaigns and the events leading up to the general election reshaped both the Democratic and Republican parties along lines that reflected the nation's cultural divisions"--

Nixon, Ford & Carter Aug 11 2021 An in-depth look at the American presidents Nixon, Ford and Carter.

U.S. Foreign Policy Toward Communist China in the 1970's Nov 25 2022

Always a Reckoning, and Other Poems Nov 13 2021 A collection of poetry by the former president shares Carter's private meditations and memories about his youth, family, friends, and politics. 75,000 first printing. \$75,000 ad/promo. Tour.

The Great Debates Dec 03 2020 By conservative estimate

55 per cent of the adult population watched or listened to all the Kennedy-Nixon television debates of 1960, 80 per cent saw or heard at least one. In this volume thirty experts in communications, political analysis, and opinion research address themselves to the questions raised by this unprecedented event. Following Harold D. Lasswell's introduction, which sets the stage by surveying the challenges which face the student of communications and political behavior as a result of the debates, the articles explore the background, circumstances, and effects of the debates in great detail.

The Press And The Carter Presidency Mar 18 2022

*Journalists offer a daily dose of commentary sizing up the president's successes and failures, profoundly influencing the public's perceptions of presidential performance. This study shows how leading journalists developed their perceptions of Gerald Ford, the criteria they employed in evaluating his presidency, and the nature and impact of their assessments of his leadership. In *The Press and the Ford Presidency*, political scientist Mark J. Rozell uses a qualitative content analysis to investigate the national press coverage of the Ford administration. He explores the complicated relationship between what presidents say and do and how their words and deeds are portrayed in the elite press, demonstrating not only how press valuations vary*

over time, but also how certain impressions of a president take hold and resist change, even in light of conflicting evidence. Rozell shows that a president and presidential image-crafters cannot script their own press coverage and expect journalists dutifully to follow the White House plan. Journalists have identifiable expectations of presidential leadership and performance. Indeed, Gerald Ford consistently fell short of these expectations, leading the media and, consequently, the public to resort to humiliating caricature when describing the president and his programs. The Press and the Ford Presidency will be of special value to schools of the presidency mass media and politics, political communications, and political leadership. In addition, since the author's research included interviews with numerous numbers of Ford's White House staff, the book will appeal to scholars interested in oral history and to historians of the Watergate era and the Ford years.

A Companion to Gerald R. Ford and Jimmy Carter Mar 30 2023 With 30 historiographical essays by established and rising scholars, this Companion is a comprehensive picture of the presidencies and legacies of Gerald Ford and Jimmy Carter. Examines important national and international events during the 1970s, as well as presidential initiatives, crises, and legislation Discusses the biography of each man before entering the White House, his legacy and work after leaving office, and the lives of Betty Ford, Rosalynn Carter, and their families Covers key themes and issues, including Watergate and the pardon of Richard Nixon, the Vietnam War, neoconservatism and the rise of the New Right, and

the Iran hostage crisis Incorporates presidential, diplomatic, military, economic, social, and cultural history Uses the most recent research and newly released documents from the two Presidential Libraries and the State Department

Camelot's End Jul 30 2020 From a strange, dark chapter in American political history comes the captivating story of Ted Kennedy's 1980 campaign for president against the incumbent Jimmy Carter, told in full for the first time. The Carter presidency was on life support. The Democrats, desperate to keep power and yearning to resurrect former glory, turned to Kennedy. And so, 1980 became a civil war. It was the last time an American president received a serious reelection challenge from inside his own party, the last contested convention, and the last all-out floor fight, where political combatants fought in real time to decide who would be the nominee. It was the last gasp of an outdated system, an insider's game that old Kennedy hands thought they had mastered, and the year that marked the unraveling of the Democratic Party as America had known it.

Camelot's End details the incredible drama of Kennedy's challenge -- what led to it, how it unfolded, and its lasting effects -- with cinematic sweep. It is a story about what happened to the Democratic Party when the country's long string of successes, luck, and global dominance following World War II ran its course, and how, on a quest to recapture the magic of JFK, Democrats plunged themselves into an intra-party civil war. And, at its heart, *Camelot's End* is the tale of two extraordinary and deeply flawed men: Teddy Kennedy, one of the nation's greatest

lawmakers, a man of flaws and of great character; and Jimmy Carter, a politically tenacious but frequently underestimated trailblazer. Comprehensive and nuanced, featuring new interviews with major party leaders and behind-the-scenes revelations from the time, Camelot's End presents both Kennedy and Carter in a new light, and takes readers deep inside a dark chapter in American political history.

The Little Baby Snoogle-Fleejer Aug 30 2020 “Once upon a time there was a little boy named Jeremy who lived with his mother in a small house near the sea. His mother earned a bare living for the two of them by washing clothes for some of the wealthy families in their town. Jeremy loved her very much.” So begins the enchanting fairy tale president Jimmy Carter first spun for his daughter Amy as a child. Originally published in 1995, this favorite family story has been joined with Amy Carter’s vibrant illustrations to bring to life a secret friendship that produces unexpected rewards when tragedy looms in a young boy’s life.

Facts about the Presidents, January 1974-March 1977 Sep 23 2022

Gerald R. Ford Feb 23 2020 The "accidental" president whose innate decency and steady hand restored the presidency after its greatest crisis When Gerald R. Ford entered the White House in August 1974, he inherited a presidency tarnished by the Watergate scandal, the economy was in a recession, the Vietnam War was drawing to a close, and he had taken office without having been elected. Most observers gave him little chance of success,

especially after he pardoned Richard Nixon just a month into his presidency, an action that outraged many Americans, but which Ford thought was necessary to move the nation forward. Many people today think of Ford as a man who stumbled a lot--clumsy on his feet and in politics--but acclaimed historian Douglas Brinkley shows him to be a man of independent thought and conscience, who never allowed party loyalty to prevail over his sense of right and wrong. As a young congressman, he stood up to the isolationists in the Republican leadership, promoting a vigorous role for America in the world. Later, as House minority leader and as president, he challenged the right wing of his party, refusing to bend to their vision of confrontation with the Communist world. And after the fall of Saigon, Ford also overruled his advisers by allowing Vietnamese refugees to enter the United States, arguing that to do so was the humane thing to do. Brinkley draws on exclusive interviews with Ford and on previously unpublished documents (including a remarkable correspondence between Ford and Nixon stretching over four decades), fashioning a masterful reassessment of Gerald R. Ford's presidency and his underappreciated legacy to the nation.

Humor and the Presidency May 27 2020 The former President's favorite funny stories and anecdotes are accompanied by political cartoons and political humor by Art Buchwald, Chevy Chase, Mark Russell, and Bob Orben, as well as sharp-witted politicians

Gerald R. Ford Sep 11 2021 A biography of the thirty-

eighth president of the United States, who became president upon the resignation of Richard Nixon. Includes Internet links to Web sites, source documents, and photographs related to Gerald Ford.

"Civil Dissent in the USSR Dec 15 2021

Faith and Freedom Mar 06 2021 President Carter has written importantly about his spiritual life and faith. In this book, he offers a personal consideration of "moral values" as they relate to the important issues of the day. He puts forward a passionate defense of separation of church and state, and a strong warning of where the country is heading as the lines between politics and rigid religious fundamentalism are blurred. He reacts to some trends involving both the religious and the political worlds as they have increasingly become intertwined, and including some of the most crucial and controversial issues of the day--frequently encapsulated under "moral values." They include preemptive war, women's rights, terrorism, civil liberties, homosexuality, abortion, the death penalty, science and religion, environmental degradation, nuclear arsenals, America's global image, fundamentalism, and the melding of religion and politics. Sustained by his faith, Carter assesses these issues in a forceful and unequivocal but balanced and courageous way.--From publisher description.

Presidents from Nixon Through Carter, 1969-1981 Oct 25 2022 This invaluable student resource provides an historical overview on the most controversial issues of the Nixon, Ford, and Carter administrations, allowing the

presidents and their opponents to speak for themselves through primary documents. Also included are a timeline, bibliographies, and an index. When Richard Nixon was elected president in 1968, the United States was mired in Vietnam. In 1981, as Jimmy Carter was preparing to leave office, American citizens were hostages in Iran. The intervening years were no less turbulent. Nixon was forced to resign, the United States boycotted the Olympic games, an energy crisis struck the country, and skyrocketing rates of inflation and stagnating growth hampered the economy. The nation was torn over the forced desegregation of schools, Ford's pardon of Nixon, the relinquishment of the Panama Canal to Panama, and a host of environmental issues.

Why Not the Best? Nov 01 2020 In this autobiography, Jimmy Carter details the youth and experiences that led him to seek the highest office in the land. He describes his idyllic childhood, his naval career, his strong Christian underpinnings, and the values of his mother and father.

Everything to Gain Jul 10 2021 For Jimmy and Rosalynn Carter, the transition from the White House to Plains, Georgia, was painful. EVERYTHING TO GAIN is their warm and unpretentious account of their successful adjustment to a new life, full of encouragement and insight for any couple wanting to renew their commitment to each other and to life.

Presidents Ford, Carter, and Reagan Dec 27 2022 Students will learn fascinating facts about Presidents Ford, Carter, and Reagan, as well as significant events during their lives and terms. Use this creative resource to support

your lessons and bring these important historical figures to life.
