Walther Pistols Oct 01 2020 While the PP and PPK were intended for police work, the Walther P 38 was produced for the Germany military; all three pistols have garnered a formidable international reputation since the 1930s. The innovative Walther PP (Polizeipistole), a double-action semi-automatic pistol intended for the law-enforcement market, became available in 1929 and went on to arm the police of several European countries in the 1930s. Its smaller cousin the PPK, more readily concealed for undercover work but with reduced magazine capacity, was produced from 1931. Intended to replace the P 08 Luger, the Walther P 38 was issued from 1940 and equipped the armed forces of Germany and other countries during and after World War II, but never entirely replaced the Luger in German service. All three pistols went on to have lengthy and varied service across the world after 1945. Both the PP and the PPK remain in production today, while the P 38 re-emerged as the P1 and equipped West German forces from 1963 until 2004, when it was replaced by the P8. In this study, noted authority John Walter assesses the origins, development, use and legacy of these three high-profile semi-automatic pistols, alongside other Walther variants, such as the tiny .25 ACP Modell 9.

The World's Assault Rifles Apr 30 2023 Originally published: The world's assault rifles and automatic carbines / by Daniel D. Musgrave and Thomas B. Nelson, 1967.

Guns Galore Mar 30 2023 Guns Galore is a thriller based in London during 1970 to 1990. The main markets for weapons dealers are Europe with North America, then they search the world for more surplus guns to buy and sell. Dealing has many risks. Although Guns Galore is mainly a non-fiction work, some dramatisation has been added to highlight the effects of shootings, murder, and kidnapping. Working for Sam Cummings of Interarms fame, the author turns into a dealer with him and his rival Bill Sucher of Century Arms both based in the USA. This leads to a world of international arms dealing. International armouries must be sourced to find weapons. These hold mainly obsolete WW2 vintage guns. German and American weapons are highly sought after, followed by those of British manufacture. The reader is they come onto the market and become appreciating assets. Fraud of various types is often used by dealers and in-country agents are required to deal with governments. Commissions are paid to gain advantage, some hidden in slush funds. It's a mine field. Security services monitor dealers. Some will be used in secret shipments to hide government involvement with fake end user certificates. In Guns Galore, when Russia invades Afghanistan, President Carter supplies 70,000 WW2 rifles. Russia bans all weapon sales from the Eastern bloc, so other sources of supply must be found.

It's Legal but It Ain't Right Apr 06 2021 Many U.S. corporations and the goods they produce negatively impact our society without breaking any laws. We are all too familiar with the tobacco industry's effect on public health and health care costs for smokers and nonsmokers, as well as the role of profit in the pharmaceutical industry's research priorities. It's Legal but It Ain't Right tackles these issues, plus the ethical ambiguities of legalized gambling, the firearms trade, the fast food industry, the pesticide industry, private security companies, and more. Aiming to identify industries and goods that undermine our societal values and to hold them accountable for their actions, this collection makes a valuable contribution to the ongoing discussion of ethics in our time. This accessible exploration of corporate legitimacy and crime will be important reading for advocates, journalists, students, and anyone interested in the dichotomy between law and legitimacy. Nikos Passas is Professor in the College of Criminal Justice at Northeastern University. Neva Goodwin is Co-director of the Global Development and Environment Institute at Tufts University.
