Everything you need to completely restore your 1947-1955 first series Chevy pickup to better-than-new condition is shown in complete detail! The Advance Design era (1947-1955) was historic for Chevrolet, topping all the production numbers every year they were in production. And for good reason. The post-World War II economy demanded a tough and well-engineered solution for this growing economy. Selling more than 2.5 million units during this era, Chevrolet quickly surpassed and controlled the light-truck market with style, utility, and logical engineering. This era has been overlooked for long enough, and Deve Krehbiel, a well-known restoration expert from DevesTechNet.com who specializes in these trucks, puts his 40 years of experience restoring nothing but Advance Design trucks into an extensive and complete single volume. With more than 500 photos and detailed instruction for every aspect of a proper restoration, this book will be the restorer's best friend. Deve's companion book, Chevrolet Inline 6 Engine: 1929-1962 (SA455), explains in full detail the engine aspects of your project. The Advance Design Chevy pickup is one of the most popular and highly prized vehicles at any venue. The author's hope is that this book will give you the confidence and the knowledge to put your

old Chevy truck back on the road in style. There is just nothing more interesting and more inviting than an old Chevy truck! She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's

founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series *Ant Anstead Master Mechanic*, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal. **AUTO BODY REPAIR TECHNOLOGY**, Sixth Edition, features extensive new and updated material reflecting the latest automotive technology and current industry best practices. In addition to incorporating current ASE Education
