NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER "Sprint offers a transformative formula for testing ideas that works whether you're at a startup or a large organization. Within

five days, you'll move from idea to prototype to decision, saving you and your team countless hours and countless dollars. A must read for entrepreneurs of all stripes." --Eric Ries, author of The Lean Startup From three partners at Google Ventures, a unique five-day process for solving tough problems, proven at more than a hundred companies. Entrepreneurs and leaders face big questions every day: What's the most important place to focus your effort, and how do you start? What will your idea look like in real life? How many meetings and discussions does it take before you can be sure you have the right solution? Now there's a surefire way to answer these important questions: the sprint. Designer Jake Knapp created the five-day process at Google, where sprints were used on everything from Google Search to Google X. He joined Braden Kowitz and John Zeratsky at Google Ventures, and together they have completed more than a hundred sprints with companies in mobile, e-

commerce, healthcare, finance, and more. A practical guide to answering critical business questions, *Sprint* is a book for teams of any size, from small startups to Fortune 100s, from teachers to nonprofits. It's for anyone with a big opportunity, problem, or idea who needs to get answers today. The first restoration guide for 4th-generation Corvettes, detailing correct parts, finishes, options, and trim pieces for all models produced from 1984 to 1996. This comprehensive update offers practical advice for professionals working in neuropsychology with older adults. Focusing on fundamentals, common issues, special considerations, and late-life cognitive disorders, respected names in this critical specialty address a wide range of presenting problems and assessment, diagnostic, and treatment concerns. Throughout, coverage pays keen attention to detail, bringing real-world nuance to large-scale concepts and breaking down complex processes into digestible steps. And like its

predecessor, the new Handbook features recommendations for test batteries and ends each chapter by extracting its "clinical pearls." A sampling of the topics covered: • Assessment of depression and anxiety in older adults. • The assessment of change: serial assessments in dementia evaluations. • Elder abuse identification in older adults. • Clinical assessment of postoperative cognitive decline. • Cognitive training and rehabilitation in aging and dementia. • Differentiating mild cognitive impairment and cognitive changes of normal aging. • Evaluating cognition in patients with chronic obstructive pulmonary disease. This Second Edition of the Handbook on the Neuropsychology of Aging and Dementia offers a wealth of expert knowledge and hands-on guidance for neuropsychologists, gerontologists, social workers, and other clinicians interested in aging. This can be a valuable reference for those

studying for board certification in neuropsychology as well as a resource for veteran practitioners brushing up on key concepts in neuropsychology of age related disorders.
