Indiana: Reprinted Publishing LLC, 2012. Original Publishing: Bowen, T. J. (Thomas Jefferson). Grammar And Dictionary Of The Yoruba Language: With An Introductory Description Of The Country And People Of Yoruba, . Washington: Smithsonian Institution, 1858. Subject: Yoruba Language Grammar Based upon the nineteenth century standard work on the Yoruba language, and first ever English-Yoruba, Yoruba-English dictionary, this new edition has been revised and enlarged considerably. The dictionary contains about 50,000 references and translations; Yoruba pronunciation guidance; examples of how words are used; contemporary meanings and interpretations; and reference to grammatical usage and parts of speech. There is also an extensive list of commonly occurring birds, plants and trees, translated from Yoruba into English alongside their botanical equivalents. Anagó: vocabulario lucumí. El yoruba que se habla en Cuba, de Lydia Cabrera, es junto al Catauro de cubanismos de Fernando Ortiz uno de los más completos vocabularios, o diccionario, de las lenguas de origen africano habladas en Cuba. "Al terminar la lectura de este Vocabulario Lucumí, me he preguntado si no ha sido escrito por un hada, pues Lydia Cabrera ha logrado esta extraña metamorfosis, la de transmutar un simple léxico en una fuente de poesía. Lo mismo que alcanzó a hacer en El monte de un herbario de plantas medicinales o mágicas, un libro extraordinario en el que las flores secas se convierten en danzas de jóvenes arrebatadas por los dioses, y en el que de las hojas recogidas se desprende todo el perfume embrujador de los trópicos. Aquí, como alas de mariposas aún trémulas, están clavadas, palabras tras palabras, frase Lucumí y con ellas todo un mundo maravilloso, azul, púrpura y ébano para despertar y vibrar ante el lector, cuando lo abra. Pero este libro que llamo, a pesar de su título: un libro de poesía, es también, bien entendido, y ante todo, un libro de ciencia. La poesía está en él como flor de ciencia. No soy un especialista de lenguas africanas y no hablo como lingüista, de esta obra. No dudo que un hombre como Joseph H. Greenberg, que ha escrito un artículo tan pertinente como "An Application of New World evidence to an African Linguistic Problem", u otros lingüistas preocupados por el método comparativo, encuentren en la obra de Lydia Cabrera una abundancia de datos de la mayor

importancia para la fonética, tanto como para el estudio del posible cambio de los sentidos de las palabras cuando pasan de un grupo social a otro. Aunque los vocabularios de que disponemos en el Brasil son menos ricos, la comparación, la pronunciación de las palabras africanas en dos medios diferentes, no dejará de sugerirles observaciones interesantes, ya que pueden servir para conocer mejor las comunidades originarias de los negros transportados como esclavos." Roger Bastide

La religion yoruba tiene sus origenes en la tribu del mismo nombre, que duro aproximadamente doce siglos. El trafico de esclavos permitio que sus habitantes fueran transportados a America, a donde llevaron su religion, que se fundio con el catolicismo para dar lugar a otro de sus nombres: santeria.. Actualmente es un credo con un gran numero de devotos, por lo cual surge este libro, que presenta un glosario de terminos yoruba, con cientos de palabras y frases religiosas y folcloricas."
