A widow in her mid-thirties, Alison has been in mourning for two years. She lives in West Virginia with her sister and brother-in-law, and they are urging her to get on with her life and move back home. Alison promises to leave-just as soon as she renovates a nearly ruined 1976 Corvette rusting in their garage. Problem is, she doesn't know the first thing about cars, and the townspeople are reluctant to have a woman messing with automotive parts. The 4 1/2 litre Bentley is one of the most iconic pre-war cars, and the super charged 4 1/2

litre “blower” Bentley is today one of the most sought-after and most valuable cars for collectors. The “Bentley Boys” won several high-profile races in Bentleys, and Woolf Barnato and Bernardo Rubini won with a 4 1/2 litre car in 1928. Five supercharged “Blower” Bentleys were built to compete at Le Mans, but the car’s Achilles Heel was its reliability, and it never won the 24-hour race. This Manual provides details of the 4 1/2 litre unsupercharged and “Blower” Bentley racing cars, detailing their period racing history, anatomy and engineering, and provides an insight into owning, maintaining, and running an example of this iconic car today. Illustrated with period photographs and design and engineering material, plus photographs of restored examples in use today.
