skills, to foster understanding of the many ways that people share and interact with music, and to assess each student's continued musical growth. Comprehensive musicianship While there are differing opinions on starting systems, directors agree that the music itself is the most important component of a method. Every exercise in Measures of Success has been sequenced to promote optimal development through great musical content. Creative titles stimulate the imagination, musicianship challenges promote expressive playing, and special attention is paid to important concepts such as phrasing. In addition, students will enjoy full band arrangements and original compositions by renowned composers Brian Balmages and Robert Sheldon. Directors will quickly discover that this performance-based method also introduces students to critical listening, composing, conducting, music history, and other elements that bring about a deeper understanding of music. --

With step-by-step instruction and a progression of specially written pieces, the fundamental elements of good technique are introduced alongside the rhythmic subtleties of jazz. Improvisation is encouraged from an early stage and is given direction through the systematic study of scales and arpeggios and advice on ear-training and chord patterns. With supplementary suggestions for listening and reading, and an Appendix containing all the chord progressions for 'live' accompaniment of the tunes, The Jazz Methods are ideally suited to both students working alone and those learning with a

teacher. "John O'Neill has a solid understanding of jazz and how it can be taught. I highly recommend his educational jazz materials." (Jamey Aebersold) "...a rare opportunity for a new player (or a more experienced one) to develop a really musical facility. A rare addition to the jazz improvising library."
