This manual has been prepared in order to assist state agencies in the filing of regulations. The content has been a collective effort of the offices of the Secretary of Administration, the Attorney General, and the Secretary of State, as well as staff for the legislative Joint Committee on Administrative Rules and Regulations. The 2014 revision of the Policy and Procedure Manual for the Filing of Kansas Administrative Regulations includes references to amendments to the Rules and Regulations Filing Act through the 2014 Legislative Session. Policymakers and program managers are continually seeking ways to improve accountability in achieving an entity's mission. A key factor in improving accountability in achieving an entity's mission is to implement an effective internal control system. An effective internal control system helps an entity adapt to shifting environments, evolving demands, changing risks, and new priorities. As programs change and entities strive to improve operational processes and implement new technology, management continually evaluates its internal control system so that it is effective and updated when necessary. Section 3512 (c) and (d) of Title 31 of the United States Code (commonly known as the Federal Managers' Financial Integrity Act (FMFIA)) requires the Comptroller General to issue standards for internal control in the federal government.
