Jasmine has spent five years underground, locked in a secret government bunker. Outside, the world has gone to hell, a mysterious virus killing all but 1 in 20 of the world's population. It's enough to drive anyone mad - but Jasmine's crazier than most. The cure she was working on had an unexpected side effect, psychotic symptoms which only powerful drugs can suppress. Jasmine's rescuers, the pirate rulers of the New Caribbean, don't care. They need Jasmine's help to discover what it is that has turned the inhabitants of Cuba into rabid killers. Jasmine's quest to find a cure for this new plague, as well as for her own madness, draws her across the fractured continent of America and into the darkest recesses of her own past. America's citizens want children to receive a high-quality education in clean, orderly and safe schools staffed with quality teachers, support staff and courageous educational leaders. In many communities, such a school experience is something the students will never have. Why? One or more members of the governing board desire to use their elected position for personal gain. They are Exploiters. Some desire to exploit a little. Others crave total domination of the school system and become the petty tyrants of education. Whether the exploitation is minimal or extreme, exploitative board members are highly detrimental to the effectiveness of the local school system. They destroy teamwork, morale, careers and many times entire school systems. They steal a high-quality education from children. The predominant governance structure of public education dictated by law is seriously flawed. What thousands of citizens and educators strongly desire for their schools can be discarded and replaced with the unscrupulous will of one individual. Exploitive school board members must be understood and stopped. The governance structure of public education must be changed.
