*Virtual Clinical Excursions 2. 0 to Accompany Fundamental Concepts and
Skills for Nursing Jul 07 2021 This groundbreaking workbook/CD-ROM
package brings learning to life in a "virtual" hospital setting. Each lesson has
a textbook reading assignment with corresponding CD-ROM and workbook
activities. The workbook acts as a map, guiding students through the CD-
ROM as they care for patients in the virtual hospital, and helping them make
connections between what they experience through the CD-ROM and what
they've learned in their textbook. Each virtual hospital visit allows the student
to access realistic information essential to patient care. The result is a true-to-
life, hands-on learning experience. The learning environment: Offers multiple
information sources that can be examined and evaluated to understand how
and why care is implemented. Has meaningful real-world problems that place
the student in nursing scenarios where they can set priorities for care, collect
data, analyze and interpret data, and reach conclusions about complex
problems. The workbook includes lessons that complement the content in the
textbook and guide the student through the multi-floor virtual hospital. The
multi-floor virtual hospital includes a Surgery Department, Intensive Care
Unit, and Medical-Surgical/Telemetry Floor. Content is included on patient
care, patient records, case conference, and clinical review to engage the user
in the subject matter and allow for further exploration. The CD-ROM offers
users the opportunity to visit each patient and access realistic information
essential for patient care, including charts, medication administration
records, electronic patient records, video streaming of dialogue with nurses,*

and other related patient materials. A clock icon appears under each lesson, estimating how much time it will take to complete. A linkage icon alerts the user whenever they are about to begin an exercise that connects with previous lessons. TOC/Index matches chapters from the textbook with patients and lessons in the workbook.

Fundamentals of Nursing: Clinical Skills Workbook Jun 06 2021 The *Fundamentals of Nursing: Clinical skills workbook* will support Potter & Perry's *Fundamentals of Nursing 3rd edition* in 2012 by providing a separate clinical skills workbook, accompanied by a suite of Australian clinical skills videos. The workbook features the nursing skills from the text, accompanied by an overview at the beginning of each skill set and supported by clinical skill competency check lists aligned with the National Competency Standards for the Registered Nurse. The Bondy rating scale has been incorporated to provide clearly defined levels of competency and an opportunity for reflection is included at the end of each skill to encourage meaningful learning. A suite of clinical skills videos are available online to support the workbook. Ideal for viewing in class, the videos also provide students with a valuable tool for revision prior to assessment. The trusted Step-by-Step approach for all skills as used in Potter and Perry's *Fundamentals of Nursing, 4th ANZ edition* by Crisp, Taylor, Douglas and Rebeiro Competency checklists aligned to the National Competency Standards for the Registered Nurse for Australia and New Zealand The Bondy rating scale provides a valuable tool for assessment Accompanied by a suite of Australian nursing clinical skills videos via the Evolve platform 11 NEW skills including 8 health assessment skills: Skill 27-1 Abdominal health assessment Skill 27-2 Musculoskeletal health assessment Skill 27-3 Cardiovascular health assessment Skill 27-4 Respiratory health assessment Skill 27-5 Neurological health assessment Skill 27-6 Mental Health Skill 27-7 Body systems assessment Skill 41-2 Pain health assessment *Test Manual to Accompany the Fifth Edition of Basic Skills in Sports for Men and Women* Feb 14 2022
