The Secret Code of Success Sep 27 2020 Americans spend more than \$11 billion a year on self-help products—everything from books to diet pills to career coaches to seminars. So why—with all this time, money, and energy being spent—are so few people living the life they really want? Why are millions of smart, talented, motivated people still going through life with one foot on the brake? Here's the real Secret: You don't need any more how-to-succeed information to reach your full potential. The problem isn't lack of motivation or lack of information. The real problem is that most people focus on the "how-to" aspects of success taught by traditional self-help programs, without coming to terms with what productivity expert Noah St. John calls your "head trash"—the subconscious, emotional roadblocks that prevent people from acting on their real hopes, dreams, and ambitions. In this groundbreaking book, based on work with thousands of clients around the world, Noah St. John has created a remarkable, step-by-step approach that helps you achieve long-term happiness, success, and wealth. In The Secret Code of Success, you will learn how to: Eliminate the causes of self-sabotage and fear of success Allow yourself to make more money Remove stress while dramatically increasing personal productivity Improve relationships with coworkers, family, and friends Experience enhanced feelings of happiness, connection, and love The Secret Code of Success shows that, when it comes to success, the conscious mind is exactly the wrong place to start. It's only when we first conquer the self-sabotage of our subconscious (which accounts for 90 percent of our behavior) that we can truly begin to enjoy a life filled with success. This insight is at the core of The Secret Code of Success and leads to Noah's revolutionary 7-step method for eliminating these psychological obstacles. True financial freedom and personal success is possible at last! The Secret Code of Success shows you how to get your foot off the brake and start living the life you deserve.

However, there are some things that happen to us that we feel happened as a result of a coincidence, not knowing it is the law of attraction that is at work. For instance, have you ever thought of calling a friend, and the friend calls you around that time? Or have you ever thought of picking up your phone, and your phone rings at that instance? These experiences are not coincidences; they are a result of the law of attraction. We get more of what we focus on in life. That is why you need to get more creative with your thoughts. In this book, I am going to show you how you can consciously and deliberately attract good things into your life by aligning your thoughts in the right way. Focusing more on things that make you happy increases your chances of attracting things that make you happy. The other side of this is the negative side which is when you focus on things you are not happy about, you tend to attract things that will make you sad. Whatever you consistently focus on you become. Whatever you consistently do not focus on - you become as well. Each is the direct result of the quality of questions you habitually ask yourself each day. If you can ask yourself better questions, then you will get better answers. Sometimes the problem is simply we don't have the right question to ask ourselves. This book is about asking those questions: new ones and better ones and to find new great solutions for our lives. Each question is designed to inspire you and become the stepping stone to making new and better decisions in your life and deliver the progress, the success and fulfillment you desire. This book is also about offering you new solutions to the questions. These solutions are habits. As Anthony Robbins says: "show me your habits and I will show you your destiny." What you consistently do every day and what you consistently do in private or in public, is what you will be rewarded with. By asking the right question to determine what you really want will lead you to the right answers and habits. You can read the entire book all at once and start a new habit each week. You can cherry pick throughout the book to whatever inspires your interest. You can work on any combination you desire - it all depends on your motivation for change. We do recommend that each new habit is practiced diligently for an entire week - 7 days to determine if a new habit is one that you will like to continue. Give yourself the chance to fully experiment and experience a new habit because whatever new habit you choose, it will change the way you live your life. If you are a super achiever - then work on three new habits at once - not more. If you want to achieve even more than that - then dive into a personal growth program. Once you decide on a habit you like - keep doing it as it will serve you well.
