Dawn Patrol Feb 01 2021 From the bestselling author of Savages (now an Oliver Stone film). As cool as its California surfer heroes, Don Winslow delivers a high velocity, darkly comic, and totally righteous crime novel. Every morning Boone Daniels catches waves with the other members of The Dawn Patrol: four men and one woman as single-minded about surfing as he is. Or nearly. They have "real j-o-b-s"; Boone, however, works as a PI just enough to keep himself afloat. But Boone's most recent gig-investigating an insurance scam—has unexpectedly led him to a ghost from his past. And while he may have to miss the biggest swell of his surfing career, this job is about to give him a wilder ride than anything he's ever encountered. Filled with killer waves and a coast line to break your heart, The Dawn Patrol will leave you gasping for air.

Dead Men Don't Tell Tales Dec 19 2019 Guy Martin can't sit still. He has to keep pushing - both himself and whatever machine he is piloting - to the extreme. He's a doer, not a talker. That applies whether Guy's competing in a self-supported 750-mile mountain bike race across Arizona, or trying to reach 300mph in a standing mile on the 800-horsepower motorbike he built in his shed. And during his TV adventures, travelling through Japan, winning records for the world's fastest tractor, re-creating the famous Steve McQueen Great Escape jump, discovering the toil and sacrifice of the D-Day landings and trying to cut the mustard as a Battle of Britain pilot. Guy's become a dad now and he's hoping that one day his daughter will grow up to be a better welder than he is. Oh, and he's still getting up at 5am to work on trucks in for service or to be out on his tractor, working the Lincolnshire land he's always called home. This is Guy Martin's latest book, in his own words, on the last four years of his life that make the rest of us look like we're in slow motion. We're here for a good time, not a long time. To Guy, if it's worth doing, it's worth dying for.

Off Balance Mar 14 2022 In this searing and riveting New York Times bestseller, Olympic gold medalist Dominique Moceanu reveals the dark underbelly of Olympic gymnastics, the true price of success...and the shocking secret about her past and her family that she only learned years later. At fourteen years old, Dominique Moceanu was the youngest member of the 1996 US Women's Olympic Gymnastics team, the first and only American women's team to take gold at the Olympics. Her pixyish appearance and ferocious competitive drive quickly earned her the status of media darling. But behind the fame, the flawless floor routines, and the million-dollar smile, her life was a series of challenges and hardships. Off Balance vividly delineates each of the dominating characters who contributed to Moceanu's rise to the top, from her stubborn father and long-suffering mother to her mercurial coach, Bela Karolyi. Here, Moceanu finally shares the haunting stories of competition, her years of hiding injuries and pain out of fear of retribution from her coaches, and how she hit rock bottom after a public battle with her parents. But medals, murder plots, drugs, and daring escapes aside (all of which figure into Moceanu's incredible journey), the most unique aspect of her life is the family secret that Moceanu discovers, opening a new and unexpected chapter in her adult life. A mysterious letter from a stranger reveals that she has a second sister—born with a physical disability and given away at birth—who has nonetheless followed in Moceanu's footsteps in an astonishing way. A multilayered memoir that transcends the world of sports, Off Balance will touch anyone who has ever dared to dream of a better life.

Hang on and Fly Mar 02 2021 Passenger planes are crashing three and four times a month in 1951 just as Americans are beginning to fly. Then, a loaded plane disappears in the night and can't be found. Panic and frustration reach all the way to the White House. Twenty-six are killed in the most spectacular crash that no one heard on a mountain frosted with snow and fog. Fourteen survivors are the largest group of plane crash victims to be lost and stranded in North America. The stewardess holds a baby in her arms until it dies. They huddle beneath a parachute tent, arguing over food and how to get out. One commits a dastardly criminal act upon the dead. When rescuers don't arrive after 40 hours, a hero passenger stumbles out of the snow-filled woods to find help from a farmer's wife with a secret deadly threat of her own. Distracted by blazing headlines, crash tourists, and a federal probe, simple farm families are intertwined with urban crash survivors leading up to more tragedy on the plane crash mountain. Hang on and Fly is a dramatic tale of the most incredible year of aviation disasters that made Americans plane crash jumpy. Passengers in rope seat belts are eaten by sharks; a pilot with heart disease flies into a hill; three crashes close a major airport; a lost pilot mistakes Lake Ontario for the Atlantic. It's the origin of our belief that we're safest in the back of the plane. It's the beginning of modern plane crash investigations, inspired Hollywood's airplane disaster movie genre, and caused safety regulations we all take for granted today. Journalist Tim Lake tells the gripping story of America's first budget airlines as only he can. His family was there.

Nature Poem Mar 22 2020 A book-length poem about how an American Indian writer can't bring himself to write about nature, but is forced to reckon with colonial-white stereotypes, manifest destiny, and his own identity as an young, queer, urban-dwelling poet. A Best Book of the Year at BuzzFeed, Interview, and more. Nature Poem follows Teebs—a young, queer, American Indian (or NDN) poet—who can't bring himself to write a nature poem. For the reservation-born, urban-dwelling hipster, the exercise feels stereotypical, reductive, and boring. He hates nature. He prefers city lights to the night sky. He'd slap a tree across the face. He'd rather write a mountain of hashtag punchlines about death and give head in a pizza-parlor bathroom; he'd rather write odes to Aretha Franklin and Hole. While he's adamant—bratty, even—about his distaste for the word “natural,” over the course of the book we see him confronting the assimilationist, historical, colonial-white ideas that collude NDN people with nature. The closer his people were identified with the “natural world,” he figures, the easier it was to mow them down like the underbrush. But Teebs gradually learns how to interpret constellations through his own lens, along with human nature, sexuality, language, music, and Twitter. Even while he reckons with manifest destiny and genocide and centuries of disenfranchisement, he learns how to have faith in his own voice.

Work the System Nov 22 2022 A Simple Mindset Tweak Will Change Your Life. After a fifteen-year nightmare operating a stagnant service business, Sam Carpenter developed a down-to-earth methodology that knocked his routine eighty-hour workweek down to a single hour—while multiplying his bottom-line income more than twenty-fold. In *Work the System*, Carpenter reveals a profound insight and the exact uncomplicated, mechanical steps he took to turn his business and life around without turning it upside down. - Stop fire-killing. Become a fire-control specialist!
- Maximize profit, create client loyalty, and develop enthusiastic employees who respect you.
- Identify insidious “errors of omission.”
- Maximize your biological and mechanical “prime time” so that you are working at optimum efficiency.
- Design the life you want—and then, in the real world, quickly create it! You can keep doing what you have always done, and continue getting mediocre, unsatisfactory results. Or you can find the peace and freedom you've always wanted by transforming your business or corporate department into a finely tuned machine that runs on autopilot!
